

AMERICAN GIRL ADVENTURESS JAILED AS SPY

MOSCOW, U. S. R., Aug. 13. (AP)—Miss Mary Van Rensselaer Cogswell, New York society girl, has arrived here temporarily penniless and in borrowed clothes after a series of adventures in which she tilted with European officialdom and red tape with true American abandon. With her was Mrs. Mahol Ingalls, also of New York, who had shared most of the adventures. The climax came when Miss Cogswell was thrown into a jail as a spy.

At the start of the recently concluded American tour of the Soviet Union, Miss Cogswell gained a small niche in the hall of fame by being the first person ever to pass openly the frontiers of the union without a Russian visa. She had started without going through this formalism rather than miss the tour and succeeded in wheeling entry out of border officials.

Both women left the delegation at Tiflis, Georgia, and made their way into Armenia with the intention of becoming the first of their sex to climb Mount Ararat, a 7,000 foot peak that few men have succeeded in surmounting. They were saved their strength, however, by the flat refusal of both Turkish and Persian governments to permit them to try it.

They then attempted to make their way through the Ossetian mountains, in the main Caucasian range in southern Russia, on horseback but were arrested by the political police in Kutais for taking photographs without permission. They were detained two hours until the police established that they were members of the American party.

Their horses being exhausted after a 50-hour journey the women hired a motorbus for \$75 to take them to Vladikavkaz. To offset this expense they picked up passengers on the way and collected \$55 in fares. Miss Cogswell acted as conductor and Mrs. Ingalls as chauffeur.

The only real tragedy of their odyssey came when they were journeying to Moscow on the regular railroad train from Vladikavkaz. Miss Cogswell's passport, jewels and several hundred dollars in currency were stolen.

INVESTIGATION REVEALS HOAX

(Continued from Page One) and been released, they went to the Beggs home where the actor had cached the sacks in an ash can between two garages, and changed the hiding place, believing the garage offered greater security against discovery.

Instead of being kidnaped and taken to a spot near Mammy's shack, a roadside, by the two thugs, the men's confession revealed they had hired a taxicab and paid \$200 to the driver to "keep his mouth shut," after conveying them from the city to their destination.

The driver, Henry McEveligh, was being detained by police last night as a material witness, but authorities are convinced he had no knowledge of the holdup hoax.

FIRES RAGING IN NORTHWEST

(Continued from Page One) low pine timber, had leveled nearly 12,000 acres. Aided by a stiff wind Sunday the fire raged 6,000 acres in two hours and forced two contingents of fighters to abandon their camps and flee for safety.

Other fires in that region, some of which had been reported to be under control, flamed with renewed vigor today. The obstinate Chelan forest fire today had covered a thousand acres more, bringing the total to 11,500.

Major Fires Beyond Control In Idaho, Oregon, Montana and Canada forestry officials reported major fire beyond control, with little relief in prospect from the weather. Heavy rains were said to be the only means by which the flames could be quenched. In Manitoba, Canada, provincial forestry officials reported the most serious fire conditions in many years. A last minute shift in the wind saved the town of Dubois for a time thought doomed. The town of Rennie was reported to be out of danger from a huge fire in that district.

The Bald mountain and Old Man creek fires in the Selway forest of Idaho still held fighters at bay after two weeks of fighting. They had covered 3,500 acres. The fire in the Salmon river country of the same forest was still out of control after having burned over an unknown area.

Buildings and Fields Go It was certain, however, that upwards of 6,000 acres had been destroyed. Several farm buildings and wheat fields were con-

sumed near Greer, Idaho. In addition to these blazes of major proportion, some of them covering areas of 3,000 acres, were baffling fighters in Montana, and hundreds of smaller blazes were reported out of control throughout the northwest.

BELLINGHAM, Wash., Aug. 13. (AP)—One man was killed and another seriously injured early today fighting a fire that has been burning about a week in slashings south of Lake Samish, near here. Details of the accident were not available here at an early hour.

The body was taken to Sedro Woolley and the injured man was rushed to a hospital at Mount Vernon. The dead man later was reported to be C. S. Hutten, 35, of Sedro Woolley, a watchman. Frank Arnold, also of Sedro Woolley received injuries to his right hand when a burning snag which they were guarding was said to have fallen on them.

The fire was reported to have been started by a back fire from an airplane flying low over the slash area.

BAKER FIRE SPREADING BAKER, Aug. 13. (AP)—The Daley road fire near North Powder was razing uncontrolled today although 130 men were attempting to curb the spreading flames. The fire, which has burned over considerably more than 1,300 acres, is the largest conflagration to break out in Whitman forest this year and is being fought by one of the largest crews sent from the local office in several years.

