Politely Refuse

substitutes if you
seek the famous
Quaker
flavor

THE point to remember when buying breakfast oats is that only Quaker Oats have the rich Quaker flavor that you want.

One package of oats without that flavor may spoil your breakfasts for a week.

The price you pay is the same. Thus "trying" a substitute is a folly. Quaker flavor is the result of some 30 years milling experience. No other oats has it. Quaker milling, too, retains much of the "bulk" of oats. And that makes laxatives less often needed.

Get Quick Quaker, which cooks in 3 to 5 minutes, or regular Quaker Oats as you have always known.

Your grocer has both kinds.
