VOLLEYBALL SEASON ENDS

Malin Girls Win County Championship Again; Letters Won

The volley ball team of Malin feels that it has finished another very successful season and it is proud that it holds the county championship again.
The outcome of the scheduled games were as follows: Malin won from Merrill, 27-22; Malin won from Bonanza, 32-28; Malin lost to Henley, 19-22. This making a three-cornered tie between Henley, Bonanza and Malin. Henley and Bonanza played first, Henley being successful. Malin then played Henley the following Wednesday at Merrill. Malin won with a score of 29-24, which gave Malin the volley ball championship for this year.

Great Interest Shown in Malin Hi Basketball

More interest is being shown this year than ever before in basketball. About 20 men are turning out daily to try for positions on the team.
Coach Fisher stated in a meeting held last Monday that the squad would be cut to 15 men.

Students Enjoy Thanksgiving Rest

Most everyone returned to school Monday morning and resumed their studies.
The students all report a large feed of Turkey on Thanksgiving Day. Some went to visit relatives over the vacation.

Fifty Malin Hi Students Plan To Attend Joint-Meet

The annual Get-Together will be held in Klamath Falls this year in the high school, December 13.
The early part of the evening will be enjoyed by a program given by students of Klamath high school, then dancing will take place.
It is estimated that about 50 students from Malin will go to the Get-Together.

Mother: "David, dear, you've forgotten your toothbrush."
David McComb: "But I thought I was going on a vacation."

Oiga: "I'm not going to play with Rudolf any more."
Mother: "What's the matter? I thought you liked Rudolf."
Oiga: "I did, Mom, but he kicked me in the stomach when my back was turned."

Claude Layman: John D. Rockefeller has a dollar for every hair on your head."
Bill Rajnus: "Yes, and I've got a dollar for every hair on his head."

Teacher: "And what do you suppose all the animals did during those 40 days in the ark?"
Edwin Stastny: "Oh, I suppose they stood around and scratched themselves."
Bill Stroeter: "How could they do that, teacher; there were only two fleas in the ark?"

Entertainment consisted of small booths which were placed around the school room. Each booth had a title which gave the guests an opportunity to know what was in each. Later in the evening supper was sold.

Our Speech

The first words spoken by man were simply grunts. It was and still is hard to fully determine the meaning of such words. At that time it was not as necessary as it now is, as many signs were used.
However, in our stage of civilization, where we have everything developed, why can't our speech receive more attention?
When a teacher asks a student a question, his reply is sometimes a grunt, "Uh" or "Huh," both quite similar to a grunt made by a pig. The teacher expects a respectful answer when she asks the question. Why didn't she get it? Are we students going to teach our teachers that meaningless language? Some have already learned a part of it. For example, sometimes during an athletic game when an error is made you can see the coach grit his teeth and here he go "Gr-r-r-r" like an angered beast. Is the gift of speech going back to mere grunts and ruls?
While we are still attending school, why not try to get the most and best benefits we are capable of obtaining from our course in education? When we are through schooling, we will be called upon to speak correctly. Why not learn now when our chance is before us? It means much to us—let us not destroy but cultivate the use of good English, for it will always help.

Smoking

In large high schools and in colleges no athletes are allowed to smoke. There are reasons for the rule. Smoking tends to make one short-winded, it dulls the body's action in answer to the request of the brain. It is injurious in many ways, not only to athletes, but to any one who smokes.
The coach's orders, "No smoking!" should be obeyed to the letter. Too often a good player becomes short-winded because of excess smoking.
Any one who is on a team should be willing to give up a detrimental habit in order to help his school.
There is also the element of honor. It is not the best example for one to abstain from smoking while in the coach's sight, and then to smoke like a furnace when the coach cannot see him.
Small schools should have as strict rules on smoking as the larger ones, and the students should be willing to comply with them, for their school, if not for their own good.

Pep Club Gives Hard Time Dance And School Party

A hard time dance and party was given by the Malin High Pep club Friday. The hall was decorated in funny papers and newspapers. All the people were dressed in hard-time costumes.
Many interesting and funny games were played in the early part of the evening. Later a hard-time dance was held. The music was furnished by the Sokol orchestra. Those invited were the alumni, parents of all the high school students and the students.

Carr School Has 'Penny Fare' Show

A penny fare was held at the Carr school Monday, December 2. This was the first entertainment given by the school this year. The penny fare was supervised by Mrs. Craig, teacher.

Mr. and Mrs. Bailey and Mr. Paulsen, agriculture supervisor, were visiting the Malin high school last Thursday.
Mr. and Mrs. Bob Nichols of Klamath Falls are visitors at the home of Mr. and Mrs. V. J. Spolek of Malin.

BUSINESS LECTURES

During the winter months on every Saturday afternoon at 5 o'clock, national notables in the business world will broadcast over K. G. W. These men will talk of business and business conditions, and will be presented by Merle Thorpe. The department is to be called "The New Business World," and will prove very helpful to business men all over the state.

GAS-PIPE ORGAN

LONDON—Young Mr. A. W. Alwood, his brother, and some school friends have built one of the world's queerest organs. Built during spare time, the organ contains between 600 and 700 pipes and is of the eighteen-stop variety. Materials used are old gas pipes, billiard balls, and knife handles. The cost of constructing the organ was about \$1000. A similar organ, purchased, would run about \$3500.

