

WHIPPET SALES SHOW INCREASE

**Now Holdings Commanding
Position in Light Six
Field, Is Report**

Sales and production figures since the Whippet Six was first introduced on the automobile market early in the year disclose that this new entry in the light six cylinder field is achieving a notable record in its price class. Whittier-Overland dealers throughout the country report to the factory that, despite the Whippet Six being a newcomer on the market, the speedy response it has met from the motor car buyers assures it a leading position during the year among the other cars in its price range.

The original Whippet Six car building schedule has been stepped up several times by the factory to meet the demands of dealers, and indications at this time are that 1927 will see the production and sale of this model exceeding the original quota set before production got underway.

The general performance of the Whippet Six as well as the advanced ideas of engineering embraced in its construction are cited by the various Whittier-Overland dealers as the chief foundation for the success of this car. In type of design the Whippet Six carries out the low center of gravity construction, a design characteristic of all the 1927 Whittier-Overland products.

Junction Stock To be Sold to Local Citizens

Sale of at least seven shares of stock in the Klamath Tourist Bureau Junction on the Klamath Falls-Ashland highway will be the duties of members of the chamber of commerce, during the remainder of the week.

This was the decision of members of the directors board on Tuesday, so that outstanding debts might be cleared and enough money put aside to pay bills which will be due throughout the summer months.

A number of the new business locations in Klamath Falls, established since the last sale of stock, will be asked to take shares.

A string of lights are being placed at the Junction this week, so that tourists arriving after dark will be attracted to the buildings.

Favorable comment was heard from a number of the directors on the splendid work being done by F. G. Lucas, in charge of land settlement work at the junction.

BIG CHEVROLET PLANT ERECTED

**Two Large Buildings Rise
at Flint, Mich., to
Care for Growth**

Completion of expansion work at the Flint plant of the Chevrolet motor company, allowed under the recent \$10,000,000 program for enlargement, marks the accomplishment of an industrial project admittedly epochal.

With virtually no delay in operation, although taking place when a new model was being produced in response to the greatest demand in the company's history, two large buildings were erected, a third motor assembly line added, elaborate conveyor systems installed and every piece of machinery shifted to allow more space. Through this work the capacity of the plant was increased 33 1-3 per cent.

By this expansion, facilities for producing motors were increased from 2000 to 4000 daily, with a flexible arrangement permitting an output of 5000 a day under stress of unusual conditions. Relative expansion took place in other departments and 2000 more employees were added to the Flint payroll, bringing the total number up to more than 12,000. The number of employees at all plants of the company is now about 32,150, an increase of 48.3 per cent over the 21,678 under pay on the same date in 1926.

"We are informed that the actual time regularly taken for a cylinder block to be unloaded from a freight car, made into a motor and loaded for shipment is exactly four and one-half hours," said Lou Arens of the Chevrolet agency, the local dealer organization. "Inspection is one of the most rigid requirements at all Chevrolet plants, and despite the rapidity of the

processes employed in turning out Chevrolet cars in the number demanded by a sales program of 1,000,000 units in 1927, all parts are inspected and checked 100 per cent."

"The latest addition to the line, the Imperial landau, is largely adding to the prestige maintained by Chevrolet in the light car field. Its attractiveness, in combination with the conveniences and comfort provided, cause it to exert an especial appeal to the fair sex. This car is now on exhibition at our store."

NO MORE GAS IN STOMACH AND BOWELS

If you wish to be permanently relieved of gas in stomach and bowels, take Baumann's Gas Tablets, which are prepared especially for stomach gas and all the bad effects resulting from gas pressure.

That empty, gnawing feeling at the pit of the stomach will disappear; that anxious, nervous feeling with heart palpitation will vanish, and you will again be able to take a deep breath without discomfort.

That drowsy, sleepy feeling after dinner will be replaced by a desire for entertainment. Bloating will cease. Your limbs, arms and fingers will no longer feel cold and "go to sleep" because Baumann's Gas Tablets prevent gas from interfering with the circulation. Get the genuine, in the yellow package, at any good drug store. Price \$1. Always on hand at

Speedier Air Mail Service Federal Plan

LA GRANDE, Ore., June 8. (AP)—The government plans to speed up the airmail service from the northwest to the east coast by a full business day, by flying two nights and one day instead of two days and one night from Pasco, Wash., to New York City, according to John Bonaforte, of Washington, who is here surveying the territory from Boise to Pasco in preparation

to installing 24-inch beacon lights to illuminate the route.

Mr. Bonaforte also declared that another future development might be the installation of a local service, with stops at La Grande, Baker and other cities along the Pasco-Salt Lake City route.

SPRINGS MAKE NOISE
A lot of noise about the car may sometimes be silenced by the mere act of tightening the bolts in the spring eyes and brackets.

Wrap the terminal wires in insulating tape when the battery is disconnected.

**Summer time
is New Car time—
Enjoy a Buick now!**

This is the logical time of year to buy a car—at the beginning of the period of greatest enjoyment. And Buick is the logical car to buy, because it will provide the greatest usefulness with the greatest economy.

Buick is a beautiful car—in design, in coloring and in appointment. It is powerful, speed and dependable.

Enjoy your summer driving. Buy a Buick. WHEN BETTER AUTOMOBILES ARE BUILT, BUICK WILL BUILD THEM.
