

# NEWS IN BRIEF

**News From North Bend—**  
Mr. and Mrs. Peder Wold, accompanied by their three young daughters, Eldrid, Phyllis and Ellen, residents of North Bend, on Goose Bay, were visitors in Klamath Falls today. They are enroute to Crater lake and later plan to enjoy several days fishing and camping at Diamond lake. This is their first visit to Klamath and Crater lake. Wold, who is one of the owners of the bus line which operates at points along the coast north and south of Marshfield, remarked at the busy atmosphere in Klamath Falls.

**Dr. Stubblefield Here—**  
Dr. and Mrs. George I. Wright entertained at dinner in courtesy to Dr. and Mrs. J. S. Stubblefield of Merced, California and Miss Gertrude Stubblefield of Fresno, California and Miss Ethel Hunt of Los Angeles. Dr. Stubblefield was formerly pastor of the First Presbyterian church of Klamath Falls. They have been visiting old friends in the city enroute to Portland, Seattle and points north by Bend.

**Visiting Alumni—**  
Benjamin W. Hill, Headmaster of Hill Military Academy, Portland, is here visiting several boys who have been graduated from that institution and cadets who will return to continue their courses when the Fall term opens September 11. Klamath Falls has sent many boys to this fine school and Mr. Hill says several boys are enrolled for the coming year from this section.

**Marriage Announced—**  
Mr. and Mrs. G. S. Bratton, 1210 Lincoln street announce the marriage of their daughter, Miss Frances to Donald Black on Tuesday, August twentieth in Klamath Falls. Mr. and Mrs. Black will be at home to their friends after Monday, August twenty-sixth at the Arcade.

**Mrs. Keller Resigning—**  
Mrs. J. J. Keller, cateress at the chamber of commerce, Rotary and Kiwanis luncheons for several years is giving up her work the first of September. As yet no one has been appointed to fill the vacancy, according to Earl C. Reynolds, executive secretary of the chamber of commerce.

**Expected Home From South—**  
Mr. and Mrs. Henry N. Moe, who have been spending the past fortnight in San Francisco and other bay cities are expected home this week-end. Moe has been on a combined business and pleasure trip and while south purchased fall merchandise for The Woman's Store.

**Miss Way Returned—**  
Miss Lorena Way has returned to her home in Chico, California after visiting for the past fortnight in the city as the house guest of Miss Catherine Cleghorn. Miss Way enjoyed the trip to Lake O' The Woods with the Camp Fire Girls.

**Visiting Here—**  
"Tex" Dilworthy, well known Marshfield and Coquille restaurant man, is here on business seeking a probable location in Klamath Falls. This is the busiest town in Oregon," Dilworth remarked this morning.

**Society Meeting Thursday—**  
The Missionary Society of the First Baptist church will meet at the church on Thursday afternoon at 2:30 o'clock. All members are urged to be present. Visitors are extended a cordial invitation to attend.

**Circus Coming—**  
Advertisements of the coming of Ringling Brothers and Barnum and Bailey circus to Klamath Falls on August 31 were posted in Medford yesterday.—Medford News.

**Resumes Position—**  
Miss Faith Williams, employed in the ribbon department of Moe's store, has resumed her position following an illness of the past few days.

**Many Leaving Sunday—**  
Already more than 100 local people have made plans to leave on the excursion train for Odell lake, according to officials of the Southern Pacific.

**Here From South—**  
Mr. and Mrs. Alfred Stoeckel of San Francisco are here for a visit of several weeks. They motored north.

**Returned From Odell Lake—**  
Mr. and Mrs. E. M. Hogue of Ryan and Hogue's Auto Top Shop enjoyed the week end at Odell Lake on an outing.

**Visiting From Kansas—**  
Winona and Prudence McGuire of Meade, Kansas are visiting here for a fortnight. They made the trip by motor.

**Met This Noon—**  
The membership team captains of the chamber of commerce held a meeting this noon to discuss various matters of importance.

**From The Fort—**  
Mrs. George Taylor of the Fort Klamath hotel, was a visitor in Klamath Falls today.

**Visiting From Chico—**  
R. H. Thompson, resident of Chico, California is here for several days transacting business.

**Mrs. Hale Ill—**  
Mrs. Jack Hale, 1211 Crockett avenue is confined to her home with pneumonia. Today her condition was reported improved. Mr. Hale also ill at the family home is reported very much improved.

