"GGG"

Twist Suits

The finest wearing materials in America.

\$40.00 and \$45.00

Don't fail to see these suits before you buy.

EDDIE PECK

This is Eddie Peck, slugging La Grande fighter, who tonight meets Kid Souder in one of the preliminaries in the third Chiloquin fight card. Peck is known to be good; Souder is a dark horse. Tim Calahan, sorely topped Klamath Falls welterweight meets George Ingersoll, Astoria, for the second time. Their first meeting ended in Ingersoll edging out a draw after a slashing fight. Mike Daly will meet Abe Tunney in another prelim. Billy Huff was scheduled to fight Cyclone Walker, but, it is understood, that Huff ran foul of the prohibition law and his fight will be substituted.

The Weather—

The Cyclo-Stormograph at Underwood's Pharmacy shows that the decline in pressure that started yesterday morning still continues and conditions are favorable for showers. Forecast for next 24 hours: Cloudy

and unsettled with brisk winds and moderate temperatures. The Tyco recording thermometer registered maximum and minimum temperatures today as follows: High 64 Low 43

C. H. UNDERWOOD STRIKES KEYNOTE

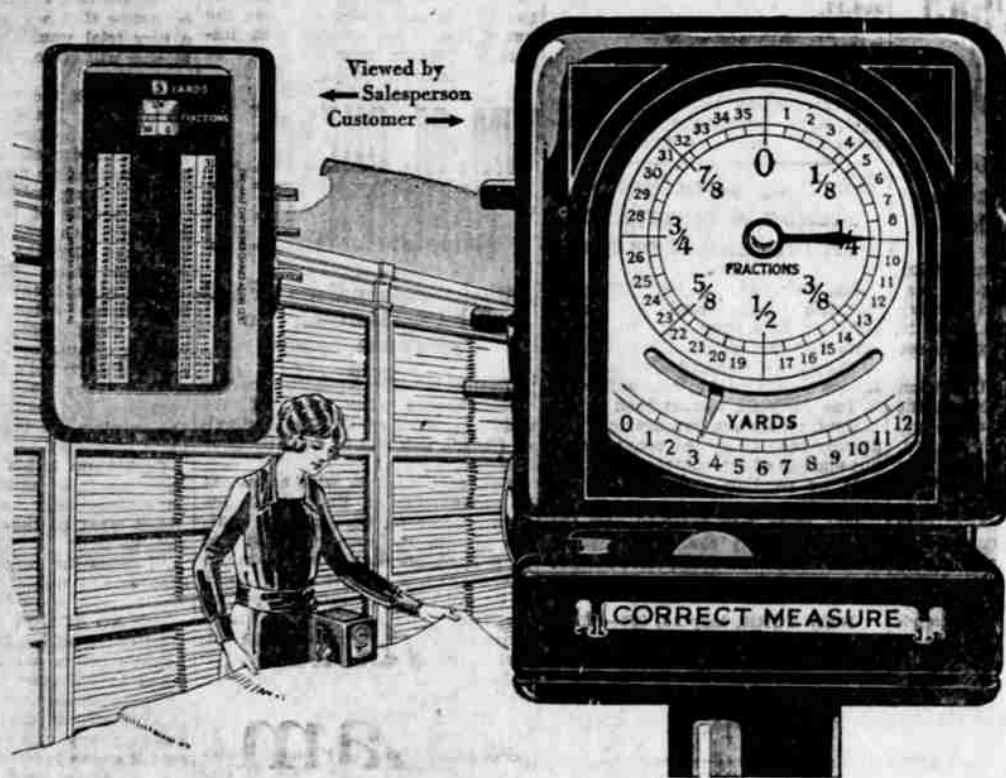

(Continued From Page One)
We have vacant lands; they are being made more accessible to markets, and the County Court is carrying on a fine work in its endeavors to give to all farmers the benefits of good roads to the railroads, Klamath Falls and markets generally.

The committee on community literature is just completing the publication of 5000 road maps, 15,000 agricultural folders and 20,000 vacation folders. This literature placed in the hands of tourists and home seekers will go far towards letting the public know of our resources here. This is one activity that the chamber should keep going. We have a growing and developing country, and this is a comparatively inexpensive way of securing valuable publicity.

More Industries.
The Industries committee has much work to be done. It is just completing an industrial survey of the county, bringing it up to date. We should ever be alert to do all we can to encourage industries and manufacturers to locate here. We offer advantages for many varied industries particularly remanufacturing of wood products. These bring pay rolls, and the more pay rolls we can secure for the county, the more prosperity will we enjoy.

One more point I would like to touch upon. Let's finish up speedily the work started during clean up week. This is the time of year to get rid of accumulated rubbish. Let's take a pride in the general appearances of our community, because that will help to make a good impression upon the thousands that are going to flock to Klamath, since we are now so strongly in the spot light of new development.

Need Suggestions.
If any one has suggestions as to what should be done, I should be (Continued on page four)

For Better Service to Our Customers

WITH the thought of rendering the best possible service and providing the maximum in efficiency, we have just installed "New Way" Measuring and Computing machines in departments where needed.

Not only do these devices measure goods with mechanical precision making it absolutely impossible to give under-measurement, but afford complete protection to our customers against any possible errors in computation. The large dial on the face of the machine, visible to customers, registers the exact amount of yardage passing through the machine—a feature found only on the "New Way."

We invite your inspection of these new devices installed for your convenience and protection which enables us to render a more highly intelligent service.
