Several families, as a rule, share a communal kitchen in which they do their cooking, in Moscow.

An edible fish lays from 250,000 to 7,000,000 eggs a year.

FORMER LOCAL PRIEST VISITS CONGREGATION

Reception Will be Given Father Cunningham This Evening.

A reception for Father John J. Cunningham, S. J., one of the first pastors of the Klamath Falls church, will be held this evening at the home of Mrs. A. J. Santamau, 533 North Eleventh street.

Father Cunningham was pastor of the church from 1909 to 1911. He supervised the completion of the old Catholic church and assembly hall. Since his departure he has been prominently identified with several lines of church work. He was pastor for three years at the Mission church of Santa Barbara, was vice-president for nine years at St. Ignatius college and is now with the St. Ignatius church in San Francisco. During the war he organized a S. A. T. C. corps.

"One of my fondest remembrances of the old Klamath Falls," mused Father Cunningham, "is the old horse-drawn car piloted by Charles Adams. It used to plod up and down Main street and meet all the trains.

"Klamath Falls has grown with dizzy speed. I like the quietness of Oregon but, at the same time enjoy the go get 'em spirit of San Francisco."

STEIWER RAPS U. S. EXPERTS

(Continued from Page One)

blem and adds to the export surplus in farm crops.

This is false. The truth is that the federal reclamation propects are consumers of wheat which is the chief export cereal.

"The records disclose that for each bushel of wheat produced two bushels are consumed on the projects.

"Many farm products including wheat, corn, rye, beans, potatoes and onions show a diminishing percentage of export for the period from 1920 to 1927. This decrease is in face of substantial increases in total production on the irrigation projects. The increase in population which continues at the rate of 1,500,000 per year will cause further reduction in the percentage of export supplies.

Theorists in government employ will do well to leave the reclamation to those who are advised concerning this subject."

KLAMATH FIRM GETS BIG JOBS

(Continued from Page One)

Upham, Donald and Fulton streets; unit 81, paving on Eldorado, Mortimer and Wall streets. Bids on improvement unit 72 have been held up, since the councilmen were unable to reach a definite decision yesterday.

Type "B" Macadam

All the successful bids call for type B macadam, which consists of crushed rock with a cold asphalt binder. The bid on unit 83 amounted to $273,131, which was about $10,000 lower than the engineer's estimate on the project. Exact figures on unit 79 were unobtainable last night but were approximately $11,000, with the bid on unit 81 amounting to approximately $12,000. These bids were also slightly lower than the engineer's estimate.

Dunn & Baker, who were bidders on all four units, included in their bids an offer to purchase the improvement bonds in case no par bids are received.

SALE OF FOUR ADDITION LOTS IS ANNOUNCED

Sale of four choice lots in Riverview addition, located just two miles from Sixth and Main streets on the Ashland-Klamath Falls highway to H. C. Edgerton, Albert Bersing, Frank Bordal and G. A. Olson was announced this morning from the officers of Dale and Hoskins, realtors.

Erection of moderately priced homes on the lots will add four more attractive residences to the rapidly growing sub-division of 130 lots.

Already 36 lots have been sold in the sub-division which is handled exclusively through Dale and Hosking.

H. C. Edgerton is employed as mill-wright with the Weyerhaeuser Lumber company, located a short distance from Riverview addition. His home is already under construction.

Mr. Olson is connected with Shaw-Bertram Lumber company. The Olson home is now under construction.

Do you know this about sugar?

Use this knowledge for better cookery

MANY people might think of sugar only as a sweetener. This is to miss at least half the value of sugar—the developer of natural flavors in good cookery.

If a dash of sugar is added to unbeaten egg-whites, and the two beaten together, the meringue will be lighter than if the egg is beaten before the sugar is added.

Sugar brings out the natural flavors of fruits and berries by softening the fruit acids.

A little sugar makes bitter chocolate mellow and tasteful.

