## Facing the Issue

Friends of Nick Sinnott, and they are numbered in all political parties, are confronted with the problem of whom to send to congress in Nick's place from this congressional district. Already a number have announced their intention to contend for the nomination, but this means little.

What republicans and others who have supported that ticket for fifteen years must center on, is a plan to keep out a democrat from the national congress.

There are only two things that can stop Klamath's growth and impede the growth of the entire Eastern Oregon country. One is a war, which no one anticipates and the other is a democratic administration. Nothing would set us all back so much as to have four years of democratic government, for invariably the democrats fall down completely when it comes to running the nation.

It would be a blight on the name of Oregon to send a democrat to congress from the second district and those who feel they are called to run should take stock and see if they are liable to be beaten by a democrat. If they are, they should support the strongest man republicans can name, thus continuing the Sinnott policies and at the same time preserving the good name of the state, besides insuring a period of better business conditions than has ever followed a democratic victory.

## One Celebration

There will be but one big celebration in Klamath Falls this year and this is the railroad celebration. This has been determined by a number of the business men, and instead of attempting to have a half-way Fourth of July event all efforts will be centered in making the railroad celebration the biggest thing ever attempted in Southern Oregon.

This is a good decision for there is nothing to scattering shots. Make one good one. Have a crowd here that goes home pleased and with something to talk about and we have as a community accomplished something.

Fourth of July celebrations have gone flat since the day of the automobile. Too many people love to fish and spend the day in the hills to have what we once had in the way of Natal day events.

With one celebration merchants and other business men can contribute to that occasion and make it a worthwhile event. They can use the same funds that every year are demanded for some kind of a Fourth of July celebration and they will be none the worse financially, besides making the occasion one of prominent worth to the city and county.

## EDITORIALS FROM OVER THE NATION

### TELEVISION PROSPECTS.

Pasadena Star-News: Prediction is made by a radio expert that television will be in American homes within a year. Probably so. Marvellous advancement is being made in radio broadcast. Television is as sure to become common as that ordinary broadcast has become common. There is no foreknowing what other extraordinary developments may come in the realm of radio. But it may be assumed that this new marvel of man's genius will go on from development to development, until the whole world will sit about the same fireside and be linked together as one vast family, with the same broadcast being heard in California, in Alaska, in Patagonia, in New Zealand, in South Africa, in China—in the uttermost parts of the earth. In that more marvelous radio-day oceans will be as mill ponds and continents as family gardens. Broadcasting around the world will become even more common than national hookups are today.

given to gumwood, redwood, cedar, mahogany, walnut, oak, rosewood or chestnut. In some cases, however, when the wood is selected for grain, figure and color, the grain is maintained as nearly natural as possible, carrying its own beauty story.

Home planning is much better understood now than it formerly was and attractive interiors are gaining increasing popularity with a growing demand for more cheerful interiors and many combinations are now accepted which were formerly held to be quite unconventional.

### Pungent Paragraphs

Nashville Banner: The democrats seem to have an excellent chance to get the republican goat, which does not necessarily mean that they will know how to keep it or what to do with it.

Boston Transcript: A man has been found who read a book a day. What he doesn't know is probably the only thing worth knowing.

Fort Worth Star-Telegram: The spring which originated in the Springfield stock of a Philadelphia haberdashery destroyed the store. Spontaneous combustion, no doubt.

### SEVEN DIE IN SUDDEN BLAZE

The same practice is more and more emphasized by building contractors. The day of cheap imitations is happily past, or near it, so far as home decorations are concerned. At one time it was nothing uncommon to make birch look like mahogany, or gum look like walnut. It is no longer the practice.

ELDORADO, Kans., April 21. (AP)—Seven members of the William F. Overst family were burned to death at their farm home 26 miles northwest of Eldorado last night. The blaze of unknown origin, occurred about 8 o'clock but the bodies were not discovered until midnight, as neighbors who were attracted to the fire at first believed the famular had left home for the evening.

## They Ate the Parrot's Food

Hunger, cold and other privations were the lot of the 14 members of the crew of the five-masted schooner K. V. Kruse, which owing to adverse storms, was 114 days from Adelaide, Australia, to Astoria, Ore. One sailorman went mad and leaped to death in the ocean. Food ran out and the rice saved for the captain's parrot was used. The vessel was blown nearly to the California line, and as far north as British Columbia before it could enter the Columbia river. Above is the Kruse being towed into Astoria below, some of the crew hurrying to food and rest ashore.

## At The Churches

## INVESTIGATION FIGHT BETWEEN STAGES, IS PLAN

SALEM, Ore., April 21. (AP)—The public service commission will investigate to ascertain if the increased schedules proposed by two competing stage lines, the Pacific Stages, Inc., and the Southern Pacific motor transport company between Portland and Forest Grove is warranted. Pending the investigation the additional schedules are suspended. The two companies together proposed to operate a total of 25 buses daily between the two points.

Deatur Review: "Every bomb is a boost," should be the slogan of some political publicity man.
