## TENNIS STARS ELIMINATED

ST. CLOUD, France, June 2.—The gallery that has been following the tennis tournament is almost in mourning. Two of the greatest attractions have been eliminated—Fraulein Aussem, "The German Suzanne," the "Cute Little Teuton," reported engaged to Howard Kinsey, and Miss Billie Tapscott, South African, "The Little Girl with the bare legs," who has impressed some spectators as "sweet" and others as "shocking."

## After a Battle in War-Torn China

This scene at a railway station at Kaitoo shows refugees who are fleeing to places of safety after a severe battle in central China. Such scenes are almost daily occurrences in the war-torn republic.

## Billy Evans Says

Is radio a good thing for baseball? Is the broadcasting of the games helpful or harmful to the financial interests of the sport?

Does radio, by the publicity it gives the game, make more fans among those who have only a smattering of the pastime, than it keeps away by offering a running account of the game while sitting in a soft chair with all the comforts of home?

The major leagues are not certain upon this point and they are giving it much thought. It wouldn't surprise me if a special meeting was called to consider the new menace or help to the patronage, the radio.

For a time, the majority of big league managers vetoed the idea but a few permitted it. Now the practice is becoming quite general. During my recent stay of 10 days in St. Louis, judging from the attendance, it struck me as if the radio was detrimental to the gate receipts.

Things To Be Considered

True, I came into St. Louis after the New York Yankees had beaten the Browns four straight games. That was a severe jolt, yet I understand a timely base hit would have won three of those games. New York was forced to the limit to win each one.

The defeat of the Browns by the champion Yankees no doubt left a sour taste, although I am told the crowds were only ordinary at the games with New York.

Another factor must also be considered. The Cardinals, the National League entry, are the world champs. Naturally, that makes 'em the favorites, even though such a rating is only temporary.

While the Browns were playing at home in May, the Cardinals were being trounced in the east. That condition didn't make for enthu-

siasm among the St. Louis fans and, of course, reacted against the Browns.

The bad weather also must be figured in reaching a decision on the efficiency of radio as a ballyhoo for baseball. Cold and rainy weather is a great handicap.

Warm Weather Will Tell

When better weather sets in, I feel that a far more correct decision can be reached relative to the good or bad influences of radio on the gate receipts.

I have worked perhaps a half dozen games during the first six weeks of play that were fitted for anything other than baseball, just ideal for football.

Fans who ventured into the cold concrete stands on such days in-

cluded pneumonia. I would say the fan who lit the old pipe, dropped into the rocking chair, looked at the thermometer to see that the house registered 70 and then turned on the radio to listen to the game was far wiser than the fan who paid real money and gambled with pneumonia.

So until the weather gets warmer, more propitious for baseball, it will probably be impossible to tell whether the magnates are wise or foolish in permitting the broadcasting of the games.

Radio and the falling off in the spring gate receipts in several cities where the games are being broadcast, has offered much food for thought on the part of the magnates.

If You Are Building  
The Better Class of  
Residence—

you deserve the lowest rate of interest you can get on your loan. That much is your due!

## 7% Money

We are able to offer you this low rate of interest on your borrowed money. The better class of residential property can have loans at this rate. It pays out like rent—\$30 a month pays principal and interest on a \$3,000 loan.

## In the Market Place

IN certain parts of Europe some centuries ago, the farm laborer was wont to stand in the town market place holding a straw in his mouth as a sign that he was looking for employment.

Today the uninvested dollar places itself in the open market. As to an individual, it must be offered an occupation free from personal hazard, with steady employment and attractive wages.

In providing telephone facilities for nationwide service, the Bell System has employed millions of such dollars. The savings of more than half a million American telephone users, invested in Bell System Securities, have built the system that serves them. There is an investment in service, and they themselves have served by investing.

GREAT WELCOME  
IS PLANNED FOR  
AMERICAN HEROWashington Agog as Date  
For Lindbergh's Arrival  
In Capital Nears

WASHINGTON, June 2. (AP)—A nation eager to reward uncommon skill and valor looked forward today to June 11 when Captain Charles A. Lindbergh, arriving aboard the cruiser Memphis, is to be acclaimed by his own people personified by their president.

This young flier whose exploits of the air have stirred the admiration of the world, is destined to find a homecoming at the hands of folks who know and understand him equal to his remarkable reception in the lands where he was a stranger. Although accustomed to great events, Washington has been fired to unusual enthusiasm, realizing perhaps, that its welcome unlike that of any other city, will typify the gratitude of the whole country.

After he has been honored by President Coolidge on behalf of the nation, Lindbergh will be free to go to New York from where he first flew to fame, St. Louis which made his history making flight possible and to any other cities which might be granted the privilege of honoring him.

Captain Charles A. Lindbergh will return to New York in the "Spirit of St. Louis" in which he made his epochal flight across the Atlantic.

Meanwhile, having learned that Captain Lindbergh desires to return direct to Washington, the president's special cabinet committee has placed responsibility for working out the details of the reception upon a District of Columbia commission headed by John Hays Hammond. The extent of the flier's stay in Washington will be determined alone by his wishes.

The exact time of the official reception also is a detail to be determined later.

The cruiser Memphis expects to reach Washington at noon Saturday, June 11. Its commander advised officials here today.

This program is predicated upon good weather, the message from the Memphis said. Captain Lindbergh will be picked up at Cherbourg, France, on Saturday and a bee line course then will be followed to the mouth of the Potomac river.

If the arrival is very late at night, President Coolidge will decorate him with the Distinguished Flying Cross on Monday shortly before the executive leaves for his vacation.

The more definite part of the program, however, was being worked out carefully. Long before the Memphis sights land, army and navy airmen plan to push out in a fleet of planes to meet the flier and guide him up the Potomac to the

Salt Lake Grappler  
Kayoes S. F. Grappler

PORTLAND, Ore., June 2. (AP)—Ira Dern, Salt Lake light heavyweight, won a decision over Jack Ganson, San Francisco wrestler here last night when Ganson was unable to continue the match after Dern had dumped him with an airplane spin.

Ganson took the first fall in 27 minutes, fifty seconds, and Dern the second in 21 minutes, ten seconds.