The blaze was said to be extremely difficult to fight because it is burning in a dense lodge pole jungle in which there is a great amount of dead timber. A report from the fire indicated it would possibly be brought under control today. The fire started Aug. 1 from lightning and was not discovered until last Saturday.

MONTANA SITUATION WORSE MISSOULA, Mont., Aug. 13. (AP)—Men capable of directing the defense against forest fires were riding the air today to aid on the battle fronts in Montana and Idaho. All available officials of the northwestern district were on the fire lines and relief was asked from Colorado, New Mexico and Arizona. Six men started from Denver by airplane this morning and four others were held in reserve in Arizona, district forester, E. W. Kelley said.

"Manpower resources in Spokane and Missoula are becoming low, the forest service is short of equipment and at all places an extreme degree of inflammability exists in the woods," the forester explained.

The shortage of men was described as acute last night when no men were found to send out on new fires reported from Huxon and Lothrop.

Crews were organized this morning. The Great Falls labor market has been invaded to supply needs on the Flathead fires, district forester, has taken charge of the Sullivan creek blaze. This fire, while still described as dangerous, was said to cover only about 1,600 acres.

CELEBRATION DATE IS SET

August 30th is the date set by the Chamber of Commerce board of directors for the Klamath Falls Alturus railroad celebration. This was determined at the official directors' luncheon Tuesday noon when an investigation from Alturus was accepted and plans laid for the great event to commemorate the opening of the Modoc Northern—the Southern Pacific's cutoff to the east.

Pullman trains will be run from this city early Friday morning. The entire party will remain in Alturus Friday and Friday night for the celebration, and on Saturday morning the special train will run to Lakeview where all will enjoy the Lakeview Rodeo and pay a good visit to the business section of the county seat of Lake County.

Homes for the aged maintained by fraternal, religious, trade-union and other groups in the United States have facilities for about 80,000 persons.

No More Neuritis In Arms, Neck, Legs or Thighs

If you want to get rid of the agonizing pains of neuritis, neuralgia, sciatica or rheumatism, just apply Tyamol to the affected parts and see how quickly all misery will cease.

Tyamol is a powerfully penetrating absorbent, soothing and healing in its action, which goes in through the pores and quickly reaches the burning, aching nerves. Those stubborn pains in the back of the neck, about the shoulder blade, face or head, in the forearm and fingers, or extending down the thigh to the toe tips, will soon disappear. Cramping of the muscles will stop and you will no longer be bothered with soreness, swelling, stiffness, numbness or tenderness of the joints and ligaments.

Tyamol is not an ordinary liniment or salve, but a scientific new emollient that is entirely different from anything you have ever used. Don't suffer any longer. Get a supply of Tyamol at any good drug store. Always on hand at the Drug Co.

STATE PUSHING TOWARD CLOSE OF SNOOK CASE

COLUMBUS, O., Aug. 13. (AP)—The state pushed toward the close of its rebuttal testimony today in the trial of Dr. James H. Snook for the killing of Theora Hix with the prospect that the case would be in the hands of the jury of eleven men and one woman tomorrow.

Chief Harry French of the Columbus police department was on the stand, denying the testimony given by Dr. Snook as to the admissions the defendant made during the examination that preceded his confession. The chief declared that it was Dr. Snook himself who dictated the confession that the defendant had attributed in his testimony to Prosecutor John J. Chester, Jr., and he corroborated the confession by saying that Dr. Snook, before making it, had described the cutting of Miss Hix's throat. In his testimony Dr. Snook said he swore he had no recollection of severing her jugular vein, the act in which the state bases its charge of premeditation, necessary for the first degree murder conviction.

Dr. J. M. Dunn, who examined Dr. Snook Friday, testified today that he found bruises on his body but that he thought they were not more than two or three weeks old. The defense maintains that Dr. Snook struck the first blow with a hammer on Miss Hix's head after she attacked him at a rifle range on the edge of the city where they had gone for their last tryst on June 13.

ACQUITTAL MOTION QUASHED COLUMBUS, Ohio, Aug. 13. (AP)—Judge Henry L. Scarlett today overruled a defense motion for a direct verdict of acquittal in the first degree murder trial of Dr. James H. Snook, charged with killing Theora Hix.

HAMAKER HOME SOLD TO G. FRY Sale of the seven room home of Amanda Hamaker, located at the corner of Third and Pine streets to George Fry of the Reclamation Service was announced this morning through the offices of Dale and Hoskins, realtors.

The Hamaker home is one of the finest homes in the city where the family made their home for many years.

Consideration was in the neighborhood of \$8,000. Mr. and Mrs. Fry have taken possession of their new home. A three room home at 2420 Oregon avenue, formerly owned by T. A. Hendricks has been sold to L. T. Brannan through Dale and Hoskins.

