Only a company such as "Union Oil of California" can make a motor fuel as good as—

# Union Gasoline

Non-detonating

Union Gasoline provides, and always has provided to Western motorists, the non-detonating feature which supplies full power to the pistons throughout their entire stroke and eliminates all explosive "knocking" or "pinging" on the hills or in heavy pulling—a quality for which Eastern motorists are now buying "special gasolines" and paying 3 cents per gallon in excess of usual prices for them. Yet Union costs no more than other high grade fuels.

Always use Aristo Motor Oil with non-detonating Union Gasoline because this combination minimizes carbon to the extent that motors in good condition are run for several years without it.

But, worse luck to the newspaper fraternity, it was not England's noted chancellor of the exchequer who violated Klamath's laws. Instead it was his namesake, from California, here on a business trip.

# At the PINE TREE

Vampires are coming in for a lot of good-natured kidding by Claire Windsor in "Dance Madness," the production now coming to the Pine Tree theatre.

Claire, in one sequence of the story, done a dark red wig, wears tight-fitting, black clothes, and slinks through one scene after another in pursuit of her unsuspecting husband, played by Conrad Nagel.

Miss Windsor has accumulated a few mannerisms from every screen vampire, and by adding a few of her own, plays in this picture what might be termed a symposium of vampires. Theda Bara, Nita Naldi, Barbara La Marr, Carmel Myers, and other sirens are the object of Claire's good natured burlesque.