**Left On Hunting Trip—**  
Everett Hardenbrook, R. E. Devesse and Charles Moore, three prominent business men of this city have left for Canada where they will spend some time hunting big game.

**Returned From Beach—**  
Mr. and Mrs. J. H. Carnahan, Mrs. Elizabeth Haines and daughter Margaret Jane are home from Rockaway where they enjoyed four weeks at the sea side.

**Miss Anderson North—**  
Miss Vivian Anderson, registered nurse has left for Portland to be gone for an indefinite time.

## SPOKANE SHIP MAKES HISTORY

SPOKANE, Wash., Aug. 21. (AP)—Nick Mamer and Art Walker were home today after having pushed the glistening orange Sun God across the continent and back in a five day non-stop record at Felts field at 5:59:40 p. m. (p. s. t.) last night, a minute less than five days after the ship was sent into the west towards San Francisco, the first refueling point.

Both fliers apparently were in excellent physical condition, but were unable to hear ordinary conversation. They stood before a microphone for more than a quarter of an hour to tell the crowd of their flight before they went home to "catch up on a little sleep."

## SINO-SOVIET BREAK NEAR

(Continued from Page One)  
agency Kuo-min says today: "Foreign observers returning from Manchull stated that soviet troops along the frontier were adopting a provocative attitude, apparently seeking to test public opinion regarding Russian military action. In the event of the absence of a hostile public opinion, soviet Russia is expected soon to launch a formal offensive against China."

**Japs in Soviet Army**  
This same agency issued another bulletin under a Mukden date saying:

"It is learned that some Japanese military officers were found in the soviet army. It is reported that soviet and Japan have entered an agreement whereby Japan promised to assist Russia, the latter promising to give up fishing rights in north Saghalien in favor of Japan. In addition it is believed that Japan is strongly opposed to the powers' intervention in the Sino-Russian crisis which move the United States is believed to have attempted."

"Presumably this latter reference is to an identic aide memoire which Secretary of State Stimson sent to the powers interested some weeks ago. The exact terms of this aide memoire were not made public but Russian despatches have stated that it suggested an international commission to operate the Chinese Eastern railway pending a settlement of the dispute."

**ARMIES CLASH DAILY**  
PEIPING, Aug. 21. (AP)—Clashes along the eastern and western borders of Manchuria continue daily, messages arriving here indicating the majority are committed by Russian troops needing supplies and outlaws taking advantage of the present situation.

The most serious of these arrays seems to be the report from Harbin stating 1,200 men attacked and captured Tanglin, on the border of Kirin province August 19. Some reports state the Russians were soviet regular troops while others say they were a combined force of Koreans and Buriat tribesmen.

## PICNIC PARTY NEXT SUNDAY

Odell lake, on the Cascade summit will be the setting for another picnic excursion Sunday, Aug. 25.  
Round trip rates of \$2 are being offered by the Southern Pacific.  
Boating, fishing, hiking and dancing will be enjoyed.  
The train will leave here at 8 o'clock in the morning arriving at Odell lake at 11:15 a. m.  
Excursionists from Algoma, Modoc Point, Chiloquin, Pine Ridge and Kirk will join the party en route.  
At 5 o'clock the train will leave Odell lake due to arrive in the city at 7:45 p. m.  
Natural scientists estimate the weight of the earth at 4,643,000,000,000,000 tons.

## PAVING WORK BEING DONE

(Continued from Page One)  
bined mixer and spreader on the job where the right amount of water is added. It is then but a matter of a few minutes until the unwieldy mass becomes a smooth roadway for speeding motor cars.

In preparation for this stretch of concrete road, the engineering force made ample allowance for drainage and for future widening. When the time comes that it will be necessary to have more surface the grade will be in readiness, for the entire right-of-way has been utilized. The grade will extend several feet beyond the surfacing on either side and the trenching has been done with an idea of permanency.

Highway bridge engineers are designing a span for the canal, work upon which will be started shortly so that the laying of concrete may be completed without a break. The present span is about 16 feet wide and the new one will be built the width of the roadway.

To speed the work of laying the new road, Mr. Neef has marked two detours, one turning to the right past the highway department buildings to accommodate south bound travel and the other comes in on the east side of the highway for north bound travel. Despite this arrangement a few cars break through the barrier and come in over the regular highway.

