Rainbow Trout Being Planted

A crew of men under the direction of Matt L. Ryckman, superintendent of hatcheries for the state game commission, has left for Diamond Lake to take rainbow trout eggs. This is the first time in a number of years that the commission has been spared the heavy expense of breaking the road through the snow to reach the station. Two years ago it was necessary to use a heavy tractor to break the drift of snow sometimes 15 feet in depth, to make a road for the crew. This season, due to an unusually light snow fall in the district, the drifts melted and will permit the game authorities to enter with very little difficulty. Egg taking will continue until mid June.

Left for Grants Pass

Earl C. Reynolds, executive secretary of the chamber of commerce, left this noon for Grants Pass to attend the meeting there tonight of the Western Oregon Traffic Association. At the directors meeting on Tuesday, members of the board voted that Mr. Reynolds attend the meeting.

Now more than a MILLION FRIGIDAIRE have been built

With every department of the Frigidaire factories running at maximum capacity, with orders greater than at any time in the history of the business, on Thursday, May 16th, the Millionth Frigidaire was built

In both the Household and Commercial fields Frigidaire leads in sales to customers

THERE are definite reasons why more Frigidaire are in use than all other makes of electric refrigerators combined; why it is the choice of home owners, of builders, of apartment owners, of commercial refrigeration users throughout the world.

Beauty, power and convenience

Frigidaire has surplus power that meets every emergency in the hottest weather, and yet operates economically always.

Frigidaire cabinets are beautiful—they are finished in gleaming porcelain enamel, or white Duco—clean and easy to keep clean. The mechanical part is completely enclosed and so quiet that you don't hear it start, stop, or run. Food shelves are elevated so that stooping is unnecessary.

The famous "Cold Control"

And in addition to the standard temperature regulator which automatically maintains an ideal temperature in the food compartment, Frigidaire is equipped with the famous "Cold Control" that speeds the freezing of

ice cubes and makes possible dozens of new and delicious desserts and salads.

Low Prices

Because Frigidaire has achieved the million mark—because it is the overwhelming choice of the majority—the economies of quantity production have made prices so low that every model represents a tremendous saving to the buyer.

The D-4 Frigidaire equipped with the "Cold Control" only \$199 complete, delivered and operating in your home

The Klamath Refrigeration Co.
