He Kept Faith

IF Harry Corbett keeps faith with the people of Oregon as well as he did with Klamath county chamber of commerce, he will make one of the best governors the state ever had.

Mr. Corbett came to Klamath not to speak on his candidacy but to discuss Oregon's needs as he views them. This he did in a capable manner, refraining from any mention of his candidacy and giving a clear-cut and forceful message on the state's development and future needs.

As the first of the candidates to appear on the chamber of commerce forum program, Mr. Corbett has set an example for the others to follow. He has placed the state's welfare above his personal ambition and in so doing has demonstrated his ability to serve as Oregon's chief executive.

Business Men As Diplomats

THE new tradition in American diplomacy seems to call for the appointment of business men to important diplomatic posts. The action of President Hoover in naming John N. Willys American ambassador to Poland is in line with this tradition.

Both the tradition and this appointment seem to us logical. After all, it is the world of business that generally enlists the services of the most capable men in America; why not draw on that world for important governmental jobs? We are a nation of business men; why not make business men our representatives abroad?

It goes without saying, of course, that Mr. Willys is eminently fitted to represent the world of business in this manner. That being the case, and taking this new tradition for granted as a proper one, his appointment as ambassador looks like a good move.

Necessities are those simple things people can cut down a little when times are hard.

You can say one thing for the talkie. At the age of seventeen, few have such old ideas.

Mr. Coolidge remains consistently modest. In naming the eight crucial events in U. S. history, he didn't mention the Boston police strike.

PROPAGANDA AND ART. The lightest of film extravaganzas and the most irresponsible of "thrillers" are now liable, it seems, to play a part in forming international public opinion. Not long ago complaints were made of the picture of Far Eastern character presented in some sensational London dramas, and now it appears that the patriots of Shanghai are objecting to the ceremonial reception of Mary Pickford and Douglas Fairbanks in that city on the ground that in "The Thief of Bagdad" Mr. Fairbanks "undermined the honor and dignity of the Chinese people" by seizing a Mongolian prince by his pigtail and hurling him off a veranda.

DAILY LETTER ON AFFAIRS AT U. S. CAPITAL

Grundy, Gaining Power As a Senator, May Take Position in G. O. P. As a Second Penrose.

BY RODNEY DUTCHER, NEA Service Writer

WASHINGTON, March 13.—A while ago, when Mr. Joseph R. Grundy came into the Senate by appointment from the governor of Pennsylvania, his enemies guessed that he had him where they wanted him and that instead of wielding his former great power as king of the tariff lobby he would be just an insignificant senator of no special potency.

But probably nothing of the sort ever occurred to Mr. Grundy, and if what are supposed to be Senator Grundy's dreams actually come true he will be blossoming out one of these days as the most important of politicians, stepping into the quite vacant shoes of the late Boies Penrose.

Even in the Senate, where the coalition forces which have been making such hash of the tariff bill, Senator Grundy, a manufacturer of worsted yarns, is sitting pretty insofar as his own pet schedules are concerned. Grundy has had his fingers on the wool schedule ever since the House began to think of the tariff bill and now that the Senate has approved or raised the high rates of the House his victory is assured.

Senator Grundy himself did not vote on the items of the wool schedule, but enough backward state progressives came to his aid to put the stiff duties over. It was after considerable consultation with Senator Grundy that Senator Thomas of Idaho introduced his amendment making the woolen rates apply to all goods containing as much as 15 per cent wool.

Previously the Senate had deluged Grundy and other worsted manufacturers with favors by raising the duty on wool rags, thereby boosting the raw material costs to their competitors, the carded woolen manufacturers, and creating a market for their own wastes by making the duty on foreign rags and wastes prohibitive. It also boosted both specific and ad valorem duties on wool fabrics to "cover" the increase on raw wool.

Although Grundy's dissatisfaction with Hoover is well known, the idea that he is after Hoover's scalp probably is the bunk. Hardly anyone supposes that Hoover will become so badly bogged in the next two years that he can be denied renomination. But that Grundy can become a second Penrose and dictate to party and president alike is quite within the realm of possibility, especially if the present brand of White House politics isn't improved.

