Frigidaire Sales Service

E. T. HUNTER, Agent.

601 Main Street Phone 618 Klamath Falls, Oregon

Take ice from your kitchen lamp-socket!

It's as simple as that!

The same economical electric current that does everything else about the modern house now delivers ice, too,—direct to your refrigerator without fuss, drip or bother.

Just attach to a kitchen lamp-socket. Put your hand inside and feel the air grow cool—cold—ice-cold—colder!

Electric refrigeration keeps air crispy-cold and dry. Foods stay fresh. Dangerous summer bacteria that breed in cool moist places shun the clean, dry, frosty cold of your electric refrigerator.

Even your present refrigerator can be turned into an electric. Ask your dealer to show you how simply and economically it can be done.

Attractive installment payments can be arranged.

Eddie Cantor, Cyclone and Comedy
starring in

"KID BOOTS"

Eddie in this screaming farce comedy. Incidentally Kid Boots is the first Florenz Clara Bow and Billie Dove are big helps to Ziegfeld production to reach the screen--it played three solid years in New York--let's see what they wild about--it might be good!

Harry Borel and His Orchestra of Course

At The Liberty

"The Golden Strain"

It's a Peter B. Kyne story which in itself is a guarantee of merit and the cast includes Hobart Bosworth, Madge Bellamy and Kenneth Harlan. A lively army story staged in the southwest—you should find much to interest you in this one.

The Evening Herald

Best Advertising Medium in Klamath County

Farmers who know the sturdy John Deere marvel at its great power. They see this compact, light weight tractor—hundreds of pounds lighter—outperforming larger, heavier tractors in difficult conditions in the field and at the belt.

Here's the Reason:

This 25-27 H. P. tractor weighs only 4,000 pounds—hundreds of pounds lighter than other tractors of the same rating; power ordinarily wasted in moving excess weight in the field is applied to the drawbar of the John Deere.

The John Deere is hundreds of parts simpler—it's the tractor of fewer and sturdier parts. Fewer moving parts reduce friction, one of the biggest power thieves in many other tractors. Belt pulley is mounted directly on crankshaft—no power loss.

All operating parts of the John Deere are automatically oiled and completely housed in a dust-proof case—oil is positive, dust and sand cannot get in to cause friction, loss of power, and undue wear.

John Deere one-piece frame holds all units in permanent alignment.

The great power of the John Deere will surprise you. Drop in and see this sturdy tractor next time you are in town. Let us arrange a demonstration.
