AND this new Star Six has quickly—almost instantly—won the confidence of the public. Not only that, but competitors have been forced to admit that in the field of Sixes, the Star Six offers a value far beyond its low price of \$895 here.

Consider the facts—let them prove the truth for all time. Here is a car built on a new engineering principle: new, ground-hugging lines; a Continental Red Seal 6 cylinder motor, cradled in multiple chassis; 90 inches of spring suspension; Fisk Balloon Tires; heavy, natural wood, artillery wheels; Bendix Four Wheel Brakes; Hayes-Hunt bodies; a special exclusive Japanese Blue lacquer finish; genuine gray Spanish leather upholstery; the famous, easy, disc clutch.

But these are only a few of the features that have set this new Star Six

in a commanding position among all cars. A hundred other reasons spring at you, startling you with the care and vision with which this new Six was conceived.

And the final argument is the price—\$895 here, including famous Bendix Four Wheel Brakes. No F.O.B., no more! "Here" means here—\$895 delivered at your door.

There are 360 Star dealers on the Pacific Coast. There's one near you, where you can make up your mind to drive a Star Six with Bendix Four Wheel Brakes.
