NEWS NOTES FROM KIRK

(Special To The Herald)

KIRK, Ore., April 11.—Friends of Miss Lucile Meyers at the Forest Lbr. Co. camp are planning a dance to be held in the community hall Saturday evening, April 16 at which a collection will be taken up to provide a flower fund for the young woman who is suffering with tuberculosis in a sanatorium at Colfax Calif.

Miss Meyers is the daughter of Mr. and Mrs. T. Tuncliff. She has spent a part of the past two summers at the Forest camp where her step-father is employed as a train conductor and made many friends in the community.

Mrs. Ira Ashworth of the Forest Lbr. Co. camp spent several days shopping in Klamath Falls last week.

Ed Jones and wife of Hood River, Oregon, are guests of Mr. Jones' brother, F. W. Jones and family, at the camp of the Forest Lbr. Co.

Miss Thelma Colvin, who recently moved with her parents, Mr. and Mrs. John Colvin, to Salem, Oregon, is paying a visit to her friends at Martin. She is the youngest of Mrs. Fred Christy.

Mrs. V. V. Henderson, whose husband is employed as "cat" driver at the woods camp of the Forest Lbr. Co., was taken to Klamath Falls Saturday where she is receiving treatment for a faulty heart condition. Mrs. Henderson has been ill for some time but her condition was not considered serious until Saturday when she was immediately rushed to town.

At Lamm's Camp.

Mrs. Cecil Lowe and children have moved up from Klamath Falls and are now making their home at the camp of the Lamm Lumber company where Mr. Lowe is employed as logging train conductor.

Wm. O'Brien, section foreman for the Lamm Lumber company,

spent Sunday with his family in Chiloquin.

"Vic" Palmer, conductor on the Kitz-Creosent Lake local is ill at his home in Klamath Falls suffering from an attack of influenza. A conductor was sent up on the local Monday to relieve Mr. Palmer while he is unable to attend to his duties.

Return Home.

Bernard Hoffer who came down from the Hoyt ranch on the Big Marsh Thursday returned home Tuesday with the mail and supplies for the ranch. He made the trip with a team and wagon but the recent storm, he said, made him wish he had brought a sled.

NEWS NOTES FROM KENO

KENO, Ore., April 11.—Hazel McClelland, county health nurse, made a visit to the school Friday afternoon.

Mr. and Mrs. L. O. Miller of Klamath Falls visited here Sunday with Mrs. Miller's parents Mr. and Mrs. Thomas McCormick.

Kathleen Andrews is absent from school this week on account of illness.

Mrs. George Manning and Mrs. George Way, who have been visiting here with relatives, left the first of the week for their homes at Eugene and Bandon.

C. V. Nelson has moved to Spencer Creek where he is helping L. W. Anderson with the care of his sheep.

G. H. Nelson is busy hauling hay for his dairy cows these days.

T. J. Prather of the Keno store was buying supplies in Klamath Falls on Monday.

Mrs. Rose Simmers and a party of friends motored to Dorris, California, one day last week. They reported the road as "frightfully rough."

H. Martinson came down from his island home Monday, to dispose of a quantity of eggs and also buy supplies.

What a Hobby!

WHERE 2,000 DIED IN JAPANESE EARTHQUAKE

A Japanese priest stands in prayer amid the smog and ruins of Miyayama, Japan, where an earthquake snuffed out 2,000 lives. To the right of the picture, behind the Japanese carrying his son after the manner of an Indian papoose, lies the twisted wreckage of a flivver.

TAKE STEPS TO CHECK POSSIBLE SPUD DISEASES

Quarantine Regulations Will Be Rigidly Enforced by County

Fear of possible transmission of the dreaded eel worm and tuber mouth diseases, and determination to take all necessary steps to protect the Klamath potato industry, led to the announcement from the county agent's office this morning that quarantine regulations governing potato importations would be rigidly enforced.

Faced with a seed potato shortage in Klamath, the county agent's office is anticipating an influx of seed potatoes from California. In many California districts the eel worm and tuber mouth disease is prevalent.

Instructions have been received from the state horticultural department to closely check on all incoming shipments.

Most Bear Certificates. "Potato importations can be received only in Klamath Falls," Wray Lawrence, assistant county agent said this morning. "Each car must bear a certificate of fumigation or a certificate stating that the potatoes do not come from a section where potato diseases prevail."

"In the latter case, the certificate must state that the potatoes have been inspected in the field and at time of shipment. The potatoes will be inspected upon their arrival in this city."