**Adding New Equipment**  
At the highway "farm" the officials are taking advantage of a temporary lull in maintenance and construction work to get the machinery in shape for the coming winter. Six new one-man motor graders have been added for light grading and snow clearing. Besides these trucks the department now has several heavy duty F. W. D. trucks which, aside from hauling will be used for pushing the rotary plow through the heavier drifts. These trucks have been found more effective for that work than the lighter caterpillars because of the ground that can be covered by them.

"Klamath county has 308 miles of state highway," said C. C. Seeley, maintenance of way engineer, "so it is necessary that the department be equipped with time-saving machinery."

**Improving Grounds**  
N. H. Jones, shop superintendent, pointed with pride to the lawn on the northwest corner of the property. He recently planted some Russian olive and locust trees which he hopes will not only adorn the corner but afford some shade. It is the desire of the state to beautify such portions of their property as are not otherwise utilized and to all make working conditions as agreeable as possible for the men employed.

"We are glad to have the people call and inspect the plant and see what an investment the state has in road equipment," said Mr. Jones. "It will not be hard for them to understand what a big job it is to build and maintain a vast system of roads that makes travel a pleasure."

## TEMPTING FOOD ABOARD THE ZEP

(Continued from Page One)  
in the Graf Zeppelin's "wine cellar" in Tokyo today as is not disposed of by the passengers as were not previously emptied into glasses were sealed in bond when the ship passed over American territorial waters. As the Graf Zeppelin flies as a rule at an altitude of between 1,000 and 2,000 feet the question of a vertical three mile limit is not apt to come up for consideration.  
Live as the young do and you'll keep young, says Dr. Mayo. The trouble is, old people never would be willing to settle down that way.

## Equestrianism Featured By World's Greatest Show

Beautiful Horses, Well-Trained And Eager to Perform

Graceful, clever riders, the greatest in all the world. These form a combination which this year brings to the Ringling Bros. and Barnum and Bailey Circus the greatest and most skillful aggregation of horsemen and horsemasters ever seen in America.

There are the famous Rieffenachs, without equal in the circus world today as bareback riders. The marvelous Ernestos Family, most clever of all trick and comedy riders. The Davenport, famed circus family whose riding is acknowledged supreme. The beautiful Mital-Rose sisters, dainty and charming.

There are the highly trained "high school" horses, well bred and proud in their demeanor, forming the most highly trained menagerie act in circus history. Here a group of beautiful young women on prancing steeds perform to the delight of all.

There are also the high jumpers, the speed kings of the big top, the dancing, waiting, rearing horses and many other equine stars.

Truly enough may it be said that the Ringling Bros. and Barnum & Bailey Circus has glorified the American horse and preserved the tradition of the equestrian world.

All these wonder horses with their clever riders, will be seen here when the circus comes, Saturday, August 31st, for two performances, the first at 2 o'clock, the second at 8 o'clock, with

Rose Rieffenach, Celebrated Rider, and Her Favorite Horse, "Snowball" doors opening in each instance an hour earlier.

## Logging Camp Chefs Are Wonders In Their Line

Woodsmen Are Best Fed Men on Earth, and No Other Class Can Handle Good Food Quite So Well, Says Zeke, After Visit to Logging Camps.

By ZEKE SQUEE  
DIAMOND LAKE, Ore., Aug. 20. (Special)—Your scribe and the other loggers do not find it necessary to get up and sharpen our stomachs on the stovepipe in order to enjoy the fine grange picnic dinners set out by the woodland chefs.

IN FACT, after a lumberjack has gone out and honed his appetite on a caterpillar, jammer or a tall tree all day he is usually able to appear at the table ready for the second helping of corned-beef with all the attachments and often reaches over and appropriates a piece of pie and a cookie to his own use.

AS A rule loggers are the best fed class of society. Their outside work where the lumber companies keep the boys plentifully supplied in all that is necessary in the way of fresh air, sunlight and exercise, produces a set of hardy men which the writer is always just a little bit too busy to "sass."

WHILE THEIR work is exhausting, still the logger can flirt three times a day with a half sack of boiled 'puds and a tank of brown gravy in a way that a banker with his thousands might envy.

