

# RUSTLERS DEFI ALL ATTEMPTS TO STOP THEFT

### Many Sections of State Victimized by "Motorized Thieves"

LAKEVIEW, Ore., Jan. 10.—Lake county is getting more than her share of cattle rustlers although all eastern Oregon is suffering from the depredations of what seems to be a guerrilla operation.

Motor trucks, equipped with hoists, similar to the wrecking cars maintained by garages, drive into a field in which cattle are feeding, the rustlers kill a beef or two, hoist it into the truck and drive off to market.

While there has been but little of this type of rustling reported in the southern section of the county, Chewaucan and Ryan valley cattlemen have been visited by the thieves quite frequently. Reports come in from all central Oregon telling of the new method of cattle rustling.

Fenced pastures do not seem to be immune as several Jefferson county beef growers have found missing cattle and the tollable auto truck tracks right in the fenced enclosures.

The winter weather is hoped to cause a shutdown in the activities of the cattle thieves in that the roads will become impassable between the ranges and the markets to which the thieves sell their stolen cattle.

California's general assembly will undertake to revise the brand law and statutes against theft of stock at the present session. P. R. Dorris, president of the Western Cattle Marketing association, believes.

In Grant county members of the stockgrowers' association have adopted a resolution calling upon the courts to sentence convicted cattle thieves to prison rather than imposing fines. Stockmen in Grant county are reported to be losing many thousands of dollars annually from cattle stealing.

# CHARLIE WILL MARRY AGAIN, REPORT SAYS

HOLLYWOOD, Jan. 10. (AP)—Now that Charlie Chaplin has had almost five months freedom from marital ties, the screen colony rumors an engagement between the comedian and Georgia Hale, the dark-haired beauty who played opposite him in "The Gold Rush."

The report has persisted despite Chaplin's emphatic statement that only friendship exists and that those who speak of an engagement "do Miss Hale a great injustice."

Studio officials said "they just like each other's company and we see no basis for talk of an engagement."

# Father: don't take "flu" home to the baby

### Dr. David says: "Take these two precautions daily"

"Fathers who are out in the crowds, contacting many people every day, are the very ones who should guard most against influenza germs.

"It is not yet clear how such germs are spread or passed on from one to another, but the man who keeps well himself is actually protecting his family too.

"I'm going to prescribe two daily precautions. If you follow them, the chances are you'll be safe.

"First keep a bottle of Mistol handy and use it freely. It is quite harmless but it does protect against influenza germs.

# CHILE WELCOMES PRESIDENT-ELECT HOOVER AND HIS PARTY

Thousands turned out to welcome President-elect Herbert Hoover on his visit to Santiago, Chile, where this picture was taken. It shows Mr. Hoover returning to the American embassy in the Chilean capital after paying a formal call to President Carlos Ibanez. This photo was taken by a cameraman for The Evening Herald and NEA Service who accompanied the Hoover party through South America. At the left is Hoover with President Carlos Ibanez of Chile as the latter called at the American embassy at Santiago to return Hoover's call.

# Western Union Extends Night Letter Service to England

The Western Union Telegraph company announces that effective January 14, its 50-word night letter service will be extended overseas to its offices in London, Liverpool, Birmingham, Bristol, Bradford, Manchester, New Castle-on-Tyne, Southampton, Dundee, Edinburgh, Glasgow and Belfast. This cable night letter will supplement the week-end cable letter and the regular cable letter and is two cents per word cheaper than the latter, for example 50 words may be sent to the points mentioned for \$4.00.

The new service will be extended to all points in Great Britain and Ireland as soon as the necessary arrangements can be made with the British authorities. It will do away with the expense incidental to coding and decoding messages and will provide the greater freedom of expression in cablegrams which plain language gives.

The extension of night letters overseas will mean much to the business man who makes frequent use of the cable, as well as to those persons who use the cables for social messages.

A bulletin issued by the company said: "Not only will the fifty word scale night letter do away with a great deal of the necessity for coding and decoding cablegrams, always something of a chore, but it will at the same time provide a greater freedom of expression in cablegrams because it eliminates the stilted phrasing necessarily employed when codes are used."

"The introduction in this country of the night letter over the company's land line system provided American business with an economical form of rapid overnight communication." In a comparatively short time the company was handling millions of night letters. At the same time the number of full rate messages showed a steady increase. It is only reasonable to assume that the introduction of the night letter idea into overseas communication will result in equal benefits to those persons who employ the cable for international communications.

# 1928 LICENSES ARE NOW VOID

SALEM, Ore., Jan. 9. (AP)—Beginning today, motor vehicle drivers whose cars are not equipped with 1928 license plates are subject to arrest, says a statement issued Tuesday by Hal E. Hoss, secretary of state. Traffic officers in all parts of the state were instructed by Hoss yesterday to begin checking up on the licenses today.

The congestion of applications for new plates has now been eliminated and Hoss said that from now on the new plates will be mailed to car owners within 24 hours after applications are received. Approximately 75,000 sets of plates have been delivered so far for this year.

Two distributing offices are being maintained in Portland to expedite the work.

# HEALTH BOARD APPROVES LAW

SALEM, Ore., Jan. 10. (AP)—The Sewer Renters' law, under which municipalities have authority to charge for sewer accommodation as they do for water service, was approved by the state board of health at a meeting here yesterday. The board endorsed the campaign against influenza that is being waged by the United States Health bureau.

Dr. Harold C. Bean of Portland was elected president of the board, succeeding Dr. E. B. Piskel of Medford. Dr. W. B. Morse of Salem was elected vice president.

# Aimee's Judge Will Not Talk

SAN FRANCISCO, Jan. 10. (U. P.)—Arguments on the petition before the state supreme court to compel Judge Caylo Hardy to testify before a committee of the state bar association investigating his acceptance of a \$2500 fee from Aimee Semple McPherson, the evangelist, will be heard by the jurists here Friday.

Judge Hardy's answer to the petition was filed with the court today by his attorneys, John Francis Neylan, Oscar Lawler, John M. Hall and Alexander T. Sokolow. The answer contended that Judge Hardy was not required by law to make statements regarding the fee.

The state bar has sought to question the Los Angeles judge

to determine whether the fee was for legal advice to the evangelist after her "disappearance" in southern California.
