Pheasant Question Up—

The most question as to whether Chinese pheasants cause tilters of the soil more injury than benefit is to be answered by an investigation which is to be made by the state game commission. Every growing season complaints come into the commission from growers of bulbs and fruit and grains that they are being damaged by the depredations of the game birds. To test the matter, Master Game Warden Clifford is arranging to have one or two pheasants killed in various sections of the state periodically during the growing season. The stomachs of the birds are to be preserved and sent to the department of agriculture at Washington, D. C., for examination to determine just what is the diet of the birds.
