

GREAT FIGHT AWAITS CROWD FRIDAY NIGHT

Pelkey-Feldman Match Looks Like Best One This Season.

Prospects for the best fight of the season look good with a meeting between Willie Feldman and Ray Pelkey, the Oakland brawler. This Pelkey is a veteran of 15 years experience and has always been a stumbling block for the boys who aspire to become champions. Just recently he gave our favorite Gene O'Grady the only setback in his youthful career, stopping the farmer boy in 4 rounds.

Crowd Pleaser
Pelkey is a great crowd pleaser always boring in and hitting hard with both hands. In fact, Feldman meets one of the classiest boys at his weight—a real contender for the middle-weight crown. Willie has offers to go south and meet the cream of the main events. He can hold his own with any boy on the Pacific coast right now, and with any kind of a break he will get the chance. He is working hard to gain a chance to meet Mickey Walker.

Willie is not boastful, but he is so sincere that he feels he can take any middleweight in the game today. Anyway, the fans are in for a real treat Friday evening when these two stars clash.
Tickets were placed on sale at the Mecca today.

OBITUARY

JOHN GILMAN
John Gilman a resident of Bonanza, passed away in this city Monday morning at 3 o'clock following an illness of 4 months. He was born at Glad, Wis., and aged 55 years, 10 months and 24 days at the time of death. He is survived by his wife, Effie B. Gilman, two sons Donald and Clarence and one daughter Georgia all of Bonanza.

The remains are in the gold room of the Earl Whitlock Funeral Home, Pine Avenue at Sixth where friends may call. Announcement of funeral arrangements will be made later.

HATTIE BELL PERHAM
Hattie Bell Perham, a resident of Chiloquin, passed away in this city Saturday night following an illness of several days. She was born at Hamilton, Mo., and aged 55 years and 6 days at the time of death. She is survived by a daughter, Mrs. Catherine Davis, of Chiloquin. Prior to locating at Chiloquin seven years ago, Mrs. Perham had been a resident of Klamath Falls for 14 years. The remains are in care of the Earl Whitlock Funeral Home, Pine Avenue at Sixth, where friends may call. Announcement of funeral arrangements will be made later.

HATTIE CORDELLA KERNAN
The remains of the late Hattie Cordella Kernan were forwarded by the Earl Whitlock Funeral Home, to Roseburg, Oregon, where funeral services will be held Tuesday afternoon at 1:30 o'clock. Interment will be made in the family plot in the Oak Creek cemetery.

RICHARD B. MURDOCK
Friends are respectfully invited to attend the funeral services for the late Richard B. Murdock to be held Tuesday afternoon at 1:30 o'clock at the Earl Whitlock Funeral Home, Pine Avenue at Sixth. Interment will be made in Linkville cemetery.

DAISY DAVIS
Funeral services for the late Daisy Davis were held Monday afternoon at the Earl Whitlock Funeral Home, Pine Avenue at Sixth, with Rev. Johnson of the Seventh Day Adventist church officiating. Interment was made in Linkville cemetery.

HORATIO OREM
The remains of the late Horatio Orem will be brought to the Earl Whitlock Funeral Home, Pine Avenue at Sixth. Announcement of funeral arrangements will be made later.

HORSE SAVES MASTER'S LIFE

(Continued from Page One)

is but a short distance from the McCormack house, but it took the man and his faithful horse six hours to get there. With his destination in view, Shaw became exhausted, the rope slipped out of his numb hands, and he rolled off the sled and was unable to crawl back again. He called for help, and finally Mrs. Frank McCormack heard his cries and came to his aid. The horse remained at his master's side.

A taxi was summoned, and Shaw was rushed to the Hillside hospital, where he is suffering from a fractured pelvis and frozen feet. Whether or not his feet will have to be amputated is not yet known, but had it not been for the pet horse, Shaw would undoubtedly have frozen to death before anyone discovered that he was hurt.

