Title Men to

Hold Banquet on July Fifth

The Oregon Association Title Men have issued invitations to friends to attend the annual banquet, July fifth to be held at the Willard hotel at 6:30 o'clock. This banquet will be one of the courtesies extended title men from throughout the state who meet here in convention. Arrangements for the banquet are in charge of Arthur R. Wilson, Bryan Luce and E. S. Vestch.

SHAKESPEARE HICKS

BOUND OVER TO JURY

Shakespeare Hicks, Indian, charged with possession, transportation of liquor and introduction of whiskey onto the Indian reservation, was bound over to the federal grand jury late Friday afternoon by Bert C. Thomas, United States Commissioner. He waived preliminary hearing.

SEEKS DIVORCE

CHICAGO, July 29. (AP)—Edith Mason, prima donna of the Chicago Civic Opera company, filed suit in circuit court yesterday to divorce Giorgio Polacco, director of the company. The bill, which was ordered suppressed, was filed just one day before their tenth wedding anniversary.

TAKEN "FOR RIDE"

KANSAS CITY, July 1. (AP)—Louis Rabinowitz, traveling jewelry salesman of Kansas City, revealed today that he was "taken for a ride" two weeks ago by five gangsters, who took his diamond ring valued at \$3,000, and, after demanding \$25,000, on threat of death, compromised on \$8,000, which he paid.

Starting with only one microbe, and giving it sufficient food, at the end of 12 hours there will be about 18,000,000 microbes. At the end of six more hours there will be nearly 80,000 million.

GOODRICH HAS GREATEST HALF YEAR IN SALES

Production for 1929 to Date Average 50,000 Tires a Day.

AKRON, Ohio, July 1.—

With the greatest half year in the history of the company almost ended, Goodrich approaches the second half of the year with unabated industry. Every factory in the world-wide organization of eight manufacturing institutions is working at capacity. At Akron the huge plant is working three eight-hour shifts with a capacity complement for each shift. Goodrich production averages about 50,000 tires a day.

"The year has been, so far, one of consistent capacity," President James D. Tew said. "We look forward to a very busy second half. Factors that caused a somewhat unsettled condition in the industry last year have become more stabilized this year. There has been less fluctuation in the prices of raw materials.

"With the completion here of our tire warehouse of 316,000 square feet of storage room the distribution of our tires has been greatly facilitated. Modern features have produced more efficient handling and shipping and on a more economical basis. We have just begun the building of another addition of our plant here. Plans are rapidly taking shape for the erection of our plant in Atlanta. Work is going forward at a satisfactory pace at the Martha mills at Thomas, Ga., where we are building hundreds of modern homes for our employees and expanding the capacity of the mills to more than double their former capacity. We have increased the capacity of our Los Angeles plant 50 per cent.

"Our program this year has been one of consistent expansion warranted by immediate demands and anticipating our future progress."

AT THE THEATRES

"Innocents of Paris," a romantic comedy-drama starring Maurice Chevalier, with Sylvia Beecher, Russell Simpson, Mr. and Mrs. George Pawcett, John Miljan, Margaret Livingston, David Durand and Johnnie Morris supporting. A Paramount all-talking picture. At the Pelican theater.

AT THE PELICAN

When Maurice Chevalier, soldier of France, and lion of the continental stage, came marching into the silver sheet at the Pelican theater last night he gave his audience a great big thrill, and kept them enthralled every moment that his spirited voice and body were before them. For with Chevalier it is not alone the animation of vocal tone which "gets" people, young and small—but it is also that temperamental language of the hands, the face, the feet. With Chevalier it is well, we might say just "It," but the man's artistry calls for a more elaborate definition. It is genius born of spiritual inspiration.

In his current, and first, movie—"Innocents of Paris," at the Pelican theater, Chevalier plays the part of a happy-go-lucky push cart singer of the Flea market district of Paris. He gets a

chance to go on the stage with his songs and pantomime, and the plot affords him every opportunity to present the gorgeous values of his full repertoire of songs—lyrics and ballads which have established him in actual life as the reigning king of entertainment in Europe.

