B. C. Miller, Pastor.

"The All-sufficiency of God," will be the theme for the morning sermon by the pastor. We have a God that has promised to supply ALL our needs according to His riches in glory. This He will do if we believe. It is the lack of faith that hinders and cripples His children. All things are possible to them that believe in His promise. In the evening, the sermon will be "The Greatest Promise in the Bible." Our evening services are very popular. The band will begin playing at 7:45. Song service begins at 8 o'clock. Men and women are finding their way to the altar and to God at these evening services. The gospel is still the power of God unto salvation to every one that believeth.

The No-draft Ventilating Windshield

An exclusive feature of Studebaker Custom Sedans

STUDEBAKER engineers have developed a new-type windshield which insures a constant flow of fresh air without drafts or moisture.

By turning a handle on the dash, the windshield may be set to deflect the air up over the heads of occupants, or down through specially designed channels into the driving compartment. Midway between these positions it forms an air-tight barrier.

An added advantage is that when set for cowl ventilation, air is allowed to enter, but no water can come into the car, even in the severest storm.

High engineering authorities have pronounced this the most scientific and satisfactory type of windshield ever produced. It is an exclusive feature of Studebaker Custom Sedans. See it on Studebaker Custom Sedans at our showroom.