QUITE A DRINKER

LONDON — The London Zoo has added quite an expensive animal to its collection. It's Peter, the new baby elephant. Peter drinks fifteen quarts of milk every day and has created such a taste for the liquid that he could consume more than thirty quarts if he were allowed to.

NOTICE To The Public

Friends and Citizens of Klamath and Vicinity.
We wish to thank you for your wonderful response to our appeal through the medium of the Klamath Newspapers in the matter of closing out the Brownsville Woolen Mills Store at 5th and Main Sts. The business transacted on Thursday was the largest in history, notwithstanding that we were handicapped for space and an adequate staff of salespeople. Again we thank you and wish to state that we have secured additional help sufficient to give 100% service Saturday. Kindly turn to page 11 of this paper today and read our further announcement.
Signed, BROWNSVILLE WOOLEN MILLS STORE.

LAKEVIEW TO GET NEW MILL

R. S. Adams Announces Plans for Plant to Cut in Year

Preliminary construction will be started at once on a new band sawmill in Lakeview, it was announced by R. S. Adams.
Mr. Adams closed the deal for the purchase of the tract the first of the week and sawmill engineers are now laying out the plans for the construction of the new mill, which is to be of 60,000 foot capacity in eight hours. The tract is located along the Southern Pacific right-of-way at the point of the crossing of the stock driveway at the north city limits. Twenty acres is contained in the tract and will afford adequate space for the mill and a storage yard with capacity for upwards of 15,000,000 feet of lumber.
Mr. Adams has been one of the successful operators of the Lakeview district during the past four years and his new operation is expected to form the background of a large manufacturing plant that will form a most important addition to the payrolls of the city as well as establishing the trend of sawmill development adjacent to the city.

Logs for the new mill will be brought in by truck with a fleet of from 10 to 15 trucks engaged in hauling. Investigations have shown that logs can be hauled to the mill for about the same figure that operators now pay for haul of logs to mill and lumber to the railroad. In addition a large amount of fuel will be provided for the local market and returns from this will offset the log haul to some extent.
A storage pond of a capacity of several million feet will be constructed on the site by means of dyking and water will be supplied from a deep well already drilled in the site, which has proven of adequate capacity for the purpose. With this storage provision no interruption to the log supply for the mill is anticipated.

Plans for the present mill operated by Mr. Adams at Mud Creek are not yet complete, though it is anticipated that this also will be operated during the coming year with a possible removal to a site closer to the timber being considered.
Construction of the new mill adjacent to the city and rail facilities is a new step in the lumber manufacture in this district and the plan now offers every prospect of success.
While marketing conditions just at present are rather disadvantageous, Mr. Adams is convinced that the industry will be

COAST PEOPLE WANT HIGHWAY ALONG BEACH

Clatsop and Tillamook Offer Sum to Help Finance Change

PORTLAND, Dec. 13, (AP)—The state highway commission today considered offers of \$100,000 each from Clatsop and Tillamook counties to complete the Roosevelt highway after the courts of both counties joined in asking the state to re-locate the coast highway from its present route inland to go around Nash-Kah-Nie mountains and Cannon beach.

Port Orford Comes First

The commission announced it did not wish to undertake major betterments on the Oregon coast road until that highway is completed, and that when improvements are considered the section south of Port Orford would probably receive first attention.
The entire day was spent yesterday in hearing requests from various delegations throughout the state. Little business, except the awarding of contracts, was consummated. But today the highway commission was to meet with the federal forestry board and map out the forest highway program.

Bids were acted upon as follows:

Baker county: Pleasant Valley.
on an even keel early in the spring and it is expected to get the new mill in operation ready for the next season's cut.—Lakeview Examiner.

Durken section Old Oregon Trail, 12.4 miles regrading and resurfacing; Quinn-Robbins company, \$137,919. Award held pending investigation.
Benton county: Lincoln county-Alesea mountain section of Alesea highway, 18.7 miles resurfacing, Joplin & Eldon, \$32,880, awarded.

Lake county: East forest boundary-Silver Lake section, Fremont highway, 19.8 miles grading, Wm Elliott, \$40,205, awarded.

Lincoln county: Yachats-Lane county line Oregon Coast highway, 2.45 miles grading, Wren & Greenough, \$162,322, awarded.

Lane county: Nimrod-Halknap Springs, section McKenzie highway, 21 miles resurfacing, all bids rejected as excessive.

Linn county: Ranger Station-Bryant hill, section Santiam highway, 1.9 miles grading, Harman & Tuttle, \$57,935, award held pending investigation.

Josephine county: Bridge over Rogue river on Pacific highway at Grants Pass, Northwest Contract company, \$119,600, held for agreement with federal authorities.

PAIR MURDERED

CHARLESTON, W. Va., Dec. 13, (AP)—Mrs. John Gann and her stepfather, Richard Price, 56, were shot and killed at their home here early today. Police said the woman's husband, John Gann, had been arrested at New port, Ky., as the slayer. According to the police, the Ganns were estranged and Gann had threatened the life of his wife and their two children.

Secretary Wilbur says the west must save water and oil. The west might try the New York scheme—saving the water for the oil stock.
The greatest number of fire victims are children.

WANTED
