

IN THE REALM OF SPORT

Frankie Forbes Works Hard for 10-Round Main Event Bout With "Tiger" Johnnie Cline

This rein, well dressed, blue looking young man—Frankie Forbes, by name—is profiting by the mistakes of others. Hearing of the unmerciful beating Walter Cleghorn took from "Tiger" Cline, last because he was not acclimated, Frankie decided he would not repeat the same mistake.

So he arrived in Klamath Saturday and has been in training ever since. This morning he did four miles on the road and this afternoon at 5:30 o'clock will further his hitting muscles in a hard workout in the Pelican

City gym against Mike Daley. Forbes meets the veteran "Tiger" Cline in the ten-round main event of a great legion card next Friday night.

The sporting editor of this newspaper has said the praises of recent fights staged in the legion hall, but he is forced to entreat more than ever about the next one. From first to last, it appears to be a great card. The legion and boxing commission deserve another packed house. If for no other reason than that they have been willing to take a financial chance and sign up metropolitan main event talent.

LEAGUE LEADERS

- (By the Associated Press.)
- National.**
 Batting—Stephenson, Cubs.
 Runs—Stephenson, Cubs; Cline, Reds, 12.
 Runs batted in—Wilson, Cubs; Hays, Cards, 10.
 Hits—Stephenson, Custer, Cubs, 18.

RESULTS OF YESTERDAY'S BALL GAMES

At Portland—R. H. E.
 Seattle 1 2 0
 Portland 1 2 1
 (Piparis and Borrent; Caserella and Rego.)
 (Game called in sixth account rain; second game called off.)

First Game
 At Los Angeles—R. H. E.
 San Francisco 1 4 0
 Hollywood 2 1 1
 (Glynn and Reed; Schmidt; Wetzel and Bassler, (10 innings))

Second Game
 San Francisco 2 4 2
 Hollywood 4 5 0
 (7 innings by agreement.)
 Gomez and Schmidt, Marty, Johns and Cook.

First Game
 At Oakland—R. H. E.
 Sacramento 7 11 0
 Oakland 8 16 1
 (Gould, Kunz, Kesting and Koehler; Hurst, Kassich, Boehler and Reed.)

Afternoon Game
 Sacramento 1 10 2
 Oakland 5 15 0
 (Rachae, Bryan and Koehler; Dakila, Jeffcoat and Lombardi.)

Morning Game
 At San Francisco—R. H. E.
 Los Angeles 5 9 3
 Missions 2 8 0

Afternoon Game
 Los Angeles 2 9 0
 Missions 10 13 0
 (Roberts, Petco, Childs and Sandberg; Warren, Nevers and Hoffman.)

to take the measure of Cline. Interest is also aroused over the semi-windup and special event.

Billy Breedlove knocked out Sailor Stevens in his last fight. It was a great upset in which a clever little fighter surprised the most sanguine fans by putting over a knockout in the second round. He will meet a tougher customer Friday night in the person of Leo Lomelli—the same Lomelli who has beaten Young Sam Langford and Eddie Graham and who has fought with Hector McDonald and Eddie Thomas.

The special event is between Billy Church and Johnnie McCoy. Church gave Jack Breedlove the beating of his life in a former showing here. He has a hard egg to crack in McCoy who is clever and fast.

According to the National Association of Merchant Tailors, the well-dressed man should have 28 suits, 8 overcoats, 12 hats and 24 pairs of shoes.

Colleges And Managers Hire Jinx Players

YOUR TEAMS HAVE BEEN OUR JINX FOR YEARS—WE'VE GOT TO HIRE YOU TO PREVENT YOU FROM BEATING US!

WE CAN THROW HIS GLOVE OUT IN THE BOX AND FEAT US—WE'VE GOT TO GET HIM ON OUR CLUB

BY AL DEMAREE (Former Pitcher New York Giants)

I see by the papers that down in Texas, the Texas A. and M. College has hired its football line from Texas Christian University, and Texas Christian has hired the man who gave its basketball team some very severe drubbings—Francis A. Schmidt, head coach at the University of Arkansas.

This reminds me of the custom of many baseball managers of trying to get players on the other clubs who do their team plenty of damage every season. McGraw sent me to the Phillies, and after I had won 14 games from his club in 2 years, he brought me back to the Giants. "I don't know how many games you'll win for us," he said, "but I know you won't win so many FROM us!"

