**Jury Continues**  
At the personal request of Circuit Judge A. L. Leavitt and District Attorney W. M. Duncan, the grand jury agreed to continue throughout the June term of court.  
"It speeds and facilitates the disposition of criminal cases to have a grand jury which has had experience in that capacity," Judge Leavitt told the inquisitorial body, just before they were dismissed. It would be a great help to the court if you would continue in session throughout the June term. I would estimate that you would be called twice between now and next November."

The grand jury has been in session for two days. It is one of the speediest and yet one of the most important sessions of the jury in the past three years.

Personnel of the jury is as follows: C. H. Underwood, chairman, Harry Telford, C. H. Turner, E. D. True-love, H. H. Boggs, J. C. Edsall and J. S. McClelland.

**Forest Lumber Co.  
Officials Here to  
Inspect Big Mill**

On one of their visits of inspection, R. B. White, W. Grennon, J. Grennon and Mr. Shepherd, all members of the board of directors of the Forest Lumber company interests, are spending several days at Pine Ridge looking over the company plant.

The group of timbermen from Kansas City represent one of the most extensive and comprehensive lumber manufacturing concerns in the United States. One of the features of the concern is that it devotes the same care and foresight in the retail end as it does in the manufacture.

F. C. Broadway, Kansas City, traffic manager of the concern is expected to arrive in Klamath Falls tomorrow to join the party of lumbermen. The Forest Lumber company two years ago bought the Modoc Lumber company, then partially controlled by the Menefee interests, and formerly operated by J. O. Goldthwaite.

**Rumor of Equipment  
Arriving for Modoc  
Northern Dispelled**

Rumors of construction equipment shipped into Klamath Falls by the Southern Pacific—a move, which if true, would indicate the immediate construction of the Modoc Northern railroad—were late yesterday found to be erroneous.

When queried by the press, S. P. freight officials said that several car loads of dinkey engines and cars, used here last year by the Utah Construction company in the building of the terminal yards here and held here since, were being sent back to the construction company headquarters in Salt Lake City, Utah.

"We have received no word of construction equipment being shipped north to Klamath Falls for any purpose," J. J. Miller, district freight and passenger agent, said this afternoon.

**OAKLAND, Calif.**—Mrs. C. C. Noble is of the opinion that we hear more about the escapades of young people today because our publicity facilities have developed. She might also have told the national congress of parents and teachers that for the same reason we hear more about young peoples' achievements—Lindy's for instance.

A New Jersey woman had her husband arrested because he held out 50 cents of his pay. A capital offense.
