

NEW YORK, March 16: (AP)—Most persons are better off without any undergarments at all in summer and most of the winter, in the opinion of Dr. Wolff Freudenthal. If one should happen to get a cold, in following his advice, "let him take coal tar product and a good deal of whiskey and he will be cured in no time."

PRESIDENT'S FATHER SAME

Little Change in Condition Noted; Able now to take Nourishment

PLYMOUTH, Vt., March 16. (AP)—The condition of Colonel Jno. C. Coolidge was little changed today. An early morning report from the sick room said the father of the president had passed a restful night and was able to take a little nourishment.

Two Killed When Spar Tree Snaps

ABERDEEN, Wash., March 16. (AP)—Two men were killed instantly and a third seriously injured yesterday when a skyline spar tree snapped and crashed to the ground at Camp 12 of the Schafer Bros. Timber company, thirty miles northeast of here.

FORMER COP IN DRY LAW TOILS

EUGENE, Ore., March 16. (AP)—Harold Hurtt, former city traffic officer here, was yesterday fined \$500 and sentenced to serve six months in the Lane county jail for possession of liquor. He was arrested a few days ago in a general roundup of alleged liquor law violators.

THE WEATHER

The Cyclo-Stormograph at Underwood's Pharmacy shows but slight change in barometric pressure since report of yesterday. No great change in weather conditions is probable. Forecast for next 24 hours: Partly cloudy and unsettled, with moderate temperatures. The Tyco recording thermometer registered maximum and minimum temperatures today as follows: High 58; low 31.

Watch Your Breakfast

Energetic Mornings Depend on Breakfast—Start Always with Quaker Oats

HOW you feel all morning depends largely on what you eat for breakfast. Thousands have unenergetic forenoons because of wrong breakfast eating.

To feel right, you must have a well-balanced, complete breakfast ration. At most other meals—lunch and dinner—you get it. But breakfast is a hurried meal, often badly chosen. Thus Quaker Oats, containing 16% protein, food's great tissue builder; 58% carbohydrate, its great energy element, plus all-important vitamins and the "bulk" that makes laxatives seldom needed, is the dietetic urge of the world today. It is food that "stands by" you through the morning. Quick Quaker cooks in 3 to 5 minutes. That's faster than plain toast. Don't deny yourself the natural stimulation this rich food offers.

Florida Poor Location For Young Genius

Too Much Commercialism, Child Educator Says

NEW YORK, March 16. (AP)—Georgia is a good state to bring up children to genius, but Florida has too much commercialism, says Winifred Sackville Stoner, well known authority on child education.

Dr. Stoner, just back from a tour in the south, told the league for fostering genius last night that she had found 100 latent geniuses at Atlanta, Ga., and thirty at Athens. "I went to Florida," she said, "to find a place where geniuses might develop—a sunshiny place—but I found too much commercialism there. The genius cannot adjust himself to the wheels of commercial juggernaut."

In Miami, she said, even a parrot that perched on her shoulder said "buy, buy."

Dr. Stoner's plan is to have geniuses spend their winter in the south and summers in the north. Her method of picking geniuses was to watch children at play and without their knowledge apply tests of observation, concentration, imitation, exploration and creation.

The New WILLYS FINANCE PLAN

Smaller down payments and smaller monthly payments; the lowest credit cost in the industry

With an engine ability that surpasses anything in its price or size class, this Overland Six is entirely unequalled in its motor performance.

It will out-pull, out-run, out-accelerate any other car of its type. The straight line drive from the gravity balanced motor to the rear axle delivers greater usable power per pound of weight in the car.

The low swung body keeps the weight close to the ground—great road stability on curves and over ruts. In appearance this car looks \$500 better than its price—graceful body lines—beautiful finish—high quality upholstery—and amazing room.

To know this car, you must drive it—then you will realize its great value—Try it out today.

Spring and Summer Race Neck and Neck

SAN FRANCISCO, March 16.—Spring and summer appear to be neck and neck in the Pacific states instead of going it tandem as they usually do. The pink spring bloom of the peach and the white of the prune are meeting with the sort of mellow warmth that is usual only in mid-summer.

At Reno, not so far from the

Sierra snow belt, the mercury climbed to 70 yesterday. The highest figure recorded was at Needles, where the reading was 92. Some thousand or so miles to the north, at Seattle it was 71. While Portland recorded a temperature reading of 76.

The perennial summer of Yuma and Phoenix is being marked by something a little stronger than usual in the line of raising temperature. It was 88 at Yuma yesterday, and 86 at Phoenix.

The Brilliance and Snap of a Real Big Engine

POWERED by the largest engine used in any six priced below \$1000, the Pontiac Six has created an entirely new basis of comparison in the field of low priced sixes.

Here you find at your command what has heretofore been generally considered impossible in a car of this price—the stamina, snap and power of a big six-cylinder engine.

It is literally and emphatically true that the Pontiac Six, both in traffic and on the open highway, exhibits speed and flexibility that verge on the revolutionary. Yet breath-taking performance is but one of the reasons underlying the spectacular success of this new General Motors Six.