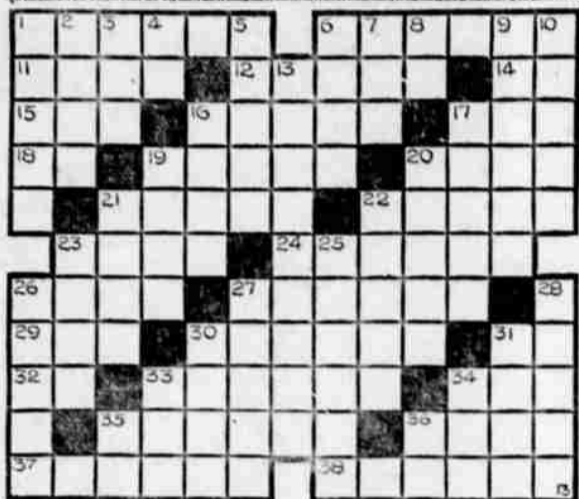

Grundy will seek the senatorial nomination and at the same time demand a Grundy man for governor and Grundy men for other state offices. It appears certain now that Boss William S. Vare of Philadelphia, unless he suffers a various collapse, will head a Vare ticket in opposition. There is also a threat that former Governor Gifford Pinchot will oppose Grundy and Vare in the primary.

He May Be Beaten. A very real chance appears to exist that Senator Grundy will lose the nomination and his supposed high ambitions along with it. Besides the Vare machine he presumably will have the Atterbury and Stotesbury interests against him. He has no personal popularity with the mass of Pennsylvania voters and organized labor in the state is expected to oppose him pretty solidly.

Furthermore, after the scandal of the 1924 primary, which cost Vare his Senate seat after he had been nominated and elected, comparatively little money will be spent on campaigns in Pennsylvania this year. And the one thing that Grundy always deems best of all is to raise great sums of money for campaigns.

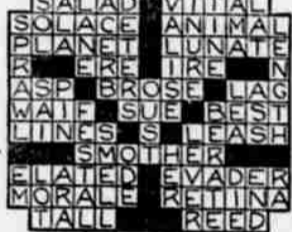

SHIP WILL SAIL. HAVRE, France, March 13 (AP)—Announcement was made today that the steamship Paris will sail tonight at 10:30 with a French naval crew unless its own crew, now on strike, returns before that hour. The strike was said to have been called because the seamen's union did not approve of contracts which the men had signed with the steamship company. The Paris was scheduled to have sailed last night.

Fitts is said to be penniless. Some claim he is a sick man with but a few years to live hence his activity to serve in public office. City people are worse than any other brand of bores when it comes to clinging to gossip about public men. All they need is some one to tell them some bit of out of the ordinary stuff and my, how they do roll it under tongues and repeat it for facts.

Fitts may not be broke and he may not be a sick man, but his supporters have found two things that appeal to the Los Angeles mind and give women at their bridge parties something to talk about.

The mill will be equipped with both band and gang saws.

Deputy Sheriff James Wheeler and E. H. Henry left on the morning train for Salem, having in custody Nobel Faulder, who was convicted of murder of Louis Gebbert, and who was sentenced by Judge H. L. Benson to be hung on May 3, 1912. Faulder's attorney's have been given 30 days in which to file a motion for new trial, or to appeal. Even though the appeal is not taken, it is not probable that Faulder will be executed on the date set, as Governor West has so far extended the date of all executions until after the election in November, when the people will have an opportunity to vote on the question of abolishing capital punishment.

Fifteen Japanese arrived here yesterday in the charge of Mr. J. Douglas from California, and will be taken to Doak's ranch on the Upper Lake where they will be put to work to raise garden produce. The Japanese are noted as expert gardeners, and it was thought that it would be a good idea to import a number from down below, and see if they can make a success of it. Celery, among other things will be tried and if it proves successful, it is hoped that provisions will be made to carry on the production on a large scale.

Victor Hasson was beaten about the face and head.
