So Now It's Dr. Henry Ford

Henry Ford has the title of doctor now, and this picture shows him getting it. He was given the honorary degree of doctor of mechanical engineering at the University of Michigan commencement exercises.

**"EDDIE" COLLINS THREE DROWN
 TO BOLSTER WEAK NEAR PORTLAND
 PLACE ON TEAM**

Namesake of Famous Manager, from Copper League Signs With Locals

"Eddie" Collins from the Arizona Copper league arrived in Klamath Monday night and has been signed up to play one of the weak spots in the Klamath-Pelican line-up. Collins' regular position is first base or catcher and as yet he has not been called upon to hold down Aiken's corner while the latter is recovering from injuries to his back which kept him out of the Medford massacre last Sunday. Collins has been out to practice with the club the last two nights and looks good, according to the fans. He is a big boy and meets the bill right on the trade mark.

The new players who can play either an infield or outfield position are due here today from the Willamette valley where they have just closed a season with one of the college ball clubs. A western Oregon scout for big time ball players has sent in a high recommendation for the two young players coming to try out with the Klamath club, and one or both of these boys may find a berth on this club if they can deliver the goods.

With the new material on hand local baseball stock has taken a decided boost and the fans who turn out for the exhibition series between the Pelican club and Willamette, Calif. leaders in the Sacramento valley league on July 3-4-5 will be treated to some real baseball, according to the up-to-the-minute outlook.

Local Matron Is Victi mof Malady

Suddenly stricken with acute appendicitis, Mrs. E. H. Lawrence was operated upon last night at the Klamath General hospital. She was taken from her home at 1194 Crescent to the hospital at about 6:30. Her condition today was said to be good.

PORTLAND, Ore., July 1. (AP)—Robert Schad, 17, son of Patrolman C. S. Schad, of the Portland police force, was drowned while swimming in Creston park yesterday. Drowning resulted from a weak heart. The body of another victim, William Bullock, drowned in the Willamette river Sunday, was recovered yesterday and search made for a third, William Boise Baska, ex-phonograph salesman, who was drowned in the Willamette river when his canoe overturned.

ALGOMA

ing at the home of his father, Geo. Helms.

Mrs. Pat Winfrey who recently had her tonsils removed in an Ashland hospital has returned home and is recovering nicely from the operation. Bill Windsor is greeting friends at home.

Algoma won the baseball game on Sunday at Malin, the score being 14 to 15.

Guido Pierenchini is driving a new Jowett sedan.

Mrs. Howard Dunn and children who have been visiting relatives in southern California, are expected home.

Mrs. A. Anderson, who is visiting her daughter in Chico, is expected home the first part of July.

An ice plant has been installed in the hotel by the Algoma Lumber company for the purpose of supplying the camp with ice.

Joe Evans drove home a new Chevrolet sedan Tuesday evening. The much needed fence is being erected around the school yard during vacation.

Mrs. E. Gray is spending a month's vacation in Portland.

Salt has a very agreeable taste in hot weather if a stein of beer is added to half a teaspoonful.

OUT OUR WAY

HEROES ARE MADE - NOT BORN.

Have You Met "The Union Oil Company?"

Do You Know "Who It Is" and What Its Aims Are?
 The Purpose of This Announcement is to
 Introduce It to You

NO DOUBT you buy the products of this Company—non-detonating Union Gasoline and Aristo Motor Oil. And you know they are efficient in your motor.

But that doesn't satisfy us. We want you to know these products "personally"—the organization behind them and the standards and ideals on which it is built.

"Union Oil of California" is an organization that is forty-three years old. It is all Western. Its founder, Lyman Stewart, whose son is president of this Company today, drilled some of the first wells in the West in 1893.

Since that time "Union Oil" has developed as the great wide West has developed until it has become one of the biggest industrial institutions in this part of America.

The management and progress of "Union Oil" has always been in the hands of Westerners. Many of the most prominent pioneers in California have been associated with it. And in the growth and expansion of the oil industry "Union Oil" has been a prominent figure for four decades.

Today, as in the eighties, the control of "Union Oil" is vested in directors who are business men and "oil men" with years of practical experience behind them.

But the mere production and refining of crude oil is not their sole interest. Their main interest is

in you who drive a motor car—to serve you to this company's best ability.

Because you are the buyer of these products, and you must be served in such a way that you will be friendly, be pleased, be well served, so that you will buy and buy again.

For 10,200 stockholders—76% of whom are themselves Westerners—look to these men for dividends.

So these directors work for people—for you, so that you will gladly buy the Company's products—and for those thousands of stockholders so that their investment will earn a reasonable profit.

When you use non-detonating Union Gasoline and Aristo Motor Oil, therefore, you are dealing with an institution which is a community affair—a Western institution, paying \$15,600,000 yearly in salaries to Western employees and the greater portion of its dividends to Western people, a Company directed by Western men, whose products are "Western made" for Western motoring conditions.

"Union Oil" isn't soulless—it is human. It wants you for its friend. It renders service and manages its business with that desire uppermost in all of its endeavors.

Thus it is "introduced to you." And it invites you to enjoy a closer, better acquaintance in the future through the use of the products that it makes.

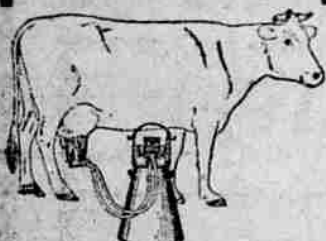

**Union Oil Company
 of California**

This is one of a series of announcements by the Union Oil Company which we believe will be of special interest to all Westerners. Others acquainting you with the development of the oil industry will appear from time to time. Look for them in this publication.

At Last

A milking machine you can afford to buy
