COOKING them in small quantities permits absolute control and brings out all their delicate flavor. The same with roasting coffee. Hills Bros. Coffee is roasted by our patented continuous-roasting process, permitting even temperature and constant ventilation. A purifying circulation of clean, fresh air during the roasting. Certainly Hills Bros. tastes better!

Ask for Hills Bros. by name and look for the Arab on the can. It's quite important. Hills Bros. Coffee is perfect in the can. To make it perfect in the cup, brew as described in "The Art of Entertaining," mailed free on request. Address Hills Bros., San Francisco.
