HOUSES BURN IN PELICAN CITY

Two small frame houses in Pelican City were destroyed by fire early Sunday morning, the Klamath fire department making a fast run to the scene and assisting the Pelican City workers in extinguishing the blaze.

The houses were occupied by Pelican Bay mill workers who concentrated their efforts on protecting the big lumber yards across the street. A line of hose had been laid in the mill yard by the time the fire department from Klamath Falls had arrived.

AUTOS BURN IN IN GARAGE BLAZE

At 2:10 yesterday afternoon the Klamath fire department was called out to fight a stubborn fire which started in the county machinery storage compartment at the rear of the Chevrolet garage on lower Sixth street.

Several county trucks were badly damaged by the flames before the conflagration was finally extinguished.

The fire department was called out at 9 o'clock this morning to put out a fire which threatened a night car parked in front of the Hillside grocery on Oregon avenue. Little damage resulted from the blaze.

MINISTER AWAY

At The Liberty

"Smiling George" O'Brien nails another rung in his ladder of different screen characteristics. In "The Fighting Heart," which opens today at the Liberty Theatre, the genial star portrays a role that is a wide contrast to any formerly characterized by him.

For the second time Smiling George comes under the direction of John Ford, brilliant director, who made the year's screen sensation, "The Iron Horse"—which scored heavily for both O'Brien and Ford, George's role of Davy Brandon in "The Iron Horse" was the smiling young man's first leading role in the picture.

Since the completion of his first success, George has ascended to the peak of the screen profession, by virtue of a succession of splendid screen characters that not only called for the usual requisites of a star but for diversified histrionic talent, coupled with superb physical strength.

For the Man who is Geared to go on "High"

Here is a companion ready to serve you with lusty power and willing speed

NAME four great, popular trains—"The California Limited"—"The Overland Limited"—"The Olympian"—"The Oriental Limited"—why—because they are modern trains—designed to go fast and with comfort.

Name the great popular favorite among the light sixes—instinctively you think—"Overland Six"—why—because it is a modern car—built to go fast and with comfort.

Nothing like the great ability of the modern type, six-cylinder motor in this car can be found in any other car of near its price or size class.

This is proved in every day performance, for the Overland Six will out-run, out-pull, out-perform, any other car of its type—and service records from better than 70,000 owners are proving every day that it will outlast any other car in any way competitive with it.

Modern engineering is the reason—a motor built to maintain an average of better than 40 miles an hour—designed to deliver its full power in a straight line direct to the rear axle—mechanically right for the kind of driving that the modern man or woman insist on—the composite best of eighteen of the finest European and American motor cars.

Low swung weight—the result of the proper designing of the body, the proper suspension of the power plant—give this Overland Six remarkable road stability—you ride curves like a limited train—all four wheels securely on the road.

And Pullman-like luxury is secured from generous body dimensions—long, scientifically suspended springs and balanced weight.

Ride in this remarkable car—try it out—test it on a favorite hill—you have a new experience in store.

Among the Letters You Get--

Among the letters you get there's one letterhead that stands out in your mind from all the others.

Perhaps you never thought of it before. But right now, without any effort at all, you recall a letterhead you've always felt was good.

Multiply your impression by the number of all the folks to whom that letterhead goes, and think what a tremendous asset it must be to the firm whose name it bears. Why shouldn't you have a letterhead like that?

Call us right now, while the idea is hot, and let us send a man to tell you what letterheads like that cost.

Probably no more than the ordinary kind. Anyway, let's find out.
