Just drive the deer, rite in air, and put lots of straw down for them to lay on and then go to the grainery and get lots of oats for them and then throw lots of hay down for them but keep the big doors shut. so our little dog rex wont bite the deer, then come to the house and bring the Presents and put them on the table in the middle room and dont wake little sister up and then go in the kitchen and you will find a fat turkey and lots of pies and cakes and hot coffee. Just eat all you can and take some with you and if you have a little deer to leave it for me. I would be glad as I love to have lots of pets. Mama said you could have some turkey and some fat hens and a sack full of prunes and a fat pig if you want. I dont want to make the deer pull to hard, and when you come back stay with us a hole week and tell us how you go so swift and dont get the little poor children that have know toys if you run out of presents and dont get to see the little poor children come up to our place and get lots of things for them to eat dady dont care.
