Woman First of Her Sex To Raise Champ Jersey

By NEA Service
 OREGON CITY, Ore., May 12.—Horace Greeley's advice to young men was applicable to young women as well. Mrs. Florence Gale Neal thought 10 years ago. So she picked up, left Connecticut and headed west.

Greeley's words in her case proved true, for she now holds the distinction of being the only woman in America to breed and test a Jersey cow that has produced 1,000 pounds of butterfat in one year.

Back of Mrs. Neal's success is a story of hard work and perseverance. Her champion cow, "Tiddleywink's Quality Girl," came through with her record production only after Mrs. Neal had raised and cared for her from the time she was born.

With the help of three sons, Mrs. Neal treated and tested the cow under the supervision of the State Agricultural college. In return for her care, the cow gave Mrs. Neal 1,000 pounds of butter fat and 17,278 pounds of milk. That meant a profit of \$976 above feed cost.

Mrs. Florence Gale Neal of Oregon City and her champ Jersey cow, "Tiddleywink's Quality Girl." Two of her sons, Richard and John, are shown with her.

Has Thoroughbred Herd
 "Tiddleywink's Quality Girl" is not the only blue-blooded animal in Mrs. Neal's herd. In nine years Mrs. Neal has developed about 40 purebreds, among them the dam and granddam of "Quality Girl." She entered the first of her prize animals in the 1921 Oregon State Fair. In this show she won senior and grand championship honors for cows and first and second on offspring of one sire. Since then she has competed and won in all major western stock shows.

To date, Mrs. Neal's 50-acre farm has produced cows which have won ten silver medals, six

gold medals and two medals of merit for high production.

Her farm contains such modern dairy appliances as a sterilizing plant, electric refrigeration, milking machines and all equipment necessary for a sanitary, efficient dairy plant. Because of these sanitary conditions, milk from her herd demands top prices on the market.

Second Record for Cow
 Much of the milking on the farm is done by machine. In fact, during the 365 days "Quality Girl" was on test all the milking was done mechanically.

Her 1,000-pound production was not "Quality Girl's" first

record, even though she is one of the 25 Jerseys out of all in the country this have achieved this mark. In a previous test she became the world's champion senior 4-year-old Jersey producer, on 295-day test, with a record of 828 pounds of butterfat and 12,848 pounds of milk.

Mrs. Neal's sons were a great aid to her in bringing "Quality Girl" through to her record. The champion woman Jersey breeder says that credit is due her son, Richard, for feeding and milking test cows, to John for showing the herd and Robert for handling the milk.

LATEST NEWS OF MARKETS

PORTLAND, May 13. (AP)—The Sperry Flour company has announced reductions in prices of flours and feedstuffs.

Egg and butter prices continue without change. Quotations on both products were barely steady. Supplies have increased considerably since the week-end.

Reviewing the fruit and vegetable situation, the Portland bureau of the U. S. department of agriculture says:

"California strawberries were scarce due to cool weather at shipping districts. Some California districts have stopped shipping. Oregon and Kennewick Wash. strawberries met with a good demand, and moved readily to retailers at \$5.00-\$5.50 per 24 pint crate. Receipts of northern western berries will be liberal in a few days, weather permitting.

"Apples have met with active distribution during the last few days, and local storage stocks are rapidly decreasing. Prices remain steady. Present rate of movement of about 40 cars daily from Washington promise to rest state to a very light volume by the end of May.

"Oranges and lemons are unsettled, with a generally advancing tendency. Hot weather in the east is resulting in active demand from that district; and California's summer citrus crop is short.

"First California tomatoes were received Monday. These are mature green stock, of good size and quality.

"Radishes are plentiful; but good stock is scarce at 30¢ per dozen bunches. Many radishes show worm-damage and generally poor quality.

"FLOUR: lower; city delivery prices: family, 48¢; \$7.00; whole wheat, \$6.10; Graham, 49¢; \$5.90; Bakers' hard wheat, 98¢; \$6.20; Bakers' bluestem patents, 49¢; \$6.50; pastry flour, 49¢; \$6.50.

"SUGAR: (caked basis) steady; cane, fruit or berry, \$5.10 per cwt. Beet sugar \$4.95 cwt.

"BUTTER AND EGGS: barely steady, unchanged.

"MILK (butterfat), poultry, country meats, onions, potatoes, wool, nuts, hay, cascara bark and hops steady and unchanged.