KRATER GIVEN HONOR MENTION

(Continued from Page One)

school, is edited by Robert Cooper. The Grantonian was chosen because of its news style, professional makeup, and the variety of features published. The Tech Pep, edited, published and printed by students of the Benson Polytechnic high school in Portland, and which won the grand prize last year, was given honorable mention.

Adams New President
John Adams, Grant high school student, Edward Reames, the state association of high school students, Edward Reames, Medford, vice president, with other officers being selected from various high school members throughout the state who were in attendance at the conference.

Specific methods in improving classroom instruction were discussed at the meeting for high school principals with the following speakers: Principal Adams, Eugene; Mrs. Margaret B. Goodall, University high school, Eugene; Assistant Superintendent Thorne, Portland and Dean Wolbul, University of Washington.

The following Klamath Union high students and faculty members who attended the meeting, returned yesterday from Eugene, and will give their report at an assembly to be held Wednesday morning at 9 o'clock.

Ben Wilson, president of the student body; Mary App, president of the girl's league; Mary Frances Dougherty, business manager of the Krater; Hubert Totter, editor of the annual; Harry Sprague, first vice president of the student body; Alice Howard and Everett Vanderpool, faculty members.

STORE OPENS IN FORTNIGHT

(Continued from Page One)

Newberry stores, will arrive soon to superintend the opening and arrangement of stock. A local manager will be chosen later as soon as the business is established here. All local help will be employed from the first, Mr. Berry stated.

The J. L. Newberry's stores are located over the United States and cover the entire Pacific coast from Spokane to El Centro with the largest ones at San Francisco, Portland and Los Angeles. There are approximately 300 stores at present with an average of one a month opening new. A number of them are located in Oregon.

Stock for the local store is arriving daily and is being stored in the Klamath Falls Transfer company. Placing of stock on the shelves, cases and show-cases will be started immediately. The stock covers a variety of articles ranging in price from 5c up to the Newberry price range is different from Woolworth's. Kress, and other similar stores, in that the prices go beyond 15c.

The interior of the building has been attractively finished with 6 rows of counters for displaying goods. The counters are finished and already placed. They are constructed of birch, and stained in red. The cashier and bookkeeping departments are at the rear of the building.

The basement has been partially finished and will be used for the heating plant. The second story is being used exclusively for storing stock. A rest room occupies part of the second story.

TWO FINED TODAY
The police court has been quiet for the past few weeks, with very few arrests other than drunks and vagrants, listed since the first of the year.

R. P. Foster was arrested by the police department yesterday at Main and Martin, and paid a fine of \$100 for reckless driving. He has been released.

Percy Terry, negro, is being held in the city jail pending payment of a \$35 fine for illegal possession of intoxicating liquor. He was apprehended at 543 Broad street, and pleaded guilty in police court this morning.

THERMOMETER RUNS LOW HERE

Lowest Point in Years Reached Here With Ten Below.

Sub-zero weather throughout the night sent Klamath temperatures to the lowest point of the winter, ten degrees below zero, at 3:30 a.m. This is the coldest mark reached in Klamath Falls for many years, and many of the old residents here say they cannot remember it being any colder here. Official reports for previous years are unavailable.

Snow Falling Today
A light snow started falling at between 3:30 and 4 o'clock this morning, moderating the temperature since that time until today at noon it was 14 above.

The snow has continued to fall all day until press time this afternoon. Eight inches of new snow fall reported on the Sand Creek road, with a continual snow fall reported on the Green Springs highway.

Skating Leading Sport
Skating parties and student coasting parties, together with toboggan sildes and other winter sports, still hold sway here, and everyone seems to be determined to make the best of the most extreme winter seen by many of them in Klamath Falls.

Virtually all of the nearby stations reported sub-zero mercury readings, with the exception of Dorris, Calif. a 45 minute drive south of Klamath Falls, where the weather had moderated since the previous day, and remained at 10 above for some time. Grass Lake reported the same temperature as Dorris.