AT THE ORPHEUS

With a theme of universal interest—based upon the liquor problem—portrayed by a cast of seasoned artists in which Anna Q. Nilsson holds first rank and brought to the screen with masterly directorial ability, "Blockade," won quick favor before a capacity audience last night in its first showing at the Orpheus theater.

It proved to be a powerful and vivid depiction of the ceaseless warfare that is carried on along the east coast of the United States between organized rum runners and the law enforcement officials of the government. From every point of view "Blockade," an FBO special, is an ideal vehicle for the return of Anna Q. Nilsson to the screen.

AT THE PINE TREE

Talking and sound effects feature Douglas MacLean's latest starring picture entitled "The Carnation Kid," produced by the Paramount-Christie corporation, now at the Pine Tree theater. While there is not 100 per cent dialogue running throughout every scene yet in every sequence the action is featured by talking. Instead of making the film an all-talking one, Christie officials wished to emphasize the opportunities afforded by the story for typical movie action and for the first time local audiences hear as well as see the customary four or five locations as heretofore has been the case. "The Carnation Kid" features 43 different sets and locations during the running of the film.

AT THE LIBERTY

"The Border Wildcat," a Un-

versal Western feature starring Ted Wells, opened at the Liberty theater yesterday. It is unquestionably the best western in which Wells has ever appeared. Portraying the sheriff of a wild border town infested with bootleggers and racketeers, Wells sets about to run the undesirable out of town, but that is not accomplished without a desperate fight with the rum runners. Wells gives his audience thrill upon thrill by the reckless and devil-may-care manner in which he and his marvelously trained horse, Pete, gallop in and out of dangerous situations.

INSPECTION OF WEEDS CHECKED BY CASH LACK

Because of the shortage of funds caused by the timbermen's failure to pay taxes, weed inspection work in Klamath will be discontinued, it was announced today by C. A. Henderson. However, Henderson added, this does not eliminate the liability of farmers who do not control weeds on their property in accordance with the rules of a weed control district recently formed.

"The following weeds must be controlled," Mr. Henderson said: "Bull thistle, spiny cocklebur, Canadian thistle, wild morning glory, hoary cross (white top), Russian knap weed and dodder."

The great pyramid of Egypt, or Cheops tomb, is the largest building in the world. It was originally 482 feet high, and it covered an area of 13 acres.

NICE and COOL

BEST SOUND IN TOWN
Our Ventilating System Does It

It keeps your food safe —the temperature is well below 50...always!

For family health... for appealing menus... this is vital

In the General Electric Refrigerator the temperature is kept several degrees below fifty...always! Fifty degrees is accepted by scientists as the "danger point" in the preservation of food. When the temperature rises even a degree or two above that, bacteria multiply, foods become unsafe to eat.

Perhaps you think your own refrigerator is always "cold enough." You cannot be sure unless you actually take your refrigerator's temperature. It is constant cold which is needed.

Note these vital points of superiority

Countless superiorities give the General Electric Refrigerator its outstanding position... an hermetically sealed, dust-proof mechanism, mounted on top... an accessible temperature control... a new standard of quiet operation... no oiling... no troublesome machinery... simplified installation... no radio interference... an unqualified two-year service guarantee. The new all-steel cabinets and the hermetically

sealed mechanism combine to produce what we believe is the finest refrigerator ever made.

Not a dollar for repairs

More than a quarter of a million homes are enjoying the convenience, economy and health-guarding services of the General Electric Refrigerator. And not one of these owners has ever paid a dollar for repairs or service! This is a record in the industry.

The new all-steel General Electric Refrigerators are priced as low as \$215 at the factory. A small payment down places one in your home. Visit our display rooms—see the new models—you'll agree that they offer the greatest value.

Listen in on the General Electric Hour, broadcast every Saturday evening, 8 to 9 Eastern Standard Time, over the N. B. C. network of forty-two stations.
