FLY-TOX

Your Doctor Will Confine This
The fly's mouth and tongue are covered with fine hairs. Consequently some of the filth in which they mess clings to them. And the microscopic discloses these tiny drops of unspeakable uncleanness alive with bacteria—disease germs. A fly may infect anything it touches. Milk, food, baby's eyes, open wounds are favorite sources of infection. But with Fly-Tox a house can be kept free of flies and similar insects. Fly-Tox is fragrant, stainless. Fly-Tox is harmless to humans but sure death to flies, mosquitoes and similar disease carrying insects.

visit. Mrs. Underwood expects to remain in Portland visiting for some time. Mrs. Rogers will be joined in Portland on Saturday by Mr. Rogers and together they will enjoy the bankers state convention.
