LETZ-DIXIE MIXED FEED MAKER

Reduces the cost of feed 25 to 50% Increases production 15 to 30%

Stop that monthly feed bill. The Letz Dixie will cut, grind and mix everything grown—makes a perfectly balanced ration from home-grown crops.

CAPACITY No. 344 Dixie with FORDSON TRACTOR

Table with 2 columns: Feed type and Capacity (lb. per hour). Rows include Corn fodder with cobs, Bar corn with chaff, Alfalfa or clover hay, and Soy bean with vicia.

Green, wet, or oily material will not clog the LETZ Dixie. Built in three sizes for 4 to 29 h. p. engines. Has two to three times the capacity per h. p. of any roughage mill made. Write or call immediately for further particulars, prices and samples.

CHILOQUIN

Charles Ling, the restaurant man, has returned from a business trip to San Francisco, where he has been for the past two weeks.

T. L. Snooks mother, who resides in Nebraska, and is quite advanced in age, has recently been quite ill. He has lately received word that she has improved in health, and is on the road to recovery.

Spring has really come as is evident by the large number of young and old who are availing themselves of the many swimming holes near Chiloquin.

Miss Virginia F. Prialux, who has been attending the University of Oregon, arrived Tuesday to spend the summer here with her parents.

Father Gels has just returned from several days visit with friends at Pendleton and Baker. He reports a very pleasant trip.

The Electric bakery, which has been under construction for the past few weeks, is almost completed. It is to be a very attractive building.

Building activities are coming along at a rapid pace in Chiloquin.

The Catholic church, which is under construction in West Chiloquin, is coming along nicely. A large 20-inch bell, to be used in this edifice, arrived from San Francisco recently and will be installed as soon as the building is completed.

Horses to be used during the coming four days celebration are arriving daily from different points. A string arrived from John Day valley Friday.

The new residences which are under construction in East Chiloquin are nearing completion.

CALEXICO, Cal.—Plans are being made for an aerial survey of the region flooded by the Colorado river through the Pescadero levee break south of the Mexican border

Captain Charged With Failing to Obey Magistrate

Charley Captain of Chiloquin was arrested Sunday by Deputy Sheriff R. E. Knowles charged with driving a car after his driving license had been revoked for one year by Justice of the Peace R. A. Emmitt last April. Captain had been convicted of driving a car while under the influence of intoxicating liquor.

Captain will probably come up for preliminary hearing here early this week.

PLAYGROUND HOURS CHANGED

Miss Viola Hill, in charge of the central playgrounds at the court house, announces the change of hours. Starting today the hours will be from 1 to 5:30 and 7 until 9 in the evening. On Sunday no hours will be scheduled. Miss Hill announces that outside of these

hours children will play at their own risk.

Even though this country spends \$90,000,000 a year on chewing gum, some movie seats have none on them.

IS FRICTION NECESSARY?

Just as the free rolling of wheels, shafts and bearings depend upon a minimum of friction, the reduction from a high speed to a low speed, or to a dead stop, depends upon a correct application of friction. Swiftly moving automobiles and trucks must have perfect correlation between brake band and drum, drum and wheel, wheel and tire, tire and road surface. Road grip is of extreme importance as a safety factor. Warrentite-Blutliche pavement satisfies the need of the tire for a smooth speedway when rolling and a sure grip when stopping or hill climbing more than any other durable pavement.

Mass Production Cuts Truck Costs

Sales of Graham Brothers Trucks have reached such enormous figures that buyers profit by unequaled low initial costs.

Note the price of the G-BOY, the new one-ton truck.

Only mass production, unapproached building and buying power, plus years of experience, could produce a truck so staunch and sturdy at so low a figure.

Up the beanstalk

WHEN Jack climbed the beanstalk, he got a new conception of his needs. No longer would just a hen do, but a golden-egg hen. No longer just a harp, but one that stood by itself and played. He didn't know what he wanted till he saw something better than what he had—though he labored hand over hand to get hold of that point of view.

Advertisements give you a high point of view without any climbing at all. They spread world products before you—servants to serve you—conveniences to please—prices low because so many thousands are using the same. They give you a new conception of what you'd like to own. No longer will a watch or food chopper do—but the highest improved watch or food chopper. No longer just a radio—but one of purest transmission. They make you change your mind about what you started to choose, and choose something more pleasing at no higher price. They help you see the whole field of satisfying wares. They lift you to fresh joys.

Read the advertisements Honest facts are in their news

The Allan W. McComb Company Advertising BUT IT COSTS too much to advertise. It is the frequent plaint. That's too true, if you just buy "space" and not "advertising." Hours 4 to 6 p.m. Willits Bg.—Phone 1090

NEW YORK.—The average life should last 150 years instead of 60 is the view of Richard Lynch as expressed at the congress of the International New Thought alliance.

Z Engine - biggest value dollar-for-dollar

WHEN you invest in an engine, the biggest value is the one that gives you the most dependable service, lasts the longest and costs the least over a period of years.

That's why a half million farmers have bought "Z" Engines. These famous power plants are made in the world's largest and finest engine factory. The country's foremost engineers design and develop them. While the "Z" has less parts subject to wear, those parts are carefully made, are drop forged and specially heat treated.
