WHAT IS A BUY-TWO SALE?
It is a sale where one article can be bought at the regular price, and a second article of the same kind can be bought at a slight increase over the price of the one article. Example: You buy the 30c Tooth Brush at the regular price, but during this sale you can buy two brushes for 51c. One bottle of Milk of Magnesia sells regularly at 50c—you can buy two for 98c. A sale made possible by quantity distribution and manufacturers' cooperation.
