

PHYSICIANS AT LOSS TO HELP SIAMESE TWINS

HOLYOKE, Mass., Sept. 21. (UP)—Physicians and surgeons here are faced with one of the strangest problems in the history of human ailments. For the past week Margaret and Mary Gibba, Siamese twins, have been ill of influenza. Margaret is now nearly recovered, but her inseparable sister still lingers at death's door. It is feared that if Mary dies death will be inevitable, as physicians and surgeons confess their inability to sever the bond which links them without fatal results. Far more effective than any remedy physicians can suggest to restore Mary's health are the encouraging words of Margaret, who appears not to be concerned by the possibility of being joined to a corpse. Two local physicians, Drs. George L. Kluge and E. P. Bagg, are in constant attendance at the bedside, and others are watching the case closely.

\$50,000 Slander Suit Is Started

TRENTON, N. J., Sept. 20. (U. P.)—Charges that the wealthy and elderly Thompson H. McClure, late Philadelphia publisher, left home because his physician told him his young wife was slowly poisoning him, were brought out in a \$50,000 slander suit today. Mrs. Margaret H. McClure, widow of the publisher, so testified in bringing the action in United States district court against Dr. Frank P. Moore of Trenton. Mrs. McClure said she married McClure in 1921, when she was 38, and he 72. In a few months, a detective took her husband from their home, she said, on an assertion from Dr. Moore that she was slowly poisoning him. As a result, Mrs. McClure said she was cut off in her husband's will except for her legal dower rights which were one-third of McClure's real property.

Fast Time is Plan Last Trip to New S. P. Order Modoc Battlefield

General reductions in running time of through trains between Oregon and California, effective Sept. 25, were announced by John M. Scott, assistant passenger traffic manager for Southern Pacific. The changes will assure faster and more convenient passenger service between the large cities of the Pacific Coast from Seattle to Los Angeles. Among the trains affected will be the extra-fare Cascade, the Shasta, the Oregonian and the West Coast. Twenty-five minutes northbound and twenty minutes southbound between Portland and San Francisco will be clipped from the Cascade's running time, making this a 23 hour train in either direction. A saving of three hours and fifty minutes between Los Angeles and Seattle is afforded passengers on the West Coast, which will arrive Portland at 8:35 a. m. and Seattle at 3:25 p. m. the second day. Among other changes the Shasta will operate on a 27 hour schedule between Portland and San Francisco, and the Cascade southbound will connect at Oakland with the Padre for Los Angeles. "This general speeding up of service," Scott said "will enable the businessman to travel from Portland to Los Angeles or Los Angeles to Portland with the loss of but one business day. It reflects the company's desire to give the fastest and best service consistent with highest safety standards."