McGraw from time to time purchased Art Neft and Welch of the Braves, and numerous other players for that same reason. Pitchers especially have their jinx clubs. McGraw used to say that if all the teams wore "Pittsburgh" across their shirts, Louis Drucce never would lose a game.

The reason you find a great difference of opinion among managers about the value of certain players is because managers always judge a player by what he does against their team.

Game Birds In Modoc Exceed Expectations

ALTURAS, Cal., April 29.—That the number of ducks and geese found in Modoc county was far in excess of his expectations was the opinion expressed by George Tonkin, United States game protector for Nevada and California when he made an inspection of game bird conditions here last week-end.

During a trip to nesting places and feeding grounds in the immediate neighborhood of Alturas with A. A. Jordan, deputy fish and game commissioner for Modoc county, Tonkin saw flocks

of birds estimated to number about 4,000. Due to the fact that the inspection was made during the nesting season he said that he knew that he had seen only a small part of the geese and ducks which are in this neighborhood.

It is planned to band a large number of geese and ducks here next year in the manner which has been followed by the U. S. biological survey in order to determine where the flight from Modoc county is going. This work will be done under the direction of Tonkin.

SIRESTON, Mo., April 29.—During a trip to nesting places, W. W. Scott, 84, and Mrs. June and feeding grounds in the immediate neighborhood of Alturas with A. A. Jordan, deputy fish and game commissioner for Modoc county, Tonkin saw flocks

FALL FATAL TO SICK SHERIFF

James C. Byers Killed in Fall on Concrete Sidewalk

SAN DIEGO, Cal., April 29 (AP)—James C. Byers, sheriff of San Diego county, was killed this morning when he either fell or jumped from a fourth story window of Mercy hospital.

Last week Sheriff Byers went to the hospital to be operated on for appendicitis and was reported well on the way to recovery.

Early this morning he asked his nurse for a glass of malted milk. When the nurse returned she discovered her patient missing and at the same time observed that several articles on the window ledge were disarranged. Upon investigating she discovered the screen had been unlatched and looking down to the court pavement saw the body of Byers on the concrete. When hospital attendants reached the body they found life extinct.

Payor S. C. Kelly, who was subpoenaed, expressed the belief that Byers had committed suicide although no cause for such action could be assigned.

Byers had held the office of sheriff for the past 12 years and was one of the best known officials in San Diego county. He is survived by a widow.

Why Pay \$7.00?

1000 Genuine Waterson Self-Filling Fountain Pens

Will Be Sold at Manufacturers' Advertising Price of . . .

During this sale our customers may buy one of these new improved self-filling fountain pens for only one dollar. We will give you a Regular \$1.50 Genuine Waterson Pencil to Match Your Pen, absolutely . . .

FREE!

This offer good only as long as the present supply lasts.

Ladies and Gents' Sizes. Limit of 2 Sets to a Customer.

Beneath the stylish hood of this new HUPMOBILE . . . is a new style motor.

. . . asking only for protection from carbon forming oils

A NEW style in motors has swept the automobile industry. High-compression motors, powerful, speedy, economical, add emphasis to the outward beauty of modern cars.

Hupmobile Century sixes and eights are among the most striking this year—and their motors are worthy of the hoods that house them.

But today every car owner faces a problem. Not a fault in his car—a rather a fault in the oil he uses. Many oils form quantities of hard carbon. It is bothersome and has to be removed even from old cars. In high-compression motors it becomes a real danger because pistons almost touch the cylinder head. Where would you put a quarter-inch layer of coke-like carbon?

Hard carbon causes more damage than many of us realize. Chips get under valves holding them open to warp and waste power. Gritty bits grind and chafe through moving engine parts.

However, there is an answer: World has gone out among lubrication experts—word about a new motor oil that solves the carbon problem.

Shell Motor Oil actually forms only 1/3 to 1/5 as much carbon as even the most expensive oil you can buy! The little it forms is only soft soot that blows easily away.

The new high-vacuum refining process by which Shell Motor Oil is made produces a finer lubricant, too. One that is remarkably resistant to heat; it holds its body long after ordinary oils break down.

Thus in Shell Motor Oil you get two vital things. First, freedom from hard carbon, secondly a marvelous lubricant. Fill with it regularly.

Famed alloys for stamina. Hupmobile has more than kept its pace. New Hupmobile motors are high-compression of course—modern engines must be! And high-compression means no room for hard carbon—use an oil that forms none.

SHELL MOTOR OIL
