JOHNS-MANVILLE
Mogul Coil Packing

Twisted Style No. 193

For packing small rods, valve stems, etc., and where space between rod stems or spindles and inside of stuffing-boxes is less than 3/8 inch, or for packing conditions, such as for oils and chemicals, where no rubber is desired in the packing.

Made of long fibre asbestos yarn, twisted or braided into coil form, lubricated and graphited. The asbestos yarn and lubricating compound used in the manufacture of both braided and twisted Mogul make it suitable for nearly any condition. It is a convenient all-around-the-plant packing, specially recommended for packing small rods and boxes, or for emergency use.
