

NEWS IN BRIEF

Many Men Employed—

About 300 men are being employed in the construction of the big sawmill plant of the Weyerhaeuser company about five miles out of Klamath Falls on the Ashland road. The framework of the big mill is being erected and the work of construction is progressing as rapidly as possible. The throng of workmen commutes back and forth between the mill and Klamath Falls twice a day. When the plant is in operation within a few months it will be one of the largest lumber plants in Oregon.—Medford Mail-Tribune.

Sends Hint About Styles—

H. N. Moe, of Moe's store, who left some time ago on a buying trip to eastern style centers, sent the following hint about coat lengths for spring and summer which will be of interest to women of this community. "Looking over the fashion field, coat lengths seem to decide their own fates. But there's a difference between them at the discerning woman. Very short jackets and boleros are excellent for the very young. Cardigans are for suburban wear, for sports and for utility, such as shopping suits. Finger tip jackets are best for the older or larger woman. Three-quarter coats help shorten the tall woman's figure. Long coats are worn to slenderize."

Carloads of Hay Sold—

Within the past few days, two carloads of hay have been sold for local dealers through the chamber of commerce. Evangelistic Service Draws Large Crowds

Despite last night being Monday, an unusually large crowd gathered at the Klamath Temple on Oak street to hear the Spencer evangelists.

Preceding the evangelist's sermon, a rousing song service, with snappy choruses was enjoyed. "The Tater Family" was the subject of the interesting sermon upon which Mrs. Spencer spoke. "The Tater family has four members," said Mrs. Spencer. "The mother, Mrs. Agilator. I wonder if she lives in any of the churches in Klamath Falls?" Mrs. Spencer told how this person was constantly gossiping about her neighbors, the preacher and all her friends.

"The second member of the family is the father, Daddy Dictator," continued the evangelist. "He always tries to dictate to the preacher and to the church." Mrs. Spencer related several instances where her own father came in contact with these dictators. During her talk at times the audience was in laughter.

"Next," said Mrs. Spencer, "is the daughter of the family, Miss Imitator. She comes to scoff and scorn, but there is a judgment day coming when He is going to laugh at your calamity and mock when your hour cometh."

"The last member of the Tater family is the son, Spectator. He comes to look on, and wonders if the old-time religion is real." Tonight the service will be "Divine Healing." Prayers for the sick will be offered.

Cripples Will Be Helped By K. F. Teachers

To provide crippled children, unable to attend the city schools, with the same educational services as those able to attend, teachers will visit their homes at least twice each week to instruct them.

This decision was reached by the school board at its regular meeting last night.

Several children, unable to attend school because of afflictions will be tutored by teachers of the city schools.

A resolution of protest against the repeal of the two mill elementary school tax, now before the state legislature was passed by the school board last night.

J. Percy Wells, city superintendent, today wired Andrew Collier, advising him of the action of the board on this matter.

Miss Mary Alice Reed of Norton, Ore., and Miss Elizabeth Fawcley of Portland, were appointed by the board as teachers of the public schools. Both teachers took up their new duties on Monday morning. Miss Reid will have charge of the third grade at Central school and Miss Fawcley will teach the second grade at Fairview.

Other routine matters were disposed of by the board at the meeting last night.

Weather Unusual in California—

Friends of Robert W. Ruhl, editor of the Medford Mail Tribune of Medford, who is making a trip through California will be interested to know he has found a woman in California who says the winter of 1927 was unusual. In writing from Santa Barbara to homefolks in Medford, Mr. Ruhl said, "we left the rain at Carmel and had sunshine most of the way to Santa Marie, when it clouded up again and we rolled into Santa Barbara in the dark with rain coming down in buckets. It rained steadily all night—the sound on the roof was very soothing—and this morning it was clear and almost warm. The lady manager of this bungalow (directly on the sea shore and also the Southern Pacific tracks) says that this is the habit of the weather in this part of the country. Rain at night and sun all day. How interesting! We refused to be taken for tenderfoot, however, and told of being marooned by floods in La Jolla for ten days, two years ago. Believe it or not, she actually said, without a smile, "Yes, the winter of 1927 was UNUSUAL."

