Klamath Falls Chesty—

No wonder Klamath Falls is feeling chesty, said Jack Slater of that city, who is in Portland. "The new railroad extension to be built by the Great Northern from Klamath Falls into California is of great importance to us. Klamath Falls has been going forward rapidly since the coming of the first railroad a few years ago and now with the Great Northern's new program, there is no doubt about the future of our part of Oregon. The residents of Klamath Falls are elated over the announcement." In the opinion of Mr. Slater there is nothing that can prevent his town from becoming one of the best cities in the northwest and it will be the commercial center of southeastern Oregon.—Oregonian.

Celebration to Have Realistic '49 Background

The realistic '49 village which is being constructed for use during the '49 celebration, will be in every detail a typical pioneer village, with saloons, old time dance hall, and everything that comprised the habitations of the '49ers.

Work is in charge of Archie Rice and is progressing rapidly. It will be completed in time for the opening day of the celebration, July 3rd.

An old model log fortress, similar to those used by our great grandfathers to protect the town, is being constructed of log slabs. The front will resemble the fortresses used to protect the pioneers against the Indian war.

Standing Shows Candidates Close

The official standing of the candidates in the Days of '49 popularity contest follows:
Claire Ellis 12,000
Winnie Barrett 11,000
Sophia Bruchou 10,100
Marjorie Richardson 10,000
Grace Glenger 7,500
Agness Green 7,000
Ann Crawford 6,500
Tina Nitschelm 6,200
All the candidates are running so close that it is impossible to tell who will be ahead tomorrow, or who will be the winner, Mr. Glover, chairman, stated.

MARKET QUOTATIONS

PORTLAND, June 26 (AP)—
Butter and egg prices ruled steady in the Portland wholesale market today. Egg demand showed improvement. Butter dealers reported a moderate volume of trading with a fair demand for storage.

Country dressed meats and poultry prices remained unchanged except for a 1 cent drop to 16 cents for choice veals brought about by a draggy movement of supplies on hand.

Strawberry receipts are declining, but quality is generally fair to ordinary, thereby accounting for today's lower values. Barrellers' supplies continue at an unexpected liberal volume, one barreller alone reporting processing of 150 barrels of strawberries at their Oregon plants yesterday. In view of present quality, growers are now realizing greater returns from their sales to barrellers than for fresh stock.

Raspberries are arriving in limited volume, but main movement will not occur until after July 1st. Cool cloudy weather is delaying maturity.

Distributors comment upon the apparent slow demand for cherries. Many Royal Anns and other varieties are jobbing for only 4-9c per lb., or no more than canners' contract prices, at growing districts.

Cool weather is proving ruinous to watermelon distribution. With 25-30 cars of melons on track, unloads are limited to only a few cars. Total U. S. watermelon shipments yesterday reached over 1700 cars. Most of this movement is from Florida, Georgia and Texas.

Eastern pea markets continue to decline. Present loadings are selling at \$2.00 or less, per crate, f. o. b. cash track, for No. 1 peas.

CATTLE: Receipts 35, calves 19, slow, nothing sold early.

HOGS: Receipts 709, includ-

ing 492 direct, steady to weak SHEEP: Receipts 1000, weak (Quotations except on lambs on shorn basis) lambs, \$4 lbs. down, good to choice \$1.90-\$2.15; ewes, 120 lbs. down, medium to choice \$2.25-\$2.75; 120-150 lbs. \$1.75-\$2.50; all weights common, \$1.00-\$1.75.

St. Louis Records Two Earthquakes

ST. LOUIS, June 26, (AP)—
Two earthquakes, believed to have occurred in the Aleutian Islands off the coast of Alaska, were recorded on seismographs at St. Louis University today. The first, of moderate intensity, lasted an hour and fifteen minutes, the intensity being greatest at 4:27:17 and 4:34:53 a. m. The second earthquake, considerably weaker, occurred at 6:12:39 and 6:20:03 a. m.