SHOT GUNS ARE USED AT RIOTS

(Continued from Page One) pulsed in another attempt to storm the city hall. The rioters then made sporadic attempts at wrecking street cars and slugging non-union operators.

During the pandemonium of shouts, booms, flat flying and shots in the building a dozen policemen were assaulted by the mob. Captain Henry Nelson of the police department, was set upon and stamped and beaten about the head before other officers could stop the mob action.

With the city commissioners safely in their offices, Detective Fred Williams jumped on a counter in the corridor with leveled guns and succeeded in quieting the enraged crowd for a time. Miss Ida Sellers, a school teacher, mounted a platform and addressed the rioters in a calm voice and persuaded many to leave the building.

Superintendent of Police Theodore Ray, who arrived on the scene during the major disorders, summoned heavy guards from all precinct stations in the city to break up the formations of rioters in front of the building and in LaFayette Square.

POLICEMAN SHOTS BOY NEW ORLEANS, Aug. 13. (AP)—Open fighting broke out in the city council chamber this morning when a union labor committee presented a petition signed by thousands of persons asking that the ordinance placing a ban on jitneys in the street car strike be revoked.

The fight started over remarks made to a policeman who directed tear bombs at a mob that stoned street cars last night near a mass meeting of union sympathizers.

The policeman fired several shots in the corridor floor and a boy bystander was hit in the foot.

Members of the commission council were jostled about and furnished targets for flat blows on the jaw.

CREW OF ELISIF PROCEEDING TO SIBERIAN COAST

ST. PAUL, Alaska, Aug. 13. (AP)—The crew of the schooner Elisif, damaged by ice floes Saturday but not a total loss, as first reported, after being ice bound off North Cape in Bering sea for more than a year was reported by radio here last night to be proceeding or was to proceed to East Cape, Siberia by their small boats or by the Russian steamer Stavattol which had been reported standing by the beached Elisif.

Supercargo R. S. Pollister, agent of the Olaf Swenson company, Seattle, aboard the Elisif when damaged, has requested the United States coast guard vessel Northland to pick up the crew at East Cape about September 10.

The Elisif wintered in the ice north of Cape Siberia and was reported clear on July 29, when cargo was unloaded at North Cape. She then proceeded toward Klyma where heavy ice was encountered and the hull was damaged on the night of August 10. She then beached near Cape Billings. Twenty Seattle men were on the ship when she was damaged.

SEAATTLE, Wash., Aug. 13. (AP)—First word direct from the wrecked schooner Elisif to Seattle reached here late last night from Chase Huntley, radio man on the schooner to his parents, Mr. and Mrs. C. M. Huntley.

His message read: "Elisif stove by ice. Beached Cape Billings, transmission disabled by engine room flooding, but receiving O. K. How's everybody? Returning via motorboat to Nome shortly. Expect me October. Nothing to worry about. Love and cheerio all."

SAW DUST PILE TO BE COVERED

Assurance that the saw dust pile, located at Klamath and Second street, long a menace to the city, will be taken care of was given members of the city council last night by Earl Murphy of the Klamath Heating company.

A canvas cover has been purchased to cover the saw dust which is to be carried away in canvas covered trucks.

Application for the improvement of streets near Manzanilla was disapproved because the territory would comprise too small a unit.

Possibility of this being taken up next year if more petitioners were acquired was made known. The application called for improving and paving the streets in two blocks. An ordinance directing assessments against property owners benefited by improvement unit No. 82 was read for the first time, and passed for second reading. Unit 82 is located in Hot Springs addition surrounding Pacific terrace.

A. W. Schupp, city attorney, was authorized to draw up an ordinance on the 80th improvement unit leveling assessments against property owners. No objections were read and notices and publication have been made for the passing of the ordinance.

Other minor business was brought before the council and disposed of. An investigation of defective city plumbing will be made and a report given at a later date. Reports of committees were made and several permits granted.

OIL EXPLOSION KILLS WIMINGTON, Calif., Aug. 13. (AP)—The breakage of a gasoline pipe in a room of the Shell Oil company cracking still here today caused a terrific explosion which killed one man outright and burned five others so badly, they may die.

ARROWE PARK CAMP BROKEN

ARROWE PARK, England, Aug. 13. (AP)—Tens of thousands of boys trekked out of Arrowse Park today as camp was broken and the great world jamboree of boy scouts came to an end. Fifty thousand youths left their homes in nearly fifty different countries.

The night was passed largely in leave-taking—as big contingents of boys toured the camp and bade their comrades farewell. At dawn they began passing through the park on their homeward journey.

They took with them the farewell message from the chief scout issued before he left the camp, the keynote of which was: "From now on the scout symbol of peace is a golden arrow. From the northlands, southlands, eastlands and westlands you came at the call of my horn to the great gathering. Today I send you back to your homelands across the seas as my ambassadors of peace among the nations of the world."