Alturas Cold
Alturas and Hackamore, Southern Pacific stations, reported 8 and 15 below respectively, the lowest readings of the season for those two communities.

Kirk, where the lowest temperature readings are continually reported, suffered with intense cold last night, with the mercury reaching 20 below at 2 a.m. this morning.

Other readings are:
Mt. Hebron (south of Dorris) 5 below
Algoma 3 below
Chiloquin 12 below
Chemult 23 below
Crescent Lake 14 below

Pres. Montelius Names Committees On Realty Board

The names of the members of the Klamath Realty Board who were appointed to serve on committees during the year 1930, were given out today by the president, C. S. Montelius.

Finance committee: Gerald D. West, Leslie Peyton, Ralph C. Dale.
Arbitration committee: D. M. Smith, F. L. Weaver, John C. French, W. M. Montelius and Arthur Wilson.

Membership committee: E. M. Chilcote, Claye McDonald, Robert Claye, T. J. Webb.

Broker Law Explained
A communication from C. V. Johnson, deputy real estate commissioner for the state of Oregon, was read by the secretary, Bogus Dale, at the regular weekly meeting today in the Pelican Grille. The letter was in reference to applications for brokers license received at the state office. Under the new real estate code of the state a broker cannot work as a salesman for another broker, and for this reason a number of applications have been returned to those who applied for license, and they in turn, will have to apply for salesman licenses.

Roster Prepared
The official roster of members, committee chairman and officers of the board will be made up by the secretary before February 1, to be sent into the national association and published.

Concluding the business of the day, Mr. Dale gave the treasurer's report for the past year, showing a total of \$141.98 on hand Jan. 1.

SUCCESSOR TO MILLER NAMED

(Continued from Page One)

ance which the Southern Pacific attach to this position.
Biggs is a young man with a wide experience and it is freely predicted will very soon win his way into the hearts of all of the good people of Klamath Falls.

Demarais to Sarem
Earl A. Demarais who has been in Klamath Falls as traveling freight and passenger agent since last summer is being promoted to Sarem as district freight and passenger agent and he will be succeeded by one of Klamath Falls' own boys, C. H. Foster.

Foster comes from an old pioneer family of northern California and southern Oregon. He came with the Southern Pacific company fifteen years ago and held such positions as ticket clerk, freight clerk, chief of the rate desk and his knowledge of traffic matters both from a railroad standpoint as well as the requirements of the shippers merits the promotion he has received. He knows the needs of the lumber, livestock and agricultural activities of the district and with the vast experience he has had, he will be able to render an excellent service. Foster's many friends will be happy to learn of his well earned advancement.

HOOVER 'PANS' MUD SLINGERS

(Continued from Page One)

shirts and that presidents differ only by their larger wardrobes," he wrote, "for certain individuals, newspapers, associations and institutions affiliate as haberdashers in this regard with a high generosity which guarantees both humility and urbanity."

Nevertheless, the chief executive drew immense satisfaction from what he termed "the majority" that regardless of party affiliations is anxious that he be successful in his administration of the nation's affairs.

Hoover Not Misled
Dr. Thompson had sent the president a message of New Year greeting, in which he incorporated "a bit of council growing out of half a century of observation." This was that the chief executive should not be misled or disheartened by partisans working for his failure and by those who seek the truth by the dissemination of falsehood.

"The human flood which flows through the White House," the president replied, "shows all the dark colorings and the flotam that you mention, but it is brightened more than you think by the majority who, regardless of party, genuinely wish to help the president to succeed in his task. Of course, it is true that malice is sometimes the road to newspaper headlines, and there will always be partisans desirous that the president should fall even if their stratagems injure the country or whose daily toll is to mix mud pies. But if these blots were other than exceptions, this nation would not have swept to a mightier and mightier destiny every year since the independence."

Must Increase Truth
He asserted "the discovery and promulgation of the truth is a vital question of public action. We can and must, he said, "greatly increase the production of truth and we must know the truth before the grave interest of 120,000,000 people is involved in government policies. And the truth," he added, "is hard to discover."

