# Our Second Opening!

On January 17th of this year The Pelican opened its doors to the public—and gave to Klamath Falls a theatre second to none in the state.

On Saturday, May 4th, with all the interest of an historical event, the Pelican Theatre will introduce to the people of Klamath Falls the invention that has revolutionized the motion picture industry and marvelously enhanced the entertainment value of the screen, the device which is the marvel and wonder of our scientific age, successful talking pictures.

We have been asked why we did not have sound installation before—had we been content with vastly inferior equipment which would have been a disappointment to our patrons and a source of humiliation to ourselves, we could have done so. In order to get the very best we have been compelled to wait until this time, but we now offer with pride to Klamath Falls the finest and most perfect sound and talking installation possible. When you see and hear "IN OLD ARIZONA" on Saturday, Sunday and Monday at our beautiful theatre, you may be assured that you are participating in the finest entertainment now available.

Incidentally, it is also a matter of pride that our first attraction, "IN OLD ARIZONA," is not only 100 per cent talking, but it is also the first all-talking picture to be made outside the sound studios; it was made out of doors and the beautiful scenic effects are real.

The opening of The Pelican Theatre was the result of long and continuous effort—and it was worth it; we now feel that the greatest day that the Pelican will ever know will be next Saturday, May 4th, when we will welcome our many friends to our first all-talking entertainment—