"No effort will be spared by this office to protect the Klamath farmer's potato fields from possible infection. This section is free of disease and we intend to keep it so. Any infractions of regulations will be followed by quick prosecution."

Plan To Import. California potato operators who plan operation in Klamath will undoubtedly ship their seed potatoes into Klamath.

"Their seed potatoes must be rigidly inspected before they are allowed in a Klamath field," Lawrence said.

TIN AND GOLD FOUND IN ORES

(Continued from page one.) Jake Fry, of Hahoe, on the lower Rogue, stated today that his father, James M. Fry, took the metal from ore found at the mouth of the Illinois in 1871. He asserted that when the ore was put on a forge it yielded buttons and small beads.

"Money," says a financier, "means trouble." Then it's the only kind of trouble it's difficult to borrow.

Fox Film Company To Take Pictures Of National Park

MEDFORD, Ore., April 11.—

(Special.)—Southern Oregon, through Crater lake, is to receive world-wide publicity this year, it was announced today by the local headquarters office of the Crater lake national park, permission having been granted to the Fox Film Corporation to make scenic films at the lake during June, including all beauty spots of the park.

The pictures will be shown in approximately 20,000 theaters in the United States and will be sent to 79 foreign exchanges. In addition to scenes at the lake, pictures are also to be taken of the valley and efforts will be made by camera men to arrive here early enough to get pictures of the valley orchards in bloom.

WINTRY BLASTS HURT WOOLMEN

(Continued from page one)

They had hoped for fresh range grass but were disappointed when snow covered the ground.

Many wool growers are faced with the necessity of hauling hay to their flocks, an expensive procedure. Several days of sunshine to bring a thaw, and to bring out the fresh range grass, would save the situation, it was said.

Ranch operations, which were in full swing just prior to the last week's snow storm, have stopped because of cold weather. Farmers cannot plow their fields in preparation for planting until the weather moderates.

CATTLEMEN TO BUILD 30-MILE FENCE IN LAKE

Will Enclose Grazing Territory in Fremont National Forest

LAKEVIEW, Ore., April 11.—(Special.)—Construction of a thirty mile drift fence enclosing some 140,000 acres of grazing lands in the Little Chewaucum country was endorsed by stockmen of Paisley and Silver Lake in a joint meeting of the Northern Lake and Central Fremont Cattle and Horse Associations at Paisley. The project long contemplated by Fremont Forest officials was submitted to stockmen. Work on the fence will be started as soon as roads will permit.

The long drift fence is planned for enclosing the grazing lands of the Fremont Forest restricted to grazing of cattle preventing their

straying onto sheep ranges and doing away with the services of range riders as was customary in the past. With the new fence it is thought that two riders will be sufficient to care for the cattle on the range. The huge pasture will have a grazing capacity of 7,000 head.

The fence follows roughly the line along Dairy Creek to the west boundary of the Forest including Gearhart mountain, turns north to Syvan valley and then eastward to Carrier camp and the Summer Lake rim near the Carrier trail. The fence will be constructed of four and five barbs wire, well stayed and by means of link and pin staples can be let down during the winter to prevent damage by heavy snows.

The cost of materials of the fence will be met by the cattle an-

Baby Girl Born—Mr. and Mrs. D. V. Amick of Duraw street are the happy parents of a baby daughter born on Sunday night.

Here's what "kilowatt-hour" means in dollars and cents

"Kilowatt-hour" sounds technical. But see how simple it really is.

Here is a 50-watt lamp. Use it one hour.

That makes 50 watts for one hour—the same as though you used one watt for fifty hours. Now let it burn for 20 hours—in 20 hours it will use one thousand watt-hours, or one kilowatt-hour.

"Kilo" is a Greek word that means thousand. A kilowatt is one thousand watts—so one hour's use of one thousand watts is called a "kilowatt-hour." People who know electrical things by their first names call it "K.W.H.," for short. It is the unit of measurement for your electricity.

You buy electricity by the kilowatt-hour, just as you buy potatoes by the bushel. A kilowatt-hour may cost ten cents—although it will be less than that if you have an electric range or other economical appliances.

Now see how cheap electricity is, by the penny's worth!

The 50-watt lamp that keeps your living room lighted while you're away at the movies uses 100 watt-hours in two hours' time.

That is just one-tenth of one of those mysterious kilowatt-hours—one cent, or even less, for two hours' service!

Electricity is the cheapest service you can buy.
