

ATHEISTS NOW FEEL MODERATE CAMPAIGN BEST

Advocate Educational Opposition Rather Than Violence

MOSCOW, March 21. (AP)—Official warning to be moderate in carrying out the anti-religious campaign of the soviet government and the communist party was the interpretation gained today from speeches before the opening of the all-union congress of Atheists.

A succession of speakers told the congress that their propagandists must abandon the idea that religion can be exterminated in Russia overnight. They declared that excesses committed by Atheistic workers and village officials in the war on religion must forthwith cease.

Force Renounced
The conclaves was warned that no attempt must be made to close churches by force, to remove church bells, to coerce peasants into joining the league of the Godless, or to proclaim entire districts as "Atheistic Regions."

Alternatives of peaceful argument, persuasion, propaganda, and scientific explanation were listed

by Emeljan Yaroslavsky, chairman of the Society of Militant Atheists, who declared that propaganda particularly must be intensified, partly among women who, he said, were more ignorant and superstitious than men.

Strike Back at Pope
This moderation, however, did not prevent speakers striking back at Pope Pius for his recent denunciation of the anti-religious campaign, an for his mass and prayers Wednesday at St. Peter's. The "Godless one," official Atheist organ, printed a drawing of the Pontiff sitting placidly on a throne while victim after victim of the religious inquisition was hanged and tortured before him.

The caption, "Your blood-stained hands are too short to strangle Soviet workers," was carried over the picture, while in the accompanying columns it was said:

Need No God
"Those who overthrow on earth the thrones of the ceas, manufacturers and land-owners, those who build a new life with their own hands, are in no need of a God or heavenly protection.

"Our laborers no longer wish for the chiming of bells, the light of holy candles, or the burning of incense. They want to build palaces of culture, to erect tall radio masts and to cover their country with a long chain of universities."

NEEDS TRAVEL
"Don't you think that travel broadens one's mind?"

"Yes; you should take a trip round the world."—Fann, Vienna.

A WISE MOTOR CAR INVESTMENT

Consider a few of the basic facts that make the new Chevrolet Six such a thoroughly sound investment.

It offers a great six-cylinder valve-in-head engine, with its capacity increased to 50 horsepower . . . assuring the smooth, quiet, resilient performance which is so essential in a modern automobile.

It offers the all-weather braking efficiency of internal-expanding, completely enclosed, 4-wheel brakes—big, powerful, quiet and extremely easy to apply.

It offers the modern riding comfort of four long semi-elliptic, chrome-vanadium steel springs—under the cushioned control of Lovejoy hydraulic shock absorbers.

It offers the greater beauty, comfort and safety of bodies by Fisher—built of selected hardwood and

steel . . . providing thousands upon thousands of miles of quiet, care-free service.

It offers scores of individual features that contribute to the pleasure and convenience of present-day motoring—

—a new Fisher VV non-glare windshield; foot-controlled, twin-beam headlamps; adjustable driver's seat in all closed models; dash gasoline gauge; and safety gasoline tank, located in the rear of the car.

These and many other improvements have been incorporated in the new Chevrolet Six.

With all these important advancements—coupled with greatly reduced prices for the entire Chevrolet line—it is only logical that thousands are saying every day—"The New Chevrolet Six is a wise motor car investment!"
