

Mayor's Vote Breaks Up Deadlock; California to Have Paving During Year

Mayor Goddard's "aye" pushed the proposed California avenue paving project through a divided council last night and sent it on its first step towards paving this year.

Councilmen Cofer and Roberts vigorously opposed the project. Powell and Balsiger were just as strong in favor of it. Councilman Stuckey declined to cast his vote.

It was a deadlock at the council table and the mayor was called upon to cast the deciding vote, which he did with alacrity, voting "aye."

The proposed improvement was referred to the city engineer for preliminary plans and estimates, the first step toward its eventual paving this year.

Cofer Against

"If California avenue is to be paved, let it be paved right," said Councilman Cofer.

"That's my idea," chimed in Roberts.

"They need an improvement out there, and I'm in favor of letting them have it this year," Councilman Balsiger announced.

"That's sure Jake with me," Councilman Powell said.

Stuckey remained silent. The California avenue project was brought to a head by a petition from 45 property holders on California avenue and adjacent streets, asking for immediate action. The petition outlined a plan whereby the street would be left open in the center for

Want Street Grades

A petition by the California Oregon Power company requesting the city to establish grades on certain streets adjacent to California avenue was referred to the street committee.

The council granted Chief of Police Loueks \$195 for improvement of his office and vault.

Paul Landry, representing Crescent avenue property holders, asked that the block on the northernmost end of the proposed Crescent avenue paving be eliminated and that one block on Portland avenue be substituted.

W. P. Johnson asked the council for permission to establish a gasoline pump on Klamath avenue between Seventh and Eighth.

Permits Granted

Permits to operate rooming houses were granted to the Scandia rooms, Ninth and Walnut, and to Mrs. Nellie Beckley, 11th and Main streets. A petition to operate a rooming house, known as Robertson's rooming house was referred to the police committee.

Ten property holders asked for installation of a light at the corner of Fifth and Grant streets. The petition was referred to the light committee.

Two paving projects, Eleventh street from Esplanade to Pine and Sargent from Upham to Delta, were referred to the city engineer for preliminary plans and estimates.

Stewart's Daily Letter

By CHARLES P. STEWART
WASHINGTON. — Seriousness is United States Senator Gerald P. Nye's most obvious characteristic, at first glance.

A baby senator—he's a year or two older than "Young Bob" La Follette, but any senator of considerably under 35 belongs in the baby class—and a relative of the late Bill Nye to boot, it wouldn't be unnatural to expect to find a bit of frolicsomeness in his makeup.

There doesn't appear to be any of it there. There's no pomposity, either, but the senator distinctly isn't of the mirthful type.

Nye is a young man who thinks for himself. You don't talk to him long before getting that idea of him too.

He doesn't appear to be a senator for the mere sake of being a senator, like some. He's a senator because there are things he wants to accomplish and he can accomplish them best, if at all, in congress—the senate or the lower house.

They're serious things and he has them on his mind, which doubtless is why he's serious himself.

As everybody will recall, there was a fight in the senate over the question of seating Nye. He came from North Dakota as a

republican appointee of Governor Sorlie's, to sit until next November's election in place of the late Senator Ladd, who died in office. He came, mind, as a republican. Senator Neely, a democrat, led the fight to seat him. Senator Goff, a republican, led the fight to keep him out. It just goes to show how little the old party labels, "republican" and "democrat," mean these times.

Such was the predicament of Bobby Agnew, playing the role of Fred Henley in "Private Affairs" now at the Liberty theater. As the financially embarrassed lover of Gladys Huette in the screen play, he hit upon the plan of raising police pups. So enthusiastic was he over the idea that he collected five \$100 bills for puppies that had not made their appearance in this cold world.

Give your pipe a chance!

SOME pipes were "born with two strikes on 'em." Just never had a chance to offer their best. You can judge your pipe only by the tobacco you put in it. If you haven't smoked P. A., your pipe hasn't had its chance. To those men who know the keenest pipe-enjoyment, Prince Albert stands out like a beacon of cheer on a moonless night.

Prince Albert has put pipes into the mouths of more men than any other tobacco that ever came down the pike . . . and has kept them there! Because no other tobacco is like P. A. Cool and fragrant as mountain air murmuring through the pines. Sweet as the breath of spring.

P. A. won't bite your tongue or parch your throat, because the Prince Albert process cut out bite and parch right at the outset of P. A.'s brilliant career. This means that you can hit it up with your jimmy-pipe and P. A. from the minute breakfast is over until you nestle down between the sheets at night. You not only can, but will!

If you're looking for proof, you needn't search beyond the nearest shop where they hand out smoke-gladness in tidy red tins marked "Prince Albert." Give your pipe a chance. Pack it with P. A. and light up. That first wonderful pull will tell you P. A. was simply made-to-order for you!

P. A. is sold everywhere in tidy red tins, pound and half-pound tin humidors, and pound crystal-glass humidors with sponge-moistener top. And always with every bit of bite and parch removed by the Prince Albert process.
