### YOU CAN'T AFFORD IT

NO MATTER how many fine silks and woolsens you own, you can't afford to wash them in hot water. Because, even if you have the price of new ones, you can't renew the tender skin of hands that emerge red and swollen from hot wash basins.

If you think that only hot water can get clothes clean, here's news for you! White King Granulated Soap, a pure vegetable and nut oil soap, will yield quick, cleansing suds in cool or lukewarm water. Gingham and prints will stay bright, white goods wash whiter, and your hands will remain smooth and soft.

White King Granulated Soap is condensed. You will be surprised to find how little is required. It's the safest and yet the most economical soap you can buy. Hard water does not hinder its effectiveness. Have you tried it? At your grocer's.

LONDON—The Underground Railway has removed from the sides of its cars a poster which has caused no little comment because some gossip seekers term it indecent. It shows an actress entering a bathroom draped only in a towel, while a strange young man, who entered her room by mistake, lies in bed gazing with one eye open. His apparent wish is what caused all the comment.