No Word From Dalton—

Up until a late hour this afternoon, Mr. and Mrs. H. Jenkins, parents of Mrs. Paul Dalton, had received no word from their son-in-law, Paul Dalton, in regards to the condition of Mrs. Dalton. She was taken south to San Francisco on Saturday to be placed under the care of a specialist to be treated for serious injuries to her spine which she suffered several days ago when someone in

a playful manner pulled a chair from beneath her as she attempted to sit down. Whether or not an operation will be performed was not known by her parents today, who are awaiting word from Mr. Dalton.

Visiting From Los Angeles—

Mrs. G. O. Floyd of Los Angeles is in the city for an indefinite stay. Mrs. Floyd made the trip here via motor.

Less risk of "flu" if you do two things

Precautions you can take immediately

Takes no chances

There is no use worrying every time you draw a breath for fear you will breathe in some influenza germs. Do the following two things and forget it: First, keep your nose and throat well protected, and second, keep your system in good condition. The chances are you will avoid contagion.

As a first precaution, I am prescribing Mistol to all my patients, as it protects the nose and throat against the germs of influenza. Use it every morning, the first thing, before you go out. Again when you come home at night. Don't be afraid to use it freely; it will do no harm.

Just tilt your head back and apply Mistol with the special dropper which comes with every package, until you feel it trickling down your throat. It will clear your head wonderfully, relieve any inflammation; it will help dry up a running nose. It has a soothing effect on the throat, too. Gargle it for a sore throat or a little irritating cough. Above all, it protects the nose and throat against the germs of influenza.

This is the first precaution; now for the second: Physicians agree that, particularly in times of epidemic, weakening of the system due to purging by laxatives and cathartics is not advisable; therefore, many doctors are prescribing Nujol. It is not a laxative or cathartic but a pure, natural substance that helps your

system function at all times the way nature intended it to. Like pure water, it is harmless. In no case does Nujol cause weakening of the system. Take it night and morning; it will keep you in first class condition. You will have a far better chance to resist "flu" or any other diseases that are going the rounds.

The combination treatment of Nujol and Mistol is a double safeguard against colds and influenza. Start this wise twofold precaution now. Don't delay. Put worry out of your mind. The chances are good that you will escape influenza and colds. Nujol and Mistol are on sale at all druggists.

Why we buy from Western Electric

It is the aim of the Bell System, of which this company is a part, that anyone anywhere in the country may telephone to anyone anywhere else, clearly and without delay. This is the meaning of *universal service*. To provide it, the means of telephoning must be uniformly good.

All of the Bell System companies obtain most of their supplies from the Western Electric Company, which acts as the manufacturing and purchasing department of the system. The volume of business thus centralized, enables the Western Electric Company to secure great economies in manufacturing, purchasing and distributing, which economies are reflected in its prices to the Bell System—and consequently in a lower cost of telephone service to the public.

Western Electric Company's prices for telephone supplies to the Bell System are materially lower than those of other suppliers. As a result of its arrangement with the Western Electric Company, The Pacific Telephone and Telegraph Company saves in price and service at least \$3,000,000 a year. This is important in keeping down costs to customers.

As an added protection to the public, the Western Electric Company's main storehouses and distributing houses, placed at strategic shipping points throughout the United States, constantly carry upward of \$30,000,000 of supplies ready for shipment. These storehouses and stocks enable the Western Electric Company to meet the needs of the country at times of catastrophe regardless of the extent or location of the damage. In Oregon, Western Electric keeps an average of 85 people employed in furnishing and installing telephone equipment.

Our ideal is the same as that of the public we serve—the most telephone service and the best, at the least cost to the user.
