You will be enthusiastic over a new French Process Cream for whitening and beautifying the skin. It is so pure and different from other creams. Women say they see a great improvement in their complexion after the first application. If you want smoother, brighter and younger skin, use MELLO-GLO Cream. It's wonderful.

COMPETENT TO JUDGE

There is no better way for you to learn the true value of commodities in general use than to read the advertisements day by day — regardless of whether or not you have any immediate intention of buying.

Those young housekeepers whose first experiences in marketing began in war-time have a fixed idea of high prices. Those of an older generation have an equally strong conviction that prices should be lower.

With the shifting changes of a rapidly moving world both prices and values are bound to fluctuate. A financier studies these trends with scrupulous care in published financial reports compiled by experts.

An intelligent housewife may similarly make herself a competent judge of values by studying each day's advertisements of the things she needs — just as the broker studies his stock list.

Then as she comes to buy she may do so with full confidence in her knowledge.

To stand the test of advertising,
merchandise must be good
