

Dodge Factory Is Producing eHavily

Dodge Brothers, Inc., has started production of its new six cylinder line and output is now running at about 100 per day. This number will be increased rapidly and by the end of June daily output will approximate 200.

The first shipments to dealers were made May 11 and by the end of this month all of Dodge Brothers dealers will have been sampled. The company now has orders for the "sixes" sufficient to keep the immense new plant operating at 300 per day for several months.

The new line will be produced in three models, a four door sedan, a four passenger coupe and a new type of cabriolet roadster. Other models will be made later. It is expected that the new line will be introduced about June 1.

The company has found it necessary to step up production of its four cylinder line twice in ten days to keep shipments abreast of the orders which have been placed since announcement of the new four cylinder motor and standard gear shift was made on May 1.

During the first week after the new motor was introduced, orders for cars valued at \$5,500,000 were received. These were in addition to regular contractual allotments.

All of the Dodge Brothers factories are now operating at the highest levels of the year and it is expected that still further increases in operations will be necessary.

Graham Brothers April retail sales in the United States and foreign shipment totaled 5600 units. Overseas shipments last month totaled 1054, an increase of 188 per cent over March and the second highest month in Graham Brothers history. In Canada, Graham Brothers April sales broke all previous records.

Overseas shipments of Dodge Brothers cars established a new high record in the company's history on May 5.

Tires Can Spoil Vacation Junkets

As the vacation season is with us, the favorite indoor sport of thousands, particularly those who own automobiles, is to plan where they will spend the annual two weeks, or whatever it is, away from "the job."

Youngsters and oldsters alike discuss places to go, how long they will stay at each town or resort or beach visited, what they may see—and how much will be spent.

The itinerary and budget are completed, subject to change. There is one angle of the budget, however, says Hamilton and Bies, local Firestone dealer, that is usually overlooked. And, he adds, it is provocative of more grief and disappointment on a motor vacation than any other available mishap.

"Before a vacationist starts out on a trip that will take him several hundred or thousand miles over the country, he should make sure his tires are in excellent condition," he said.

"Badly worn casings should be replaced by new ones. If a used tire is to be carried as a spare, the car owner should have a tire repair man carefully examine it to see if it is in good condition and any repairs necessary should be made before the trip is started."

"The failure of motoring vacationists to pay attention to their tires—and replace those that can not give the best of service under any condition with new ones—can ruin a perfectly good vacation."

"Every vacation budget should include a new set of tires for the car. If good tires are going to be needed, and then the vacation can be taken without any fear of tire grief—and unpleasant remembrances."

not being over scrupulous. At the very apex of his career he faces ruin. How he frees himself from the meshes of the golden web of business, makes an absorbing, interesting story.

A powerful murder trial, a spectacular earthquake, a tense "third degree" scene and many other interesting things are promised in this unusual film.

Co-stared with Mr. Gordon is Lillian Rich and in the supporting cast will be found Jay Hunt, star of "Lightning," Lawford Davidson, Boris Karloff and other screen celebrities.

Correct this sentence: "I'm choosing this college because it excels in scholarship even if the football team didn't win a game last season," the young man told his parents.

At the Pine Tree

An all star bill, one of the most pleasing and entertaining of the season conclude their two day engagement at the Pine Tree today.

A blend of music, novelty, singing and dancing headed by Sax and King in their offering of "Roses and Stories" will be presented. There is plenty of snappy patter in this skit together with some exceptional catchy songs and a few dancing efforts that are assuredly pleasing to the eye.

Blair, Phillips and Murphy in "Two Jacks and a Queen" offer a comedy satire with songs that blend harmoniously. There is a good deal of comedy injected with the proper spirits to make this act full of pep and dash.

Cole and Coy, a youthful couple whose ability as entertainers comes highly recommended and known from coast to coast will surely become favorites where and whenever they appear.

La Fille, "The Serenading Violinist" plays a genuine Joseph Guararino violin and handles his wonderful instrument in a manner seldom heard in vaudeville, doing fancy and trick violin playing.

Tommy and Sylvia in "Dances of Beauty and Grace" are two terpsichorean experts whose footwork is remarkably true and their steps intricate.

On the screen, showing for the last times today, is "Stepping Along", featuring Johnny Hines in the role of an ambitious young newspaper boy who yearns for a political career. Throughout the action of hilarious comedy situations, he overcomes the obstacles in his path, wins the office he seeks and marries the girl.

At the Liberty

"The Golden Web", which is being shown at the Liberty Theatre for the last times today, features Mr. Huntley Gordon, who will be seen in the principle character of Sterling Deane, a man who has risen to great heights of industry and finance by the sole aid of his dynamic energy and ability—and
