Farm Hearings to Be Held in Early Spring

WASHINGTON, Feb. 28, (AP)—Farm relief hearings before the house agriculture committee will be begun about three weeks before the convening of the special session of congress in April under plans made public today by chairman Hugen of the committee.

The committee is to meet Friday to finally determine on the course of procedure. Chairman Hugen said that while all phases of the farmers' problems would be heard it was the desire of the committee to have a few witnesses to represent each group.

Hearings probably would consume two weeks and the third week, he said, would be devoted to drafting the proposed farm relief legislation.

Mr. Hugen indicated that he expected the measure would extend relief generally to all agriculturalists, with liberal provisions for the development of foreign markets for surplus production.

"In view of the extensive hearings already held on farm relief," he said, "it appears to me that two weeks should be sufficient time in which to deal with the problem. We have planned to request the various farm groups to limit their witnesses to the minimum. One man can tell us the problems of a whole group as well as a dozen men."
