Very true Santford and Company did and always will refuse to sign a contract with Meat Cutter and Butchers Union or for that matter any one else when tendered contracts regulate the price we charge or limit the service we render to the buying public who have made our large cash food stores possible. What we would like to know is: Just what is this "Unfair List" that Santford and Company have been "put on?" Is it a love token? A boycott machine? Or neither? Just what is it? What good purpose does it serve? Does it help the farmer get more for beef? Or does it help the union shop get more for beef?
