Why Little Boys Leave Home

"Rusty," 12-year old boy living in Springfield, Mo., admired Babe Ruth, but had never seen him. So he ran away from home and walked all the way to St. Louis where the New York Yankees were playing. The police arrested him as a runaway, but took him to the game, where the Babe autographed a ball for him and then hit a homer. Rusty was taken back home, satisfied.

The good work that a good motor oil does goes on where you cannot see it—it must be "taken on faith."

That faith must be in the refiner more than in the oil, because most oils look alike when you buy them.

In "Union Oil of California" you can have faith because it has a forty-three-year old reputation to protect in the products it sells, one of which is

Aristo Motor Oil

Non-Carbonizing Western

Aristo Motor Oil is all lubrication, containing neither paraffin nor asphalt. The hard, flinty abrasive "carbon" that many motorists find on valves, cylinder heads and spark plugs after a few thousand miles of use never comes from this fine Western oil.

The small amount of residue that Aristo leaves is a fine, soft, fluffy substance, most of which blows out with the exhaust.

Motors in good condition which are lubricated with Aristo, therefore, run several years without the troubles, lay-ups and expense so often due to "carbon."

A further preventative of "carbon" is the use of non-detonating Union Gasoline with Aristo Motor Oil. This combination is probably the most effective that is known.