DURING THE past week the writer broke bread with the woods crews in the Kirk, Diamond lake and Chemunt sectors. Candor, however, compels us to refer to it as compound fractures in the hot biscuits of the Lamm, Algoma and Pelican Bay lumber companies.

CLAUDE HOUGHTON, W. J. Dyche and Pete Baker, in charge of operations for the several companies, are wonderful hosts. And we matched their hospitality by eating as much as any two loggers in the big dining rooms.

BUT WE wish the logging superintendents would go a step farther while entertaining the press in large quantities in the future. The large quantities refers to the food.

THAT IS to attach a jammer rope to our leg and order the engineer to yank just as we

reached over after a wedge of the seventh kind of pie which so dazzles the will that a town man cannot stop eating under his own power.

CAMP CHEFS are wonders in their line. While compounding enough viands to keep the tables bowlegged their recipes call for ingredients that makes the food taste palatable and appetizing.

NO SKIMPING on eggs in the camp kitchens! Could Klamath county poultrymen see a chef breaking eggs for his day's pastries, they would think it high time to run their hens through clothes wringers or to keep up the supply of yellow-yolked omelets to the end that the logger might live in the style to which he has become accustomed.

## CHILD BURIED IN SAND CAVE

ABERDEEN, Wash., Aug. 21. (AP)—Walker Shreck, 13, was smothered to death near Ocean City late yesterday when sand caved into a hole the boy had dug and crawled into, it became known heretoday.  
The boy was the son of Mr. and Mrs. Carl Shreck of Seattle. Although Jimmy Kinnamen of Elma, with whom the Shreck boy was playing, immediately gave the alarm, Shreck's body was not removed for 10 minutes and efforts to restore life were useless.

## FOREST FIRES FLAMING ANEW

SEATTLE, Aug. 21. (AP)—Forest fires in the La Clerc creek basin, east of Ruby in Pend Oreille county, northeastern Washington, flamed anew today, forcing ranchers and loggers to flee for their lives while in other sections of the Pacific northwest and western Canada conditions continued to show improvement.

The La Clerc fire swept 4000 acres yesterday. One hundred and fifty men were detailed to combat the fire and a call was sent out for 100 more experienced men. Forest officials said the fire threatened to be the worst in the country since 1910.

Slocan City and Nelson, B. C., both were reported out of danger. The worst fire in British Columbia at present in the Kootenai region was in the little Slocan river valley, where a large crew of men were battling to keep the fire from six miles of slashings.

One hundred and fifty men were attempting to check a fire that had already burned over 25,000 acres and is threatening Wallace mountain where hundreds of mineral claims and a million dollars worth of mine buildings are located. This fire was expected to be held unless high winds arise.

The White mountain fire in the Wenatchee national forest in Washington was brought under control last night and no fires of consequence were burning in the area today. Inexperience in men, hastily summoned when the fire danger was at its height, were being replaced by experienced woodsmen.

After a desperate battle, a brush fire which had swept 20,000 acres east of Mokelumne hill, near San Andreas, Cal., was brought under control at the edge of town. Many cabins and ranch buildings were destroyed.

## WOULD RENEW FRIENDSHIPS

(Continued from Page One)  
give that little rebel drummerboy a drink. He said yes.  
"I took a tin can off his harness holding about a quart, filled it full of water out of my own canteen, held it to his mouth, and he drank it all."  
Mr. Christian said he believed the confederate soldier was in the vicinity of Atlanta. When they met on the battlefield he was 15, and he thinks the confederate boy could not have been more than 15.

**This New Truck will Out-Pull Out-Climb and Out-Perform**

All Others of Similar Rating Under Full Load  
We have a new truck here at our place that is entirely different from any other light truck on the market—it has 6 speeds forward and 2 reverse. And the difference shows up mighty plain when you run up against steep grades, plowed ground, deep sand, soft meadows, ditches, snow, etc. The SIX-SPEED SPECIAL is ahead of the others because it is built to go ahead on just the kind of work that folks around here have to do.

It is an ideal truck for the farm, and it fills the bill with merchants, too. Anybody who has to haul loads over good roads and bad will like the SIX-SPEED SPECIAL.

We are demonstrating it every day, so don't feel backward about asking us to show you what this truck will do. It backs up every thing we say about it—and its low price will surprise you.
