

NEWS IN BRIEF

Ask About Pigeon—

A letter was received today by Marion Barnes, game warden, from Mrs. Carlotta O. Brown of Crystal, Ore., asking about a numbered Homer pigeon that had come to her ranch on October 12. The pigeon carries the number 10076 and has rubber bands with numbers 159 and 613 on its legs. Mr. Barnes stated this morning that about one of these birds a year were noticed in Klamath Falls. He said they were sent out by various pigeon fanciers and stop at different places to rest.

Plan to Attend Game—

Some of the Klamath Falls football enthusiasts are planning to attend the football game at Eugene on November 16th. If a sufficient number desire to make this trip, the Southern Pacific company will place a special sleeping car on train number 16 to be set out at Eugene, arranging for same to be set out here upon arrival of train 15 Sunday. Requests should be made to the local Southern Pacific office.

Buying Power

For a good many years you have heard a good many merchants tell you about their buying power—How their buying in carloads or large lots direct from the manufacturer saves you money. We will all agree that the average large merchant with plenty of cash has buying power, but what about selling power? If the advantage gained in buying is lost in selling, where is the benefit? Most of you will agree that the cost to operate three stores is practically three times the cost of operating one. This is the answer to the question so often asked: "Why can Santfords sell so much cheaper?" Santfords save the extra cost of operating more than one mercantile institution in the same town; this saving we pass on to you. Compare Santfords all-week prices with the price you paid last week—See for yourself what Santfords save you.