POSTPONE MEETING
Owing to the absence and illness of several of the members of the Art Needle Work club, the regular meeting has been postponed until February 4, it was announced by the president, Mrs. Z. G. Powell this morning. The meeting was to be held Wednesday afternoon. Further announcement of the meeting, giving the place, will be given later.

WINTER TAKES TOLL OF LIFE

Snowstorm In Arizona Claims Two Men By Exposure.

(Continued from Page One)

ly, in a collision between their bobbed and an automobile.

At Walla Walla, the body of a middle-aged man, presumably frozen to death, was found in a Snake river cabin. He was not identified.

California likewise reported two fatalities in addition to other ravages of the storm.

Struck by Coaster
Hiram Shearer, 73, city marshal of Nevada City, died from a fractured skull received while directing traffic on one of that mountain city's precipitous streets. Shearer was run down by a coasting sled.

In Los Angeles, Morris Feldman, his vision obscured by rain, drove his automobile in front of a Pacific Electric train on Foothill Boulevard and was killed. An unidentified woman who was with him suffered a fractured skull and her recovery was in doubt.

Meanwhile practically the whole state of California was swept by snow, rain and hail. Snow fell in places where it is seldom seen as the storm kings plunged havoc with motorists, marring hundreds in winter resorts.

Automobiles Abandoned
In the Sierra foothills, 300 automobiles were abandoned between San Andreas and Angels Camp, while their occupants estimated to be in excess of 1,500, sought refuge from the falling snow and bitter wind in farm houses at Murphy's, Vallejo, Angels Camp and other communities. They were enroute to the winter carnival at Calaveras Big Trees when the storm broke, piling drift upon drift to block the roads.

Angels Snowbound
In the Los Angeles district, similar conditions prevailed. Scores of motorists were reported snowbound in Cajon Pass while 500 residents of winter resorts in the San Bernardino mountains were held prisoners in their cabins. Relief parties on snowshoes, followed by snow plows were battling through the drifts to reach the marooned persons. No fear is felt for their safety, although full details of their plight were not known due to telephone wires being down. Drifts twenty feet deep were reported blocking the roads.

RANCH YIELDS 40-GAL. STILL
(Continued from Page One)

A warrant is now out for his arrest.

Trip Out Difficult
The officers had to hike 15 two miles to the cabin where they found the illegal evidence, but the trip out was worse, as they had to carry the unwieldy still.

It was learned that Ernest Peppulos did a two year term, 1925-27, on McNeil's island for violation of the Harrison narcotic act, and that W. E. Titus had against him a former conviction in California and a \$400 fine.

Titus and Peppulos are being held in the Klamath county jail.

Two Laying Out Fines
Later in the day, L. C. Martin was arrested at 9th and Oak streets, and charged with the possession of four pints of moonshine whisky. Martin plead guilty before Justice of the Peace Barnes today, and was committed to jail for 100 days when he failed to pay a \$200 fine.

Tency Wilson, a negro, was also arrested Sunday, and charged with possession and the sale of intoxicating liquor. She plead guilty to the charge in the justice court this morning, and is serving a term in jail, as she could not pay a \$200 fine.

Tunnel Opening Program Recalled By Great Northern

The opening and dedication of the Great Northern's 8-mile tunnel under the Cascade mountains in western Washington one year ago will be recalled in a "flashback" during the course of a dramatic sketch which "Empire Builders" will present Monday night (January 13) over the National Broadcasting company's network. There will be re-enacted the scene at the east portal of America's longest railway tunnel as the first train consisting of twenty-five Pullman slips quietly into the giant bore on its 8-mile journey to the west slope of the range.

Snobbery Gets Jolt
The story itself has to do with a movie queen whose rise to fame turned her head. She pays a visit to a sister whose husband is an engineer engaged in driving the gigantic tunnel. Snobbery gets a rude jolt when real work is being done.

