A Baby

Shall little Alice Moore—the baby girl burned severely several months ago—be taken to the county poor farm? That question has been up before, and it is now up again.

The Kiwanis club, composed of big-hearted, generous men, has prevented the poor farm from being a home for the little tot for several weeks. Now it is some one else's turn to help.

It will be remembered that the little baby girl met with a severe accident, that her parents are destitute and have

been quarantined for weeks, that Rev. Mr. Thomas with the community chest cared for the family for some time and that the hospital has carried its share of the burden.

But, now comes the time when the poor little child must have aid again or she must go to the poor farm which is said not to be equipped to properly care for her.

Society has these problems. While laws have been passed and rules adopted for caring for them, there never has been any such law or rule worth while compared with the wide open charity of humanity—a cardinal point in the good man and good woman, a pillar in the Christian's life.

Herald's Sign Of Spring

The Indian may have his spring time signs, the groundhog may have his, but the Evening Herald has an infallible sign.

When our carrier boys and street salesmen form in groups and pull out the agates and "dough-babes" engaging in the old time spring game on the vacant lot near the office, then we know that spring "has come," and no mistake.

Already there are many other signs of approaching spring, although officially it is not due to arrive until March 21.

Spring is the season of reincarnation, rejuvenation and radiant life. It is only to man that January 1 represents the birth of a new year and the calendar year is an artificial structure. With plant life and that of the lower animals the coming of spring is at once the birth of a new year and new life.

Humanity recognizes and speaks of a new year as from January 1, but nevertheless observes it from the first breath of spring. After the departure of the dreary and stifling winter and with the coming of refreshing and magnetic spring there is new life and new hope created in the breasts of men and women. Spring brings great plans and high resolves which only winter can demolish or deter.

It is not sufficient to say that the homing instinct is convenient in the spring. It is natural and not to be gained by man or beast. Spring urges the bird to build its nest, the animal to burrow into mother earth and man to plan his home, but neither bird, beast nor man knows nor asks why. Spring is the one and only irresistible force.

15 Years Ago Today

Evening Herald March 1.

Robert A. Johnson and William L. Clarke arrived yesterday from San Francisco to take up work on the new Shippington box factory, the Klamath Manufacturing company. Johnson is president and Clarke, vice-president and secretary. The new plant will start operation tomorrow.

At 3:30 p. m. today, the jury in the trial of Nobel Paulder for the killing of Louis Gebhardt,

cook at the Erickson and Patterson construction camp near Williamson river last August, was completed and sworn in. C. M. O'Neill was counsel for the defense; District Attorney D. V. Kuykendall handled the case for the state.

Robert A. Emmitt, some time since chosen by the council to do some calculating as to the possibility of the city obtaining a water supply and who was accompanied by Councilman J. Fielder in locating the Aspen Lake Springs source of supply filed on by the

city, made an offer to the council last night to build a pipe line of water for the city for \$135,000, which evidently does not include any construction within the city limits.

FLASHES OF LIFE

Demoralizing.
 PHILADELPHIA, Mar. 1.—On the ground that such beauty pageants are demoralizing, five women's organizations are asking the Atlantic City chamber of commerce to discontinue its annual affair.

Tolerance Abandoned.
 ROME, Mar. 1.—At the request of Pope Pius, Lenten preachers in this city will recommend "the dignity of a human Christian costume" and the abandonment of "certain tolerances in dances and fashions."

NEW YORK, Mar. 1.—The well dressed New York man shall have seven suits, including a claw hammer coat that shall be worn in place of a Tuxedo when women are present. His trousers shall be from 17½ to 19 inches wide at the bottom. These are fashions from the New York costume cutters club.

No Suicides.
 WASHINGTON, Mar. 1.—Rush of cold wind purifies philosophies, in the opinion of Dean Laycock of Dartmouth. Therefore, he told sundry Dartmouth-born renewing their childhood at a banquet, what the younger generation needs is to ski over the hills and valleys. There have been no suicides at Dartmouth.

Almoe Is Prosperous.
 NEW YORK, Mar. 1.—Almoe Temple McPherson has got an idea from the great white way. An electric sign, 70 feet long is to hang 150 feet in the air between the towers of her radio station in Los Angeles. Madison Square Garden is willing to let her run a two weeks revival there in summer for \$25,000. Her largest tentative offer is \$800 a day.

Editorial

(Continued from page one.)
 the time will very likely soon come when these facts must be put up to the Interstate commerce commission relative to the building of feeder lines.

Naturally, the paramount question today is, will the Northern lines accept the decision and build to Painina? That is a matter for them to decide, but it must be borne in mind that was their original request. Regretful as we all are that permission was not given to lay their own rails into this city, there is still brightness ahead on a common-user plan provided the branch line and feeder question is properly adjusted.

Uncensored Observations

Speculating with your own money is risky but with borrowed money it is dangerous.

In a small town you don't read the bluest news; you hear it.

Captains are no longer allowed to marry folks aboard ship. Thus the perils of the sea are being reduced one by one.

If they ever become mixed up.

Onyx Hodgers—"Best in the long run."

Otis Elevators—"Good to the last drop."

Klaxon—"His master's voice."

Ford—"I'd walk a mile for a Camel."

Fatima—"I'm in town, Hokey."

Ivory Soap—"There's a reason."

Listerine—"What a whale of a difference just a few cents make!"

Palmolive—"44 years without loss to an investor."

B. V. D.—"Ask the man who owns one."

Cunard—"It floats."

Many a man who has succeeded in getting the upper hand, did it by using underhanded methods.

"A false alarm!" the fireman cried when the red-headed woman went by.

How time does fly between seven and eight in the morning!

The people who deserve no help are always seeking and getting it.

Think how the king of Italy would be flattered if somebody should shoot at him.

The victim's bank account shows what the surgeon operated for.

Ludicrous sight—the young sheik wearing a raccoon coat with bare head exposed to the elements.

A soft answer turneth away wrath, but it takes the hard cash to turn away the installment collector.

ADVICE TO BRIDEGROOMS
 Our tip to the man who is just getting married is to buy his wife such fine china that she'll never trust him to wipe the dishes.

The man determined to get on by hook or crook is one.

Fifty passenger straphanger automobiles, having only a few seats for women, the aged and crippled war veterans, are operated in one of the poorer districts of Paris.

In northern Chile there is a "dry belt" where it has not rained in 25 years.

Mrs. Beulah Graham of Oakland, Calif., was a grandmother at the age of 26.

Music is as much a part of education as algebra, believes Superintendent Setton, of Atlanta schools, who has arranged for his pupils to hear symphony concerts.
