## PELICANS WILL JOURNEY TO MEDFORD TOMORROW MORNING

Determined to climb back up on the top edge of the baseball ladder where they perched so manly and securely during the first half of the season, the Pelican baseball club will invade the Peas Pickers' orchard tomorrow in a determined effort to humble the haughty Medford baseball crew.

Manager "Sandy" Saunders has added several new waxes to his team and promises to show both local and Medford fans some fast infield work when the two teams get under way at the Jackson county ball grounds tomorrow. Henion will do the chucking for the local birds and Peterson is expected to be back on the receiving end.

The Pelicans have dropped two

and won but one game during the second half of the season but with the boys now working in better harmony and with Henion hitting a good stride with some real hurling, they expect to start tumbling over the valley opposition.

It is expected that a good following of local ball fans will make the journey over the mountain to witness the game.

The two new infielders signed with the Pelicans are George Williams, second baseman, and Al Loranzo, third baseman. Both are said to have seen service with the San Francisco Seals, and should make the local infield the strongest in the league.

## BEAVERS DROP ANOTHER GAME

San Francisco hopped on Bill Hughes for ten runs before three innings were over and added two more off Yerkes in the same inning. After that the Portland southpaw pitched runless ball. Mails also got away to a wobbly start but blanked the Beavers after the third, the final count being 13-5. Batteries: Hughes, Yerkes and Yelle; Shandling, Mails and Rego.

Jack Penton, the Oaks first sacker drilled a double to center in the last of the ninth, scoring two runners, to give the Aconus a 2-1 win over the Bells. Batteries: Eckert and Whitney; Boehler and Bohl.

## State Auto Law Will be Tested

PORTLAND, Ore., July 29. (AP)—The state supreme court will pass on the constitutionality of that feature of the state traffic law, enacted by the last Oregon legislature, which prohibits guest passengers in automobiles from using the operator of the car for damages in case of accident.

Presiding Circuit Judge Morrow yesterday upheld this feature of the law in sustaining a demurrer in the damage suit brought by Mrs. Virginia M. Stewart of Portland, against the Redmond garage at Redmond, Ore., in which Mrs. Stewart seeks damages of \$30,000 against the automobile operators.

## Loves Her Lindy

Little Carol Keker loves her Lindy, which she is embracing here as the steamer bearing her home from Europe with her parents. Mr. and Mrs. R. R. Eckert, of Red Bank, N. J., arrived in New York. Carol's Lindy you see, is one of the Lindbergh dolls popularized in Paris by Colonel Charles A. Lindbergh's flight, and the first to reach the United States.

## Superhuman Fish

There're many human fish but few superhuman fish such as Edward Keating, young New York swimming instructor, who swam away with the 24-mile American Legion water marathon in Lake George, N. Y., from Hague to Lake George. There were 109 starters, six finishers.

The 22,000,000 dairy cows in this country, with an estimated average production of 4,500 pounds of milk annually, are better and more economical producers than they were a few years ago. During the last eight years there has been an increase of 500 pounds of milk per cow.

## PARLIAMENT MEMBERS ASK TOWER WARNING OF VOTE

LONDON. (AP)—A red or green light will hereafter shine

in the Clock Tower of the House of Commons when the House is about to vote, if the petition of 724 members of parliament is granted.

It will then be possible for members to take strolls in St. James' Park or to visit the neighboring political clubs while speeches are being made, without fear of losing their vote at division time.

A white light now shines in the clock tower while Commons is in session, but frequently members have returned to find the light out and the night's session over.

Commons still adjourns each night with cries of members to one another, asking which way they intend to go. In the old days when London streets were infested with thugs, members traveled to their homes in groups for self-protection.

## ANCIENT FETTER LANE CHAPEL IS DEMOLISHED

LONDON. (AP)—Another link with ancient London has disappeared. The old chapel of the Scottish Corporation in Fleur-de-Lys Court, Fetter Lane, has been

demolished.

The Scottish Corporation was a charitable institution founded in 1613 to give help to London Scots temporarily "down and out." It received its charter during the great plague in 1665. The chapel was the part of the original building left after fire destroyed the major portion of the premises fifty years ago.

## WALKING AROUND LAD- DERS PROVES DISASTROUS

LONDON. (AP)—There's something "dead wrong" with the old superstition against walk-

ing under a ladder. Two events here in the last three days have proved that it is "all the bunk."

At the corner of the Strand and Essex street an immaculately dressed man paused at a ladder and then proceeded to walk around it. But a painter above upset a pot of black paint. It knocked over a pot of white paint and the combination fell on the unfortunate pedestrian. Had he walked under the ladder he would have escaped.

Two days later a man stepped into the gutter in order to walk around a ladder and was knocked down by an automobile.