Members of the cast include the Old Timer and Virginia Gardner, while the musical background is furnished by Bob MacGimsey, three-part harmony whistler and Andy Sanella and his orchestra.

Nationwide Broadcast
The program will be broadcast from 7:30 to 8 o'clock Pacific coast time; 8:30 to 9 mountain standard time; 9:30 to 10, central standard time, and 10:30 to 11 o'clock eastern standard time.

SUBMITS PLANS TO AID LAWS

(Continued from Page One)

American people may disagree upon the merits of some of the questions involved every responsible citizen supports the fundamental principle that the law of the land must be enforced.

The development of the facts shows the necessity for certain important and evident administrative reforms in the enforcement and judicial machinery, concrete proposals for which are available from government departments. They are in the main:

- 1-Reorganization of the federal court structure so as to give relief from congestion.
- 2-Concentration of responsibility in detection and prosecution of prohibition violations.
- 3-Consolidations of the various agencies engaged in prevention of smuggling of liquor, narcotics, other merchandise and aliens over our frontiers.
- 4-Provision of adequate court and prosecuting officials.
- 5-Expansion of federal prisons and reorganization of parole and other practices.
- 6-Specific legislation for the District of Columbia.

More Power to Commissions
I append hereto a preliminary and a supplementary report from the commission of law observance and enforcement, relating to several of these and other questions. I particularly call attention to their recommended plan for reducing congestion in the federal courts by giving court commissioners enlarged powers in minor criminal cases. Their discussion of the workability and the constitutionality of the plan, which is concurred in by the eminent jurists upon the commission and others whose advice they have sought, is set out in

more detail in the supplementary report. I also append memoranda from the attorney general and the Secretary of the treasury upon several phases of these problems.

Believes Changes Will Help
I believe the administrative changes mentioned above will contribute to cure many abuses. Beyond these immediate questions are others which reach deeply into the whole question of the growth of crime and enforcement of the laws. The causes of crime, the character of criminal laws, the benefits and liabilities that flow from them, the abuses which arise under them, the method by which enforcement and judicial personnel is secured, the respective responsibility of the federal and state governments to these problems, all require further most exhaustive consideration and investigation, which will require time and earnest research as to the facts and forces in action before sound opinions can be arrived at upon them.

HERBERT HOOVER

The amount of money in circulation in the United States—gold, silver and paper—is about \$40 per capita.

Heavy Snowfall Blocks Highways

According to a late report from the information department of the chamber of commerce, eight inches of snow fell on the Sand Creek Mountain summit, on the Dallas-California highway Sunday night. Snow plows have been at work, however, and the highway is open.

Both the Merrill-Malin route, and the Lakeview route to Alturas are impassable again, but the Lakeview highway is open, as is the Ashland-Klamath Falls highway.

It has been unofficially reported that 10 inches of snow has fallen beyond Grants Pass. Chains are an absolute necessity on all highways.

Corrections To Errorgrams

(1) The portrait of Thomas Jefferson, not Samuel, is on two-dollar bills. (2) "Cheque" should be check, when it has reference to a lunch check. (3) The man at the right could not spend a new yellow-back, as all the new bills are green-backs. (4) President Garfield's picture is not on any of the new bills. (5) The scrambled word is lightning.

A THREE DAYS' COUGH IS YOUR DANGER SIGNAL

Coughs from colds may lead to serious trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a medical discovery with two-fold action; it soothes and heals the inflamed membranes and inhibits germ growth. Of all known drugs creosote is recognized by high medical authorities as one of the greatest healing agencies for coughs from colds and bronchial irritations. Creomulsion contains, in addition to creosote, other healing elements which soothe and heal the inflamed membranes and stop the irritation, while the creosote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germs. Creomulsion is guaranteed satisfactory in the treatment of coughs from colds, bronchitis and minor forms of bronchial irritation, and is excellent for building up the system after colds or flu. Money refunded if not relieved after taking according to directions. Ask your druggist. (adv.)
