GRAVEL CAUSES TIRE TROUBLE
"Punctures, punctures here and there; punctures, punctures everywhere," is the way a traveler arriving in Klamath late Saturday night told the story of a number of cars along the road to the Junction. This was due, he said, to the oiling of Green Springs highway. The oil caused tires to pick up pebbles. These adhered so tightly that they drove themselves through the casing. He told of one car with two new tires punctured in several places due to the pebbles and oil.