If cereal is cooked with a dash of sugar, an entirely "new" flavor develops. This is the delicate flavor of the cereal that the sugar has brought up so that it can be tasted.

Add a dash of sugar to beets, peas, string beans, lima beans, corn, carrots, parsnips, sweet potatoes, squash, onions, tomatoes, cucumbers, spinach, asparagus, beet greens and celery while they are cooking (preferably in little water). You will find delicious flavors rarely tasted in vegetables before. These are the natural delicate vegetable flavors developed by the sugar. Use sugar flavor to improve the diet and health of the nation. Moreover, foods are more delicious and nourishing with sugar. The Sugar Institute.

LEGION BREAKS EVEN ON LARGE 4TH JULY FETE

Receipts Just About Equal Disbursements During Congress.

The American Legion post of Klamath Falls broke even on the second annual Indian congress and Fourth of July celebration which it sponsored July 3, 4 and 5, according to Alfred D. Collier, commander, today.

Expenses of the three-day celebration totalled approximately $15,000 while receipts totalled just about that figure—perhaps a little more.

"If we could have held down expenses to our original estimate," Mr. Collier said, "the legion would have made some money. But the congress grew in size and we had to meet added expenditures."

The legion commander said that the congress would be shown on films in all parts of the United States. The first film release will probably be in New York, while the first Klamath showing should be in about two weeks.

"The movie men seemed to be more interested in the "Morning at the Court of Paul Bunyan," than any of the Indian features," Collier continued, "The camera men said their file libraries are full of Indian stunts but that they had nothing comparable to the loggers' stunts."

There were six movie men in Klamath Falls representing the Fox Films corporation, the Pathe exchange, the Fox Movietone, Public company and the Great Northern railroad. The films taken by the railroad company representatives will be used in lecture tours.

PLANE ARRIVES IN ROME, ITALY

(Continued from Page One)

abandoned airdome at Albericla, near here, at 11:20 a. m. (5:20 A. M. E. S. T.) they dipped once in salute and headed due east along the 850-mile route to the Italian capital. They hoped to take less than 10 hours for the trip, arriving at Ciampino airfield, south of the city, before dark.

They landed with empty fuel tanks.

Once here the reception sapped the last of their strength and it was difficult to get either Williams or Yancey from bed this morning. Yancey arose first but went back to sleep when Williams would only mutter "yes" to entreaties to get up. Williams finally arose at 8:30, Yancey joining him shortly afterward.

After finally getting up the two aviators had breakfast, and looked over hundreds of cablegrams of felicitations before leaving for the abandoned air field at Alberica, five kilometers distant.

They estimated their trip yesterday at having entailed 3,400 miles during 31 hours and 42 minutes flying time. During the night an English aviator named Harris went over their machine thoroughly.

The fliers spent the night at the Hotel Real, conducted by an American. Williams, who become slightly ill from the effects of too much good food so soon after the lng abstinence enforced during the flight, retired first at about 2 a. m. Yancey stayed longer at the entertainment and reception offered by the Club Martimo and did not go to bed until 4 a. m.

THOUGHTS ON U. S. AFFAIRS

(Continued from Page One)

that have been told about the drabness of existence on a farm, facts and figures are doing much to disprove the truth of these statements in their application today.."

The above was spoken by the Christian Science Monitor and then it adds, "According to no less an authority than C. J. Galpin, economist in charge, Division of Farm Population in Rural Life, United States department of agriculture, the great numbers of city and town residents are turning to the farm; and of these members a high percentage were formerly farmers. Hence, the movement is not only a turning to the farm but a returning to it."

ANSWER TO LETTER GOLF

Here is the answer to the Letter Golf puzzle on page 4.

CHINA, CHINS, CHIPS, SHIPS, SLIPS, SLAPS, SLATS, SLATE, PLATE.

In Moscow, if a person drops a piece of paper on the street as small as a train ticket, a policeman has the power to fine him on the spot.

It is estimated that if all the first class roads in Great Britain were placed end to end they would encircle the earth.
