"Talkies" Will Be Heard at Pelican Theatre on Saturday

Famous motion picture stars will walk and talk, news events of the day will be described in action and in sound, and the music of popular and symphony orchestras will be reproduced with new life-like effect from motion picture screens, when the Pelican theatre inaugurates tomorrow an entertainment program of the latest sound-motion pictures.

Equipped with the RCA Photophone system of sound reproduction, the Pelican theatre will open a new era of entertainment in Klamath Falls. Through the projection of sound-motion picture films, and pictures with the sound accompaniment, the Pelican

theatre hereafter will present leading motion-picture productions that will appeal alike to eye and ear. It was stated yesterday by H. W. Hoole.

Because of the marvelous sensitivity of the RCA Photophone system, representing the latest developments in acoustical reproduction from the screen, all forms of incidental sounds such as street noises, pistol shots, airplane engine sounds, the crash of thunder, the chirping of a canary, the ringing of a bell, knocking on a door, or, in fact, any sounds which may accompany a picture, are reproduced in perfect synchronization with the action on the screen.
