

STOCKS STILL ON UPWARD SWING

Prosperity in Many Lines Reflected by Continuing Dividends

NEW YORK, June 30.—(AP)—Returning confidence in the financial and industrial outlook contributed to the sustained strength of today's stock market, which forged ahead under the impressive leadership of U. S. Steel and General Motors.

While prospects of more liberal dividends supplied the incentive for accumulation of the premier industrial issue and leading motor stocks, a no less important factor in the phenomenal rise today was the announcement that steel production in the first half of the year had set a new record with prospects that the 1926 output would exceed that of 1925. Mill operations for the next sixty days, Iron Age reported, are likely to be maintained

at a rate substantially above the July-August average for the past three years, testifying to the unusual summer prosperity of this basic industry.

Operators found encouragement in the relaxation in money rate, indicating that the stringency resulting from mid-year settlements was about over. With the supremacy of the buying side established, there was also considerable covering by short interests who had been fighting the rise.

At The LIBERTY

A new Charles Ray! A Charles Ray of romance, a passionate courtier, a strenuous Street-phon! Charles Ray, that immortal essayer of American boy roles, is hailed as the latest great lover of the screen in "Some Punks" which comes to the Liberty tonight. In this story of a small town life Ray is said to submit an entirely new phase of his histrionism. Heretofore he has been known for the bashful, adolescent boy boys of "The O' Swamin' Hole," "Scrap Iron," "The Girl I Loved," and "The Courtship of Miles Standish."

Christopher William Johnson Jr., of St. Louis, is only four years old, but he has been around the world three times and has traveled about 100,000 miles in his short lifetime. His father is a wealthy manufacturer whose hobby is taking his wife and son around the world.
